- 1969** Moved to own premises in Albert St, Auckland – 2,500 sq ft.
- 1960** Griffiths Equipment Ltd commenced business as a performance subsidiary of Griffiths Motors Ltd. The Wildcat brand originated in 1960. It started when Rootes Group first fitted their outstanding 1500cc OHV engine into the Hillman. This saloon car proved a winner on the circuits and quickly created a demand for increased performance. Griffiths Equipment started producing twin carb manifolds for this engine and introduced a floorshift gear change conversion to replace the existing column shift. This was extensively used by both family and sporting motorists.

**KICKER  
15IN 1000W L7 SOLO BARIC  
SUBWOOFER 4-OHM**

The KICKER Solo-Baric L7S boasts massive power handling and more cone area than any circular sub. You move more air, so you get more bass. The heavy-duty motor structure includes a large-diameter spider for less flex, longer life and superior accuracy.

- Dual Four-Ohm Voice Coils
- Injection-Molded Polypropylene Cone
- Patented Corner Ribs Minimize Distortion
- SoloKon 360-Degree Back Bracing
- Ribbed Santoprene Surround With Blue Surround Stitching
- UniPlate Back Plate And Pole Piece, Plus Perimeter Venting For Excellent Thermal Management
- Large Ceramic Magnet
- Cast Aluminum Basket
- Satin-Nickel Plated, Spring-Loaded Speaker Terminals.

PRODUCT CODE  
**80 44L7S154**

**KICKER  
12IN 600W SUBWOOFER  
WITH DUAL 2-OHM VOICE COILS**

It's simple - more cone means more air moves. KICKER's L7R Square Sub technology gives you up to 20% more cone area than a round sub. The L7R's powerful motor delivers big bass, while utilizing next-level thermal management for optimal performance.

- The L7R 12-Inch Subwoofer works best with 600 watts of recommended power in a sealed or ported enclosure.
- The engineers at KICKER HQ designed the L7R to give you more bass than a circular sub, without a larger enclosure.

PRODUCT CODE  
**80 45L7R122**

**KICKER  
15IN 900W RMS SUBWOOFER  
WITH DUAL 2-OHM VOICE COILS**

KICKER's L7R Square Sub technology gives you up to 20% more cone area than a round sub. The L7R's powerful motor delivers big bass, while utilizing next-level thermal management for optimal performance. The full 360-degree back bracing keeps the entire cone strong and stable for smooth, distortion-free bass.

- Dual 2-Ohm voice coil.
- Patented ribbed corners.
- 360-degree back bracing.
- Nickel plated speaker terminals.
- UniPlate back plate and pole piece.
- Bumped back plate.
- Large ceramic magnet.

8IN 150W COMPACT HIDEAWAY  
POWERED SUBWOOFER ENCLOSURE**

At just over 3in tall, the Hideaway will fit under many seats and in storage areas where you don't usually find powered subs. The powerful, built-in 150-watt RMS amplifier delivers strong bass that'll add depth and punch to any type of music.

- Remote bass control.
- High and low-level inputs for integration with nearly any factory or aftermarket head unit.

PRODUCT CODE  
**80 11HS8**

**KICKER  
10IN 180W COMPACT HIDEAWAY  
POWERED SUBWOOFER ENCLOSURE**

A compact powered 10-inch subwoofer that delivers surprising low frequency impact in a tough, all-aluminum frame, providing signature KICKER bass in a small enclosure.

- Accepting input signals ranging from 0.25 volt to 40 volts (400 watts at 4 Ohm) and fully compatible with newer vehicles using start/stop systems.
- Remote control allows you to change the amount of bass without changing the radio volume, for the perfect mixture of bass in your music at any volume.
- A mere 2mm taller than its little brother the HS8, the HS10 delivers more power.
- Quick-connect Molex® plug and harness includes power, signal and remote turn-on. It also features high- and low-level inputs for integration with nearly any factory or aftermarket head unit.

PRODUCT CODE  
**80 46HS10**

**KICKER QS SPEAKERS**

QS Component and Point Source speakers are more than just the best sounding drivers KICKER have ever made. They're a technical marvel. Using their signature Tri-Tech™ cone on the separates and Kevlar-impregnated Polypropylene on the coaxials, Teton® dome tweeters and metallized polypropylene capacitors, QS speakers deliver the sparkling highs and hyper-accurate midrange you need to feel like you're front row center!

**KICKER**  
**6.75IN 200W COMPONENT SPEAKER PAIR**

QS 6-3/4 Inch Separates are a matched component system, built for pure sonic reproduction. The QS Series crossovers allow you to use a single amplifier channel or use bi-amplification for even more flexibility and control. These QS separates work best with 100 watts of recommended power.

- QS speakers deliver the sparkling highs and hyper-accurate midrange you need to feel like you're front row center!
- The stunning midrange drivers, tonally precise tweeters and a superior crossover network come together to form an audiophile-quality component set perfect for demanding listeners.

**KICKER**  
**6.75IN 200W 2-WAY COAXIAL CAR SPEAKER PAIR**

A Kevlar-impregnated polypropylene woofer cone steps up strength and clarity in the midrange and lower frequencies, while the Teton dome tweeter delivers all the high-frequency detail.

- 2-way 6-3/4 inch car speakers
- Kevlar-impregnated polypropylene woofer cone
- External crossover network with bi-amping capability and three-level tweeter attenuation
- Handles up to 100 watts RMS (200 watts peak power)
- Frequency range: 40-20,000 Hz
- Sensitivity: 86 dB
- Impedance: 4 ohms
- Grilles included

PRODUCT CODE  
**80 44QSC674**

**KICKER**  
**6.5IN 250W COMPONENT SPEAKER SYSTEM**

KICKER KS-Series Speakers let you play at concert-like volume, yet maintain the smoothness and subtlety to please even the most selective ear. Internally dampened polypropylene cones and durable rubber surrounds assist the woofers in creating precise midrange and bass, while high-quality silk-dome tweeters deliver natural, detailed highs.

- The KSS 6-1/2 Inch Separates are a matched component system, built for awesome sound
- High power handling with extended dynamic range
- Silk dome tweeters for a smooth sound
- Polypropylene woofer and tough rubber surrounds

PRODUCT CODE  
**80 47KSS6504**

**KICKER**  
**6X8IN 225W COMPONENT SPEAKER SYSTEM**

CS-Series 6x8 inch Component Speakers are the perfect factory upgrade when you have a separate woofer and tweeter. CS-Series components include separate titanium tweeters and two-way crossovers with tweeter level control to let you customize your sound for the best sonic quality.

- Fits nearly every car made
- 12dB crossovers with a smaller footprint for easier installation
- Three-position tweeter switch for dialing in your highs
- EVC (Extended Voice Coil) technology help deliver remarkable bass response
- Titanium tweeter construction and neodymium magnets to reveal subtle details
- UV-treated poly-foam surround assists with precise linear excursion
- Phase plugs in the woofer cones eliminate any distortion
- Steel mesh grilles protect your drivers
- Three tweeter mounting options including flush, angled and surface pods

PRODUCT CODE  
**80 46CSS684**

**KICKER**  
**6.5IN 300W COMPONENT SPEAKER SYSTEM**

Designed for easy installation in nearly any vehicle, CS-Series components include separate titanium tweeters and two-way crossovers with tweeter level control to let you customize your sound for the best sonic quality. The result is precise control with stunning musical realism.

- Fits nearly every car made
- 12dB crossovers with a smaller footprint for easier installation
- Three-position tweeter switch for dialing in your highs
- EVC (Extended Voice Coil) technology help deliver remarkable bass response
- Titanium tweeter construction and neodymium magnets to reveal subtle details

**KICKER KS SPEAKERS**

KICKER KS-Series Speakers let you play at concert-like volume, yet maintain the smoothness and subtlety to please even the most selective ear. The high-performance woofers utilize internally dampened polypropylene cones and tough rubber surrounds for outstanding midrange detail and pounding bass! All KS-Series woofers feature an ultra-slim mounting depth to easily fit in most factory speaker locations.

**KICKER**  
**11N (25MM ) 4-OHM TWEETER WITH SWIVEL MOUNT**

KS-Series one-inch Tweeters uses a silk dome to reproduce your music with incredible smoothness and accuracy. Comes complete with flush, angled and surface-pod mounting options and an in-line 12dB crossover. If you crave more volume and realism – you found the perfect option!

- Silk-dome tweeters for a smooth, natural sound
- Four tweeter mounting options (hardware included)
- Extended frequency response for ultimate listening
- Lightweight neodymium magnets provide efficient highs
- In-line 12dB crossover included.
- Poly-switch protection
- Grilles included

PRODUCT CODE  
**80 46KST2504**

**KICKER**  
**3.5IN 100W 2-WAY COAXIAL SPEAKERS PAIR**

- Upgrade your audio to new levels of accuracy with extended frequency response and the smoothest highs
- Play music at concert-like volume while maintaining smooth subtle sound with these (2) 3.5-inch coaxial speakers
- Work best with 15 to 50 watts of recommended (RMS) power
- Internally dampened polypropylene cones and durable rubber sounds deliver precise midrange and mid-bass tones while high-quality silk tweeter produce natural, detailed highs
- Fits in almost any vehicle with low profile design and thin mounting depth that easily fits behind factory grilles (grills not included)
- Sensitivity: 88 dB; Frequency range: 80-20,000 Hz; Top-mount depth: 1.62 inches; Impedance: 4 ohms; Silk dome tweeter: 0.5 inches

**80 46CSC654**

**KICKER  
6 X 8IN 225W 2-WAY  
COAXIAL SPEAKERS PAIR**

CS-Series Coaxials deliver remarkable performance and ultra-clean bass with a heavy-duty motor/magnet structure not found in stock speakers. CS-Series 6x8-inch Coaxial Speakers are the perfect way to upgrade your factory system.

- Fits nearly every car made
- Zero-protrusion tweeters to fit nearly any factory depth
- Woofer EVC (Extended Voice Coil) tech assists with precise linear excursion
- UV-treated poly-foam surround resists heat or direct sunlight
- Large woofer magnet in a heavy-duty motor for ultra-clean bass
- PEI-tweeter construction provides superb clarity
- Neodymium tweeter magnets allow for increased volume in high frequencies

PRODUCT CODE  
**80 46CSC684**

**KICKER  
6 X 9IN 450W 3-WAY  
COAXIAL SPEAKERS PAIR**

The rugged 6x9-inch, 3-way speaker is especially cool. With a massive 300-watt peak power rating, this triaxial driver gives you extraordinary volume, while the integrated 2-inch midrange driver and dedicated tweeter give you crisp, accurate details for the realism you crave.

- Fits nearly every car made
- Zero-protrusion tweeters to fit nearly any factory depth
- Woofer EVC (Extended Voice Coil) tech assists with precise linear excursion
- UV-treated poly-foam surround resists heat or direct sunlight
- Large woofer magnet in a heavy-duty motor for ultra-clean bass
- Integrated 2-inch (50mm) midrange drivers gives detailed attention to mid frequencies
- PEI-tweeter construction provides superb clarity
- Neodymium tweeter magnets allow for increased volume in high frequencies
- Steel mesh grilles included for speaker protection

PRODUCT CODE  
**80 46CSC6934**

**KICKER  
5.25IN 225W 2-WAY  
COAXIAL SPEAKERS PAIR**

Kicker's low-protrusion tweeter, driven by a neodymium magnet, delivers your music's highs with control and clarity. Kicker's 5-1/4in 2-way speaker serves up stellar sound using a polypropylene woofer for the lower frequencies and a PEI balanced dome tweeter for the highs.

- Polypropylene woofer cone with polyester foam surround
- 1/2in polyetherimide (PEI) balanced dome tweeter
- Frequency response: 45-20,000 Hz
- Sensitivity: 90 dB
- Grilles included

**KICKER MARINE SPEAKERS**

KICKER went the extra mile to make these coaxials 100% marine-grade. Built from the ground up to be the best possible speaker for your boat, they added UV treatments to injection-molded cones and Santoprene® surrounds. They made splash-and-spray-resistant sealed motors, cones and locking/sealed terminal covers. Even the grilles have a built-in drainage port to prevent standing water. It's all engineered to maintain top-shelf performance for years to come.

**KICKER 6.75IN HIGH EFFICIENCY MARINE COMPONENT SPEAKER SYSTEM**

The KMS67 Tower System is a horn-loaded, compression-driver (HLCD), high-efficiency component system providing maximum sound quality and especially at a distance. The system is weather-proof with sealed cones, motor assemblies and UV-treated components.

- The system is weather-proof with sealed cones
- Peak: 400W, RMS: 200W

PRODUCT CODE  
**80 41KMS674C**

**KICKER 6.75IN 300W MARINE TOWER LONG THROW SPEAKER SYSTEM**

The KMT67 Tower System is a full-range, high-quality two-way speaker system with dual weather-proof, injection-molded enclosures.

- Enclosures designed for either below- or above-the-bar mounting
- The system is weather-proof with sealed cones, motor assemblies and UV-treated components
- Dual midrange drivers (per enclosure) provide twice the cone area for big sound
- Billet-aluminum brackets and clamp inserts adjust to seven common sizes, matching most every wake tower or roll-bar diameter

PRODUCT CODE  
**80 41KMT674**

**KICKER LED LIGHTING REMOTE WITH RECEIVER MODULE**

Make your KICKER subs and speakers light up.

- 19 lighting modes and 20 colours to choose from
- Fade, brightness, speed/strobe and colour options

PRODUCT CODE  
**80 41KMLC**

**KICKER 6.5IN 195W COAXIAL MARINE SPEAKER PAIR**

Our speakers are made to thrive in the water. UV treatments on injection-molded cones, Santoprene surrounds, baskets and grilles all help maintain top-shelf performance. KM speakers will endure almost any weather conditions with splash-and-spray-resistant sealed motors, cones and locking/sealed terminal covers.

- 4-Ohm voice coil
- 3/4-Inch titanium tweeter
- UV-treated polypropylene woofer with santoprene surround
- UV-resistant polymer basket
- Locking/sealed terminal cover
- Sealed motor structure
- 316l stainless mounting hardware included
- Charcoal and white grilles included

PRODUCT CODE

4X50W 4-CHANNEL AUTO EQ  
PROCESSOR CAR AMPLIFIER**

Measuring less than eight inches long and only two inches high, KEY amps fit nearly anywhere. Mount them behind your radio, under the seat, or in your trunk with ease. KEY amplifiers are fully compatible with nearly every stock and aftermarket radio on the road today.

- The KEY200.4 is one of the first amps fully compatible with newer vehicles using start-stop systems
- In addition to an unbelievable sound quality, the KEY200.4 delivers 200 watts of pumpin' power to your factory speakers. At KICKER, we know power and clarity always go hand-in-hand
- If the temperature reaches the threshold, the KEY200.4's dynamic power-management algorithms kick into gear
- 200 Watts Of Power (50x4)
- Auto EQ microphone with selector switch included
- Auto speaker size detection

PRODUCT CODE  
**80 47KEY2004**

**KICKER  
500W COMPACT MONO AUTO EQ  
SUBWOOFER AMPLIFIER**

Measuring less than eight inches long and only two inches high, KEY amps fit nearly anywhere. Mount them behind your radio, under the seat, or in your trunk with ease. KEY amplifiers are fully compatible with nearly every stock and aftermarket radio on the road today.

- The KEY500.1 is a smart subwoofer amplifier and audio processor in one, featuring an AI-driven DSP (digital signal processing).
- The KEY automatically analyzes the audio being fed into the amplifier.
- Craft your sound with ease! The KEY500.1 comes with 24dB sub-sonic and low-pass crossovers, bass boost and gain controls.
- Measuring about eight inches long and less than two inches high, the KEY500.1 fits nearly anywhere. Mount it behind your glove box, under the seat, or in your trunk with ease.
- The amplifier also features FIT 2+ (Fail-safe Integration Technology 2 PLUS) which provides nearly universal compatibility with stock or aftermarket radios.
- The KEY amplifier will work with almost every car on the road today, whether you have a factory or aftermarket audio system.
- KEY500.1 will actually work with all KICKER subwoofers up to 12 inches.
- Another industry first, the KEY500.1 is uniquely suited to accept factory input signals as high as 40 volts (400 watts).

PRODUCT CODE  
**80 47KEY5001**

**KICKER  
1200W MONO  
SUBWOOFER AMPLIFIER**

Using a Class-D power plant, the CXA1200.1 features a variable bass boost with KickEQ, giving you as much as a 6dB of extra bump with a simple turn of the optional CXARC Remote Bass Controller.

- Efficient Class-D amplifier
- Three-second turn-on/off delay to eliminate unwanted interference
- Variable 12dB crossovers provides control to dial in perfect sound
- KickEQ 6dB variable bass boost for those additional low frequencies
- 24dB subsonic filter for protection from potentially damaging frequencies
- FIT+ (Fail-safe Integration Technology-PLUS) means it works with nearly every radio
- Accepts up to 40-volt input signal
- Small footprint for easier installation
- Compatible with CXARC Remote Bass Control

- Variable 12dB Crossover
- KickEQ Variable 12dB Bass Boost
- ABYC/NMMA-Compliant Power Connections
- 316L Stainless-Steel Hardware Included

PRODUCT CODE  
**80 45KMA3004**

**KICKER  
450W RMS 6 CHANNEL  
MARINE AMPLIFIER**

Use this flexible KM six-Channel Marine Amplifier to power your system with ease and pump up the sound like only KICKER can! With this KM Six-Channel Amp, your boat is a floating concert!

- Class-D Power Supply
- Six-Channel Amplifier With Bridging Capability
- Three-Zone Control
- Full-Range Volume Controller Included
- Conformal-Coated Circuit Board
- Variable 12dB Crossover
- 24dB Subsonic Filter (Amp 3 Only)
- KickEQ Variable 12dB Bass Boost
- 316L Stainless-Steel Hardware Included

PRODUCT CODE  
**80 45KMA4506**

**KICKER  
MARINE COMPACT  
DIGITAL MEDIA RECEIVER**

Equipped with an easily readable screen, rotary encoder and over 200 watts of total peak power into four channels, the KMC3 comes equipped with plenty of power. Add even more bump to your boat by adding amplifiers to the included RCA outputs.

- Fits in gauge opening.
- Uses USB, RCA, AM/FM and Bluetooth audio sources.
- USB audio playback or charging.
- RCA outputs.
- IP67 certification.
- Bluetooth Range: 30 feet.

PRODUCT CODE  
**80 46KMC3**

**KICKER  
3IN 100W ENCLOSED  
MOUNTABLE SPEAKER POD PAIR**

Enhance the tunes on vehicles with handlebars but no fairing with PSM3 Mini-Enclosed Speakers. The PSM Mini 40 Enclosed Speakers are built for excellent sound on your ATV or motorcycle handlebars. These weatherproof speakers come in durable chromed enclosures, complete with handlebar mounting hardware.

- Built for excellent sound on your ATV or motorcycle handlebars.
- Weatherproof speakers in durable chromed enclosures.
- Complete with handlebar mounting hardware.
- Peak: 100W, RMS: 50W.

**KICKER  
MARINE DUAL ZONE  
DIGITAL MEDIA RECEIVER**

The KMC4 features four channels and up to 200 watts of built-in power. It comes equipped with an AM/FM/weather-band tuner, charging USB connection and four sets of RCA outputs for easy expansion. The KMC4 is ready for any music you want to play.

- Charging USB w/Thumb-Drive Playback
- Bluetooth Connectivity
- Full-Colour LCD Display
- 3" Hole Cutout
- KRC12 Remote Compatible
- AM/FM and Weather-Band Tuner
- Up to 10 Favorites for each source: AM and FM
- Front and Rear RCA Outputs, Plus Subwoofer and Zone 2
- AUX RCA Input

PRODUCT CODE  
**80 46KMC4**

**KICKER  
2X50W FULL RANGE STEREO  
AMPLIFIED CONTROLLER WITH  
BLUETOOTH**

The PXiBT100.2 Stereo Amplified Controller With Bluetooth is the only solution you need for sound in your ride. No radio necessary. Whether it's a motorcycle, side-by-sides, ATV or even a classic car, this weatherproof amp delivers the power you need, on or off the road.

- Stereo amplified controller with Bluetooth is the only solution you need for sound in your ride
- No radio necessary
- Illuminated display to change track, volume & source
- Delivers as much as 100 total watts into two channels

**CLARION SINGLE DIN CD MP3 RECEIVER WITH USB & AUX INCAR**

The CZ207AU single din audio receiver has a sleek and sharp edgy design. It is packed full of features including: AM/FM tuner, CD/MP3/WMA playback and USB/SD/AUX inputs. The sound quality is superb with a built in 45w x 4 amplifier and beat EQ sound customisation.

- CD/MP3/WMA playback.
- Single line high visibility LCD.
- Front USB for audio playback.
- SD card slot for MP3/WMA music playback.
- Front 3.5mm AUX input with sensitivity adjustment.
- Wireless infrared remote control included.
- OEM steering wheel remote ready.
- Subwoofer level control.

PRODUCT CODE  
**81 CZ207AU**

**CLARION SINGLE DIN CD MP3 RECEIVER WITH BLUETOOTH & USB**

The CZ307AU single din audio receiver has a sleek and sharp edgy design. It is packed full of features including built in Bluetooth for hands-free calls and wireless audio streaming, AM/FM tuner, CD/MP3/WMA playback, USB/SD/AUX inputs, the CZ307AU has it all.

- CD/MP3/WMA playback.
- Single line high visibility LCD.
- Front USB for audio playback.
- SD card slot for MP3/WMA music playback.
- Front 3.5mm AUX input with sensitivity adjustment.
- Wireless infrared remote control included.
- OEM steering wheel remote ready.

**CLARION 6.75IN HD TOUCH SCREEN WITH APPLE CARPLAY/ANDROID AUTO**

The FX688A has a connected, intuitive display audio for visual and sound presence. Enjoy a variety of media with displayed audio, including USB and AUX connections, not to mention Bluetooth audio streaming.

- Apple CarPlay compatibility
- Also compatible with Android Auto
- Smart Device Link (SDL) is the industry standard for open source in-vehicle connectivity. SDL broadens the choices for customers in how they connect and control their smartphones while on the move
- Miracast Connecting your smartphone to FX688A wirelessly and link the phone display and video to a larger display without a direct wired connection
- Rear USB for even more connectivity
- AUX Input for various external sources
- Rear vision camera support for safety and security
- 13 band Parametric equaliser

**81 FX688A**

**CLARION INFRARED HEADPHONES COMPATIBLE WITH CLARION VT1020A**

The IR700 premium wireless headphones are designed to be used with the Clarion Roof Top Monitor and other monitors that use infrared audio. The headphones are designed to isolate system audio from road and cabin noise, resulting in high quality audio and longer battery life.

- Infrared wireless headphones.
- Noise-isolating construction.
- Single channel operation.
- Long battery life.
- Batteries included.

PRODUCT CODE  
**81 IR700**

**CLARION 10.1IN HD ROOFTOP MONITOR WITH MOTORIZED SCREEN**

The VT1020A 10.1in high definition roof top monitor is sleek and low profile that mounts discreetly to the vehicles roof. The motorised screen will automatically lower and raise with a tap of a button on the remote control.

- 10.1in high definition display.
- Active Matrix System provides edge to edge clear, crisp images.
- High-efficiency LED backlight technology produces consistent brightness across the display for superb viewing experience in HD.
- Motorised display monitor, open and close with a touch of a button on the remote.
- Dual HDMI, single USB and single composite video inputs.
- Wireless infrared remote control included.

PRODUCT CODE  
**81 VT1020A**

**CLARION 6IN & 6.5IN 300W 2-WAY COAXIAL SPEAKERS**

The SE1625R 6-6.5in 300W 2-way coaxial speakers are part of the SE Series range of speakers from Clarion. Clarion's SE Series enables you to enjoy powerful, dynamic sound with stable performance over a broad range from highs to lows, all in coaxial and multi-axial speakers design.

- 6-6.5" (160mm) size, suitable for 6" and 6.5" installations.
- 2-way coaxial speakers.
- 300 watts maximum power handling.
- Powerful strontium magnet for dynamic bass response.
- 41mm mounting depth.
- Grilles included.

PRODUCT CODE  
**81 SE1625R**

**CLARION 6X9IN 400W 3-WAY COAXIAL SPEAKER PAIR**

The SE6934R 6x9in 400W 3-way multi-axial speakers are part of the SE Series range of speakers that enables you to enjoy powerful, dynamic sound with stable performance over a broad range from highs to lows, all in coaxial and multi-axial speakers design.

- 400 watts maximum power handling.
- 150 x 230 mm MIPP cone woofer.
- Powerful strontium magnet for dynamic bass response.
- Grille included.

PRODUCT CODE  
**81 SE6934R**

**CLARION 6IN & 6.5IN 400W 2-WAY COMPONENT SPEAKER SYSTEM**

The SH1624S 6-6 1/2in 400W 2-way component speakers are part of the SH Series range of speakers that produce dynamic performance over a broader frequency range, from thundering lows to sizzling highs.

- 400 watts maximum power handling.
- 160mm cone woofer.
- 20mm pure soft dome tweeter with neodymium magnet.
- Phase plug.
- 2-way mounting tweeter (flush or surface mounting).
- Powerful strontium magnet for dynamic bass response.
- Grille and mesh included.

PRODUCT CODE  
**81 SH1624S**

**CLARION 6IN & 6.5IN 370W 3-WAY MULTI-AXIAL SPEAKER PAIR**

The SH1634R 6-6 1/2in 370W 3-way multi-axial speakers are part of the SH Series range of speakers that produce dynamic performance over a broader frequency range, from thundering lows to sizzling highs.

- 370 watts maximum power handling.
- 160mm MIPP cone woofer.
- 20mm pure soft dome midrange with neodymium magnet.
- 8mm pure soft dome tweeter.
- Powerful strontium magnet for dynamic bass response.
- Grille and mesh included.

**CLARION 1 CHANNEL 400W MICRO SIZE MONO AMPLIFIER**

The XC2110 is a micro sized amplifier that is so compact it can be mounted virtually anywhere, even behind most dashboards. This 1 channel amp delivers 300W RMS to a subwoofer. The amplifier is built to produce high sound quality and withstand the toughest environments.

- 400 Watts of maximum power output.
- 1 channel.
- 200 Watts \_ 1 continuous @ 4-Ohms and 300 Watts \_ 1 continuous @ 2-Ohms.
- Corrosion resistant nickel plated RCA, power, and speaker connections.
- RCA and high level speaker inputs.

PRODUCT CODE  
**81 XC2110**

**CLARION 4-CHANNEL 400W MICRO SIZE AMPLIFIER**

The XC2410 is a micro sized amplifier that is so compact it can be mounted virtually anywhere, even behind most dashboards. This 4 channel amp delivers 50W RMS per channel to the front and rear speakers.

- 400 Watts of maximum power output.
- Up to 4 channels.
- 50 Watts \_ 4 continuous @ 4-Ohms, 75 Watts \_ 4 continuous @ 2-Ohms & 150 Watts \_ 2 continuous @ 4-ohms bridged.
- Corrosion resistant nickel plated RCA, power, and speaker connections.
- RCA and high level speaker inputs.
- Double sided conformal coated PCB assembly.

**HERTZ  
MARINE DIGITAL MEDIA RECEIVER**

HMR10, is ideal for boat enthusiasts who want great sound on board with a reduced gauge installation. With two pairs of high quality stereo outputs, a screen readable at all times and a generous marine-grade control panel, it will be a breeze to control your favorite playlist.

- Hertz Pure Marine Certified Product stamp featuring the IP66 protection grade, ASTM-D4329 standards for UV resistance and ASTM-B117 for salt fog operation.
- PLL True Marine Radio with multi-format reception FM/AM/WB and automatic memory storage.
- Wide range of media playbacks including Bluetooth streaming and control, USB playback and analogue AUX IN.
- Equaliser featuring 3 presets (CLASSIC/ POP/ ROCK).
- Loudness control.
- Fits in gauge opening.

PRODUCT CODE  
**83 HMR10**

**HERTZ  
3IN MARINE DISPLAY  
DIGITAL MEDIA RECEIVER**

HMR20 Marine Digital Media Receiver features IP66 protection, designed to withstand the most extreme marine conditions. The Large full colour TDT IPS display remains visible both day and night and the variable colour buttons allow the radio to match the lights in the boat console.

- The large full colour TFT IPS display remains visible even during daytime navigation and the big buttons make it easy operating while cruising.
- Multicolour button light for a perfect match with boat console lights.
- Customise the sound with 4 EQ preset created by Hertz audio engineers.
- Voltage indicator to check-up battery status.
- AM/FM with RDS (where available).

PRODUCT CODE  
**83 HMR20**

**HERTZ  
SINGLE 12IN SEALED SUB BOX**

The DBX 30.3 car audio subwoofer box is designed to enhance the audio system performance in the low range frequencies, optimizing the spaces and ensuring a quick, not too invasive installation.

- Very high efficiency subwoofer system with superior power handling.
- Very thick MDF cabinet construction, strong and inert.
- Angled rear wall, increases damping of resonances and provides easy fitment.
- High current plated terminal.

PRODUCT CODE  
**83 DBX303**

**HERTZ  
8IN SUBWOOFER 600W PEAK**

The Ultra Flat profile reaches 85mm height for the ESF20.5 subwoofer, 94mm height for the ESF25.5 subwoofer and 106mm for the ESF25.5 subwoofer ensuring high mechanical quality as well as efficient thermal capability, to the benefit of bursting dynamics and startling power handling.

- The energy ES F20.5 car audio subwoofers is the ideal solution for those who look for a subwoofer of compact size, yet providing powerful and engaging sound.
- Ultra Flat design, for maximum installation flexibility.
- Massive motor assembly, for perfect control under high power, high excursion conditions.
- Water-repellent pressed paper cone.
- Copper voice coil, wound on aluminium former, for startling thermal and mechanical capacity.

**HERTZ  
CENTO 6.5IN 285W 2-WAY  
SPEAKER SYSTEM WITH GRILLE SET**

Cento CK165 two-way speaker system includes the new C26 tweeter featuring a 26mm (1in) Tetolon dome and 20mm (0.8in) voice coil for a detailed and natural reproduction of medium-high frequencies.

- 165 mm (6.5in) semi-pressed paper cone SPP-M (Semi Pressed PaperMica) enhanced with Mica powder for an excellent balance between lightness and damping.
- High-density flux ferrite magnet combined with low-carbon polar plates for reduced distortion at high power levels.
- 25 mm (1in) voice coil featuring an aluminum former to guarantee high excursion and power handling.
- Compact and transparent three-spoke basket acoustically combined with a rubber magnet cover for total damping of spurious vibrations.
- Optional elegant grille made with high-resistance ABS plastic structure with a metallic finish combined with a protective metal mesh.

PRODUCT CODE  
**83 CK165**

**HERTZ  
CENTO 4IN 120W 2-WAY  
COAXIAL SYSTEM**

The Cento two-way coaxials CX100 features the new 24mm Tetolon dome tweeter that delivers a more musical and detailed sound compared to the more traditional plastic materials.

- Soft Tetolon fiber 24mm dome tweeter cooled with ferrofluid, for extended and natural high frequencies.
- Rotary High Frequency Contour tweeter angled and directable to the listener for a perfect frequency response in any installation scenario.
- Tweeter faceplate geometry optimised with FEM simulations, to provide an extremely linear frequency response in off-axis installations.
- 4.25mm woofer voice coil featuring an aluminum former to guarantee high excursion and power handling.
- 100mm semi-pressed paper cone SPP-M (Semi Pressed Paper-Mica) enhanced with Mica powder for an excellent balance between lightness and damping.
- High-density flux ferrite magnet combined with low-carbon polar plates for reduced distortion at high power levels.
- Compact and transparent three-spoke basket acoustically combined with a rubber magnet cover for total damping of spurious vibrations.
- Optional elegant grille made with high-resistance ABS plastic structure with a metallic finish combined with a protective metal mesh.

**83 DCX6903**

**HERTZ  
DIECI 6IN 120W 2-WAY  
COAXIAL SPEAKER PAIR**

The Dieci coaxes were designed with maniacal care to provide a linear frequency response and ensure high reliability. A Neodymium magnet, PEI dome tweeter, built-in crossover, TPU surround and a pressed-paper cone provide the optimum ratio between installation friendliness and sound.

- Large motor assembly for mobile voice coil control.
- Pure copper voice coil, wound on conex former, for maximum lightness.
- Water-repellent treated paper cone.
- TPU surround, for wide excursion and resonance damping.
- Neodymium tweeter with PEI dome, for compactness and energy at high frequencies.
- DIN size basket protected by abrasion-proof dust paint.
- Tin-plated, high current terminals.
- Silver-plated lead wires for maximum reliability and conductivity.
- Butyl rubber protective cover, against crashes and abrasions.

PRODUCT CODE  
**83 DCX160.3**

**HERTZ  
6X4IN 2-WAY COAXIAL SPEAKERS  
80W 40WRMS**

- Two way coaxial design low profile tweeter mount.
- Large motor assembly for mobile voice coil control.
- Pure copper voice coil, wound on conex former, for maximum lightness.
- Water-repellent treated paper cone.
- TPU surround, for wide excursion and resonance damping.
- Neodymium tweeter with PEI dome, for compactness and energy at high frequencies.
- Tin-plated, high current terminals.
- Low carbon content plates for maximum magnetic permeability and high heat dissipation.

**HERTZ  
6.5IN 2-WAY SYSTEM 300W**

The Hertz MLK 1650.3 Legend car audio speakers system is a two way kit dedicated to purists, aiming at achieving maximum timbre consistency combined with very high dynamics and extremely extended frequency response.

- Die-cast aluminium factory provided grille featuring diamond-cut aluminium Hertz logo.
- V-Cone and Boundary Free Surround technology.

PRODUCT CODE  
**83 MLK16503**

**HERTZ  
2-WAY SPEAKER SYSTEM 220W PEAK**

The MPK 165.3 car audio speakers system has been designed to ensure a wide low frequency response, even in cars with no space for a subwoofer. The MPCX2.3 crossover features tweeter level (0/+2 dB) to calibrate the MP25.3 acoustic emission level comparing it to the woofer one.

- Provided full protection metal mesh grill featuring the aluminium Hertz logo and attractive look mineral powder coated inner grill are included for several install combinations.
- V-Cone and Boundary Free Surround technology.

PRODUCT CODE  
**83 MPK1653**

**HERTZ  
6.5IN 2-WAY SPEAKER SYSTEM**

The MPK 165P.3 car audio speakers system energy in the mid-low range ensures a unique listening experience, creating the ideal set up alongside a powerful subwoofer section. Forged to give it the pure and solid sound of an authentic mid-bass, designed for high dynamic systems.

- Provided full protection metal mesh grill featuring the aluminium Hertz logo and attractive look mineral powder coated inner grill are included for several install combinations.

PRODUCT CODE  
**83 MPK165P3**

**HERTZ  
6.5IN 2-WAY COAXIAL SPEAKER SET**

The coax tweeter concentric to the woofer allows for one single linear-phase emission point, for a natural timbre providing a detailed sound stage.

- Concentric coaxial tweeter: built in the woofer voice coil, one single point of emission to re-create the virtual sound-stage like in live music performances. Tweeter support working as a rear chamber: sized for low Fs, well damped high pass frequency roll-off, allowing low cut-off frequency crossover point.
- 36 mm pure copper woofer voice coil: wound on a Polyamide former, for outstanding power handling and dynamic compression-free reproduction.
- Pressed-pulp cone with cotton fibers: combining stiffness and lightweight for a wide frequency response.
- Boundary free rubber surround: for improved efficiency and wider midbass.
- Over-sized ferrite magnet: combined with very low carbon content iron plates, for low distortion at high power levels.
- Anti-vibration rubber magnet cover: to damp spurious vibrations.

**HERTZ  
4 X 105W + 1 X 330W MARINE  
5-CHANNEL AMPLIFIER**

HCP5MD, a marine 5 channel amplifier is engineered and tested for real environment of application (UV, salt-fog, vibrations, high/low temperature, thermal shock, dust) and has a large array of filters customized for each model, to achieve maximum versatility.

- Nature proof.
- Completed filter section.

PRODUCT CODE  
**83 HCP5MD**

**AUDISON  
6.5IN WOOFER 210W 4-OHM**

AP6.5 feature a 32mm pure copper voice coil, for high power handling and outstanding low frequency control. The dome profile has been optimised with Klippel R&D Scan Vibrometer to obtain a calibrated mechanical low-pass cut-off frequency.

- 32mm pure copper mobile voice coil, for high power handling and outstanding low frequency control.
- Water repellent treated paper cone, featuring a profile developed with FEM (Finite Element Method) simulation technology and optimized with the Klippel R&D Scan Vibrometer.
- No passive crossover required to maximize efficiency: the cone is optimised with the Klippel R&D Scan Vibrometer to obtain a calibrated mechanical low-pass cut-off frequency.
- Reduced mounting depth, providing ease of installation in OEM placements.
- TPU (Thermoplastic Polyurethane) surround, featuring the exclusive shallow "Triple Wave" profile, for maximum excursion linearity.
- Compact basket, protected by abrasion resistant and scratch-proof coating, the motor affixed with damping epoxy adhesive.
- High current fast-on terminal with double contact on positive and negative poles for high flexibility and quick connection.
- Developed with the KLIPPEL suite.
- Grilles optional.

**82 AP65**

**AUDISON  
PRIMA LINE APBX 10AS2  
ACTIVE SUBWOOFER**

The Prima APBX 10 AS2 active subwoofer, with 10 - inch driver, features a dedicated high performance amplification module which enhances all the passive box technologies, such as the 2 Sides/2 Sounds design, the Plug & Play terminal block and ultra - compact size.

- D - Class amplifier featuring he - li technology (high efficiency / low impedance) without switching power supply, for a performance next to ideal.
- Input stage DBT (Dynamic Bass Tracking) technology allows 100% use of the he - li amplifier power and to enjoy a tense and dynamic bass even at very high listening volumes.
- Defeatable filter to use the sub dedicated output of a bit or AP bit processor.
- High level audio input on multi - pin connector for maximum OEM integration and low level on RCA for aftermarket sources.
- ART turn on function (Automatic Remote Turn - On).
- Box with ultra - low profile (6.22 in./ 158 mm) in air suspension, designed to take full advantage of the performance of the 10 - inch APS 10 DL high - impedance driver.
- The SSP (Sub Smart Plug) terminal block is provided with a Plug & Play connector to be able to disconnect the box easily and safely.
- Down - firing levelling feet with Velcro inserts included for a secure grip with the carpet, ensuring extreme ease of removal.

PRODUCT CODE  
**82 APBX10A2**

**AUDISON  
10IN SEALED SUBWOOFER BOX**

The APBX 10 DS, a 10in subwoofer loaded in a 12 litre sealed enclosure, is the line's "flagship". It is dedicated to the highest performing Prima systems, using the AP1 D amplifier for the sub section.

- Ultra low profile (5.6 in. / 142 mm) box with sealed design perfectly tuned to fully exploit the APS 10 D driver.
- 2S2 (2 Sides/2 Sounds) design provides the ability to choose between down-firing mounting to increase the low - frequency extension and Up-Firing install to obtain more punch and definition.
- Levelling feet with velcro inserts included for a secure grip with the carpet while maintaining easy removal.
- SSP (Sub Smart Plug) features both traditional push contacts and a Plug-&-Play terminal block to easily configure the impedance as required and provides a quick release.
- Rounded corners allow easy positioning in the trunk and act as reinforcement to reduce enclosure resonance.
- Special designed cone-dust cap-basket geometry which guarantees a long linear excursion capability (11 mm, one - way).
- Massive driver motor assembly, optimized with FEM (Finite Element Modelling) for perfect control under high excursion conditions.
- Water-repellent pressed paper 10in cone, featuring a profile developed with FEM simulation and optimized with the Klippel Scan Vibrometer.
- Sturdy metal grid included for a total protection of the subwoofer driver

PRODUCT CODE  
**82 APBX10DS**

**AUDISON  
8IN SEALED SUBWOOFER BOX**

The APBX 8 DS loaded enclosure provides the highest performance to size ratio. For this purpose an 8.5lt. sealed enclosure with a 4+4 ohm dual voice coil configuration was adopted to exploit the full power of an AP5.9 bit or with two pairs of AP8.9.

- Ultra-low profile (5.16in. / 131mm) box with sealed design perfectly tuned to fully exploit the APS 8 D driver.
- 2S2 (2 Sides/2 Sounds) design provides the ability to choose between Down-Firing mounting to increase the low-frequency extension and Up-Firing install to obtain more punch and definition.
- Levelling feet with velcro inserts included for a secure grip with the carpet while maintaining easy removal.
- SSP (Sub Smart Plug) features both traditional push contacts and a Plug-&-Play terminal block to easily configure the impedance as required and provides a quick release.
- Rounded corners allow easy positioning in the trunk and act as reinforcement to reduce enclosure resonance.
- Special designed cone-dust cap-basket geometry which guarantees a long linear excursion capability (9mm, one-way).
- Massive driver motor assembly, optimized with FEM (Finite Element Modelling) for perfect control under high excursion conditions.
- Water-repellent pressed paper 8in. cone, featuring a profile developed with FEM simulation and optimized with the Klippel Scan Vibrometer.
- Sturdy metal grid included for a total protection of the subwoofer driver.

**82 APBX8DS**

**AUDISON  
8IN REFLEX SUBWOOFER BOX**

The APBX8R loaded enclosure was developed with reflex loading, with tuning designed to concentrate SPL in the lowest frequency range. The aim was to exploit the natural boost in output found in most cars below 60 Hz known as "cabin gain".

- Ultra-low profile (5.16in. / 131mm) box with slot-ported design perfectly tuned to fully exploit the APS 8 R driver.
- 2S2 (2 Sides/2 Sounds) design provides the ability to choose between Down-Firing mounting to increase the low-frequency extension and Up-Firing install to obtain more punch and definition.
- Levelling feet with velcro inserts included for a secure grip with the carpet while maintaining easy removal.
- SSP (Sub Smart Plug) features both traditional push contacts and a Plug-&-Play terminal block to easily configure the impedance as required and provides a quick release.
- Rounded corners allow easy positioning in the trunk and act as reinforcement to reduce enclosure resonance.
- Special designed cone-dust cap-basket geometry which guarantees a long linear excursion capability (9mm, one-way).
- Massive driver motor assembly, optimized with FEM (Finite Element Modelling) for perfect control under high excursion conditions.
- Water-repellent pressed paper 8in. cone, featuring a profile developed with FEM and optimized with the Klippel Scan Vibrometer.
- Sturdy metal grid included for a total protection of the subwoofer driver.

10IN 800W DUAL COIL SUBWOOFER  
4+4-OHM**

The APS 10 D is designed to deliver maximum performance in a sealed enclosure with ultra - compact volumes, from 10 lt. to 12 lt. The dual voice coil and single voice coil versions feature push connectors for ease of wiring and configurations.

- Ultra low profile (4.7in / 120mm) for maximum installation flexibility.
- Designed to deliver maximum performance in a sealed enclosure starting from 10lt.
- Special designed cone, dust cap, basket geometry which guarantees a long linear excursion capability (11mm, one way) while keeping the mounting depth to minimum.
- Air vents on the basket underneath the spider, eliminating the need for the central pole vent allowing mounting close to rear wall of enclosure.
- Massive motor assembly, optimized with FEM (Finite Element Modelling) for perfect control under high power, high excursion conditions.
- Water repellent pressed paper 10in. cone, featuring a profile developed with FEM simulation and optimized with the Klippel Scan Vibrometer.
- Dual voice coil design specifically developed to be combined with either AP8.9bit (2 CH + 2 CH bridged), APF8.9bit (1CH + 1CH).
- Steel mesh grille and plastic gasket included.

MIDBASS COMPONENT SPEAKER**

The AP4 midbass offers very extended frequency response, both in high and low frequencies, combined with high efficiency and features a 25mm pure copper voice coil to ensure more balance in mid - high frequency ranges.

- Very extended frequency response, in both high and low frequencies, combined with high efficiency.
- No passive crossover required to maximize efficiency.
- Water-repellent treated paper cone, featuring a profile developed with FEM (Finite Element Method) simulation technology and optimized with the Klippel R&D Scan Vibrometer.
- Reduced mounting depth, providing ease of installation in OEM placements.
- TPU (Thermoplastic Polyurethane) surround, featuring the exclusive shallow "Triple Wave" profile for maximum excursion linearity.
- 25mm pure copper voice coil ensuring precise balance in the mid - high frequency range.
- Compact basket, protected by abrasion resistant and scratch proof coating.

PRODUCT CODE  
**82 ELAP4**

**AUDISON  
5IN 50W  
COMPONENT WOOFER**

AP5 feature a 32mm pure copper voice coil, for high power handling and outstanding low frequency control. The woofers don't employ any filter, to maximize efficiency.

- 32mm pure copper mobile voice coil, for high power handling and outstanding low frequency control.
- No passive crossover required to maximize efficiency: the cone is optimised with the Klippel R&D Scan Vibrometer to obtain a calibrated mechanical low pass cut-off frequency.
- Reduced mounting depth, providing ease of installation in OEM placements.
- TPU (Thermoplastic Polyurethane) surround, featuring the exclusive shallow "Triple Wave" profile, for maximum excursion linearity.
- Compact basket, protected by abrasion resistant and scratch-proof coating, the motor affixed with damping epoxy adhesive.
- High current fast-on terminal with double contact on positive and negative poles for high flexibility and quick connection.

**AUDISON**  
**SET 4IN 2-WAY COAX SPEAKERS**

APX4 features a concentric coaxial tweeter: with one single point of sound emission it is possible to obtain a consistent in - phase response, with consequent reconstruction of the acoustic scene comparable to a system of separate woofer + tweeter.

- Tweeter is mounted within the woofer with one single point of emission providing consistent phase response, with an accurate recreation of the sound stage comparable to that of a component system.
- Tweeter features an acoustic lens specifically designed to ensure an extremely linear frequency response, even in off - axis placement, typical of in - door installations.
- 32mm pure copper voice coil, for high power handling and outstanding low frequency control.
- Overall mounting depth optimized for OEM Integration thanks to the concentric tweeter and the low profile basket.
- Water-repellent treated paper cone, featuring a profile developed with FEM (Finite Element Method) simulation technology and optimized with the Klippel Scan Vibrometer.
- TPU (Thermoplastic Polyurethane) surround, featuring the exclusive shallow "Triple Wave" profile, for maximum excursion linearity.
- Compact basket, protected by abrasion - resistant and scratch - proof coating, the motor affixed with damping epoxy adhesive.
- High current fast - on terminal with double contact on positive and negative poles for high flexibility and quick connection.

**AUDISON**  
**6.5IN 125W 2-WAY COMPONENT SYSTEM**

The prestigious Eisa Award European In - Car Speaker System 2010 - 2011 was bestowed to the AV K6 kit, which gather and comprise the most advanced technologies developed for the Audison components, at the service of music. The whole R&D laboratory's experience was poured into the design of these precious components, to create a synergy that can offer the highest quality sound in terms of bandwidth, dynamics of the musical message, naturalness and richness of details. The new reference for their own category.

- Tetolon dome, a combination of silk and cotton with proprietary damping treatment, provides low mass and resonance - free response up to ultrasonic frequencies.
- CCAW (Copper Clad Aluminium Wire) voice coil wound on double layer, extremely lightweight and compact, resulting in a very high efficiency and a crisp, dynamic sound.
- The annular geometry of the Rear Damping Chamber, together with the proprietary damping material, extends the frequency response to lower limits and reduces harmonic distortion.
- High flux density Neodymium REN magnet, for very high efficiency and detailed sound.
- The profile of the aerodynamic basket is spokes along with the open - air design ensure drastic reduction of back - wave reflections.
- The exclusive Butyl rubber "Triple Wave" surround profile provides full linearity as well as reliable performance under extreme conditions.
- Cotton - fibre pressed paper cone with Light Damping treatment.
- The Radial Venting System ensures high thermal capability, power handling and reliability.

PRODUCT CODE

**AUDISON**  
**26MM TWEETER + CROSSOVER**

The AP1 tweeter features a 26mm diameter emission diaphragm, an acoustic lens designed to compensate for the frequency response within the 10kHz-13kHz range, a Neodymium REN magnet and extremely small sized dedicated passive crossover.

- 26mm diameter diaphragm combined with a wide - roll surround provides maximum efficiency and reduced resonance frequency.
- Neodymium magnet with low carbon content plates, provides reduced size and more linear sound reproduction, even during the most demanding audio passages.
- Acoustic lens designed to compensate for and fine tune the in - car frequency response anomalies in the 10kHz - 13kHz bandwidth caused by restrictive OEM grilles in critical OEM placements.
- Compact dedicated passive crossover APCX TW supplied with the product, featuring an attenuation switch (0 dB, +2 dB) to tune the in car response according to different installation conditions.
- Passive crossovers are supplied with "OEM Integration compliant" fast-on connectors. The ends, different in each of the two poles, eliminate any possible connection errors at installation time.
- Wide array of mounting accessories supplied with the product, for high fitment flexibility in OEM Integration.
- CCAW (Copper Clad Aluminium Wire) ultra - light ferrofluid cooled voice coil is wound on a Kapton former, for better heat dissipation.
- Dome profile and motor are optimised with FEM (Finite Element Method) simulation technology.
- Developed with the KLIPPEL suite.

**6.5IN 2-WAY COMPONENT SYSTEM 345W 4-OHM**

The new Prima APK 165P two - way loudspeaker system, capable of handling up to 345W peak, is the ideal combination to fully exploit the power of the APF8.9 bit or all other Prima amplifiers used in high power configurations.

- AP 1P AIF technology (Any Install Faceplate) for total application versatility and a significant reduction in installation time.
- Three mounting accessories supplied to provide a solution for any type of installation.
- Magnetic group with double Neodymium tablet for an excellent high frequency extension.
- 1IN CCAW voice coil for superior dynamic response.
- Dome profile optimized with FEM simulations for a wide off - axis dispersion.
- AP 6.5P Increased excursion of the mobile group for a superior dynamic response.
- Optimized electro - acoustic parameters to maximize performance for OEM placements.
- Magnetic group sized for perfect control even at maximum cone excursion.
- CCAW (Copper - Clad Aluminium Wire) voice coil (32 x 14 mm) to optimally manage the greater applied power.

**75W X 4 SR 4.300 4-CHANNEL**  
**D-CLASS AMPLIFIER**

The Audison SR 4.300 Amplifier is for the SR Line of Audison, featuring high power amplifiers with a compact design. The amplifier is 2 ohm stable, has a compact design and extruded aluminium chassis with rounded corners, makes it easy to install in narrow spaces.

- ADC (Audison D-Class) Technology 21<sup>o</sup> stable output stage ensuring high audio performance in a compact size.
- Extruded aluminium compact design with fan less convection cooling system.
- Built-in USS (Universal Speakers Simulator).
- Balanced high-noise rejection input speaker-In (for OEM head units) and RCA-In (for Aftermarket head units) inputs.
- ART (Automatic Remote Turn-On/Off) automatically turns on/off the amplifier when the OEM head-unit turns on/off (can be enabled/ disabled, with Speaker-In inputs).
- Pre-outs, also available when using Speaker-In level inputs.
- Mono operation mode (selectable), to create a sub + front three-channel system or a powerful 2-channel system.
- Bass Boost (50 Hz) adjustable to 12 dB, to increase the subwoofer punch.
- Lo-Pass and Hi-Pass 12 dB adjustable (50 Hz to 3200 Hz) filters, providing the ability to build a front + rear system, a multichannel woofer + tweeter system or a powerful sub + front system.

■ EUROPEAN

**AERPRO**  
**AERIAL ADAPTOR EUROPEAN TO AFTERMARKET**

This adaptor converts a factory headunit antenna connection to a standard DIN socket for aftermarket antennas. This adaptor connects an aftermarket antenna to a European radio.

- Adapts European OEM radio to standard antenna socket.
- Suited for usually pre 2003 European cars.

PRODUCT CODE  
**7 AP346**

**AERPRO**  
**HEADUNIT AERIAL ADAPTOR LEAD AMPLIFIED EUROPEAN**

This product converts a factory headunit antenna connection to a standard DIN plug for aftermarket head units.

- Amplifies the received FM signal.
- Ideal for in-window antennas, hard-to-tune station.
- Connects Euro antenna and aftermarket radio.
- Requires 12V DC negative ground.

PRODUCT CODE  
**7 AP3421**

**AERPRO**  
**ANTENNA ADAPTOR FOR EUROPEAN CARS**

This adaptor allows an aftermarket antenna to fit a European radio. It is 20cm long.

PRODUCT CODE  
**7 AP344**

■ NISSAN

**ANTECH**  
**STANDARD SOCKET TO NISSAN 2 PIN SOCKET ADAPTER**

This extension cable is specifically designed to provide sharp and clear signal for your car radio system.

- Input: Standard male plug.
- Output: Nissan 2-pin socket.
- Length: 290mm.

PRODUCT CODE  
**7 EXT300N1**

**AERPRO**  
**NISSAN DIVERSITY ADAPTOR-AFTERMARKET RADIO TO FACTORY AERIAL**

Nissan Diversity Adaptor - Aftermarket Radio to Factory Antenna. Used to connect an aftermarket radio socket to a factory Nissan double-diversity antenna plug.

- Used to connect an aftermarket radio socket to a factory.
- Converts a factory headunit antenna connection to a standard DIN plug for aftermarket headunits.

PRODUCT CODE  
**7 AP348A**

**AERPRO**  
**STANDARD PLUG SOCKET TO NISSAN 2 PIN PLUG ADAPTER**

Used to connect an aftermarket antenna to a factory Nissan double-diversity amplifier.

PRODUCT CODE  
**7 AP348B**

■ MULTI-FITMENT

**AERPRO**  
**HEADUNIT AERIAL ADAPTOR EUROPEAN FEMALE TO AFTERMARKET**

This adaptor converts a factory headunit antenna connection to a standard DIN socket for aftermarket antennas. This adaptor allows you to fit an aftermarket radio into a vehicle with a European antenna.

- Adapts European car aerial to standard ISO antenna plug.
- Referred to as European connector.

PRODUCT CODE  
**7 AP349**

**AERPRO**  
**HEADUNIT AERIAL ADAPTOR ISO CAR TO MALE DIN WITH LEAD**

Our multi-fit range comes with various functions to suit your needs and fit cars that do not require a custom fit type antenna. This adaptor converts a factory headunit antenna connection to a standard DIN socket for aftermarket antennas.

- Antenna adaptor: ISO car to male DIN with lead.

PRODUCT CODE  
**7 AP349L**

**AERPRO**  
**FM ANTENNA BOOSTER 12V AMPLIFIED 10DB**

This antenna booster will obtain clearer and stronger reception in fringe reception areas. It provides a 10dB gain over the FM spectrum. In-dash or under dash mounting, fitted with 53cm antenna cable and power cable.

- 10dB gain.
- In-dash or under dash mounting.
- Fitted with 53cm antenna cable and power cable.

PRODUCT CODE  
**7 AP342**

**ANTECH**  
**12V 14 MHZ SHIFT BAND EXPANDER**

For some import vehicles, radios are made to receive frequencies between 76Mhz to 90Mhz but in other countries you need as much as 108Mhz. The electronic FM band expander expands the range of car radio up to 108 Mhz.

- Frequency shift: 14MHz.
- Frequency input: 76-90MHz.
- Frequency output: 88-108MHz.
- Voltage: 12V.

PRODUCT CODE  
**7 FA14**

■ AUDI

**AERPRO HEADUNIT AERIAL ADAPTOR LEAD AUDI 02 ON AMPLIFIED**

Converts a factory headunit antenna connection to a standard DIN plug for aftermarket head units.

- Antenna adaptor DIN with Fakra and phantom power supply.

PRODUCT CODE  
**7 APA59**

**AERPRO HEADUNIT AERIAL ADAPTOR LEAD AUDI 02 ON DIVERSITY**

Converts a factory headunit antenna connection to a standard DIN plug for aftermarket head units. Some vehicles are fitted with a specific style of antenna plug, this can make upgrading to an aftermarket headunit a bit tricky.

- For cars with 2 Fakra antenna connectors.
- Use with antenna w/ inbuilt mast head amplifier.
- Retains diversity tuning.

PRODUCT CODE  
**7 APA60**

**AERPRO HEADUNIT AERIAL ADAPTOR LEAD EURO 2002 ON**

Converts a factory headunit antenna connection to a standard DIN plug for aftermarket head units. Some vehicles are fitted with a specific style of antenna plug, this can make upgrading to an aftermarket headunit a bit tricky.

- For cars with Fakra antenna connector.
- Antenna may be passive or active with separate mast head amplifier trigger.

PRODUCT CODE  
**7 APA58**

■ EUROPEAN

**AERPRO HEADUNIT AERIAL ADAPTOR LEAD MULTI-FIT EUROPEAN**

Converts a factory headunit antenna connection to a standard DIN plug for aftermarket headunits.

- Suited for: Audi, Mercedes Benz, Seat, Skoda, Volkswagen

PRODUCT CODE  
**7 APA66**

**AERPRO HEADUNIT AERIAL ADAPTOR LEAD ON EUROPEAN 2001**

Converts a factory headunit antenna connection to a standard DIN socket for aftermarket antennas.

- For cars with OEM radio.
- Converts Ant input to standard DIN socket.

PRODUCT CODE  
**7 APA67**

■ FAKRA

**AERPRO HEADUNIT AERIAL ADAPTOR PLUG FAKRA TO DIN**

Converts a factory headunit antenna connection to a standard DIN plug for aftermarket head units. Antenna adaptor plug for cars fitted with Fakra antenna connector (of any coding).

- For cars with Fakra antenna connector.

PRODUCT CODE  
**7 APA68**

**AERPRO AERIAL ADAPTOR DOUBLE FAKRA TO M DIN PHANTOM POWER 12V**

Converts a factory headunit antenna connection to a standard DIN plug for aftermarket headunits.

- Antenna adaptor lead for cars fitted with dual Fakra antenna connectors and an antenna system that has an inbuilt mast head amplifier system.
- Does not retain diversity tuning, combines antenna signal into one signal.

PRODUCT CODE  
**7 APA70**

■ CHEVROLET/HONDA

**AERPRO HEADUNIT ANTENNA ADAPTER TO CHEVROLET/HONDA**

Mini socket to standard antenna to suit: Chevrolet Corvette 1997-2002, Chevrolet Corvette 2005-2013, Hummer H2 2003-2008 & Hummer H3 2007-2009.

PRODUCT CODE  
**7 APA74**

■ HONDA

**AERPRO HEADUNIT AERIAL ADAPTOR LEAD TO SUIT HONDA**

Aerpro antenna adapters simply plug into the vehicles specific antenna plug and convert it to a standard plug (DIN) which is suitable for most aftermarket head units.

- For cars with OEM Honda nylon block connector.
- Found in: Jazz, Insight.

PRODUCT CODE  
**7 APA79**

**AERPRO HEADUNIT AERIAL ADAPTOR LEAD - MALE HONDA**

Converts a factory headunit antenna connection to a standard DIN plug for aftermarket head units.

- For cars with OEM Hyundai/Kia nylon connector.
- Found in: Accord, Civic, CRV, Odyssey.

PRODUCT CODE  
**7 APA55**

**AERPRO HEADUNIT AERIAL ADAPTOR LEAD - FEMALE HONDA**

Converts a factory headunit antenna connection to a standard DIN plug for aftermarket head units.

- For cars with OEM radio.
- Converts Ant input to standard DIN socket
- Found in: Civic, CRV.

PRODUCT CODE  
**7 APA56**

■ HYUNDAI/KIA

**AERPRO HEADUNIT AERIAL ADAPTOR LEAD SUITS HYUNDAI & KIA**

Converts a factory headunit antenna connection to a standard DIN plug for aftermarket head units. Some vehicles are fitted with a specific style of antenna plug, this can make upgrading to an aftermarket headunit a bit tricky.

- For cars with OEM Hyundai/Kia nylon connector.
- To suit Hyundai i10/i30 2007-2010, i40 2011 onwards and Kia Cerato.

PRODUCT CODE  
**7 APA47**

**AERPRO HEADUNIT AERIAL ADAPTOR LEAD SUITS HYUNDAI & KIA 2009 ON**

Converts a factory headunit antenna connection to a standard DIN plug for aftermarket head units. The product is a radio antenna adapter to suit aftermarket radio.

- For cars with OEM Hyundai/Kia nylon connector.
- Found in: Accent, Optima.

PRODUCT CODE  
**7 APA63**

**AERPRO HEADUNIT AERIAL ADAPTOR LEAD SUITS SELECTED HYUNDAI & KIA**

Converts a factory headunit antenna connection to a standard DIN socket for aftermarket antennas.

- To suit: Hyundai i30 07 onwards, Kia Soul 09 onwards
- Hyundai / Kia Male to DIN Female

PRODUCT CODE  
**7 APA64**

■ CHRYSLER/JEEP

**AERPRO HEADUNIT AERIAL ADAPTOR LEAD CHRYSLER JEEP 2002 ON**

Converts a factory headunit antenna connection to a standard DIN plug for aftermarket head units. Some vehicles are fitted with a specific style of antenna plug, this can make upgrading to an aftermarket headunit a bit tricky.

- For cars with Chrysler/Jeep 2002 on socket.

PRODUCT CODE  
**7 APA36**

■ NISSAN

**AERPRO HEADUNIT AERIAL ADAPTOR LEAD NISSAN**

The product is a Nissan antenna adapter cable that enables universal head unit to be used in Nissan vehicle. Converts a factory headunit antenna connection to a standard DIN plug for aftermarket head units.

- Enables universal head unit to work in a Nissan.

PRODUCT CODE  
**7 APA69**

**AERPRO FACTORY RADIO AERIAL ADAPTOR LEAD SUIT OEM NISSAN**

Converts a factory headunit antenna connection to a standard DIN socket for aftermarket antennas. The product is used when installing aftermarket antenna to factory radio.

- Antenna adaptor lead to suit OEM Nissan.

PRODUCT CODE  
**7 APA89**

■ SUBARU

**AERPRO HEADUNIT AERIAL ADAPTOR LEAD SUBARU**

Converts a factory headunit antenna connection to a standard DIN plug for aftermarket head units. The adaptor is ideal to convert Subaru factory antenna plug to aftermarket radio.

- For cars with OEM Subaru nylon block connector.
- Found in: late model Subarus.

PRODUCT CODE  
**7 APA52**

**AERPRO FACTORY RADIO AERIAL ADAPTOR SUBARU**

Converts a factory headunit antenna connection to a standard DIN plug for aftermarket head units.

- For cars with OEM radio.
- Converts Ant input to standard DIN socket.
- Found in late model Subarus.

PRODUCT CODE  
**7 APA53**

■ SUBARU/TOYOTA

**AERPRO HEADUNIT AERIAL ADAPTOR LEAD SUITS SELECTED TOYOTA & SUBARU**

Aerpro antenna adapters simply plug into the vehicles specific antenna plug and convert it to a standard plug (DIN) which is suitable for most aftermarket head units.

- For cars with OEM Toyota nylon block connector.
- Found in: Late Toyota models.

PRODUCT CODE  
**7 APA75**

■ TOYOTA

**AERPRO FACTORY RADIO AERIAL ADAPTOR LEAD SUIT TOYOTA**

Converts a factory headunit antenna connection to a standard DIN socket for aftermarket antennas. Converts female DIN antenna socket to male Toyota antenna plug. Designed for adding an aftermarket antenna to a factory-fitted headunit

- For cars with OEM radio.
- Converts antenna input to female DIN socket.

PRODUCT CODE  
**7 APA81**

■ VOLVO

**AERPRO HEADUNIT AERIAL ADAPTOR LEAD SUIT VOLVO**

Converts a factory headunit antenna connection to a standard DIN plug for aftermarket head units.

- For cars with OEM Volvo nylon block connector.
- Found in: S80, V70, V40.

PRODUCT CODE  
**7 APA85**

**AERPRO**  
**UHF AERIAL WITH ELEVATED FEED & SPRING BASE 3DBI 6DBI 477 MHZ**

The Aerpro UHF antenna kit features a high-quality elevated feed and heavy-duty spring base combined with interchangeable 3dBi and 6dBi flexible masts giving the best of both worlds when it comes to UHF reception.

- Heavy duty spring base.
- Fitted with 5 metres of RG58 coax cable.
- 65CM Whip (6DBI).
- 15CM Whip (3DBI).
- 477 MHz.

PRODUCT CODE  
**7 CBA36F1L**

**AERPRO**  
**60CM UHF FIBREGLASS WHIP AERIAL 477 MHZ 4.5DBI**

UHF CB radio antennas are all now made with 100% stainless steel spring and body construction making them suitable for all the harsh conditions that the environment can throw at them.

- Frequency: 477MHZ
- Length: 2ft (60cm)
- Gain: 4.5 dBi
- 1/4in thread.

PRODUCT CODE  
**7 CBA3F1**

**AERPRO**  
**UHF AERIAL WITH ELEVATED FEED & SPRING BASE 6DBI 477 MHZ**

UHF CB radio antennas are all now made with 100% stainless steel spring and body construction making them suitable for all the harsh conditions that the environment can throw at them.

- Frequency: 477MHZ.
- Total gain: 6 dBi
- Mast length: 65cm (6dBi)
- Fitted with 5 metres of RG58 coax cable.
- Heavy duty spring base.

PRODUCT CODE  
**7 CBA3F1L**

**AERPRO**  
**91CM CB FIBREGLASS WHIP AERIAL**  
**PRE-TUNED 27 MHZ**

UHF CB radio antennas are all now made with 100% stainless steel spring and body construction making them suitable for all the harsh conditions that the environment can throw at them.

- Pre-tuned.
- Frequency: 27 Mhz.
- Length: 3 Ft (91cm).

PRODUCT CODE  
**7 CBA3FX**

**AERPRO**  
**67CM UHF CB COIL LOADED WHIP**  
**BLACK STEEL AERIAL 4.5DBI 477 MHZ**

UHF CB Radio antennas are all now made with 100% stainless steel spring and body construction making them suitable for all the harsh conditions that the environment can throw at them.

- Frequency: 477MHZ.
- Length: 2ft (67cm).
- Gain: 4.5 dBi.
- 1/4in thread.
- Stainless steel coil loaded whip.

PRODUCT CODE  
**7 CBA4S1**

**AERPRO**  
**106CM ENCLOSED UHF AERIAL IN**  
**FIBREGLASS TUBE 477 MHZ 7.5DBI**

UHF CB radio antennas are all now made with 100% stainless steel spring and body construction making them suitable for all the harsh conditions that the environment can throw at them.

- Frequency: 477MHZ.
- Heavy duty spring base.
- Enclosed antenna in PVC tube.
- Gain: 7.5 DBI.

PRODUCT CODE

■ BMW

**AERPRO  
HARNESS ISO TO BMW ROUND PIN**

The primary harness is the harness that plugs into your car's main entertainment system connector and converts it into a double ISO connector system (universal).

- ISO connector to suit most BMW models with round pin plug type.
- Suits: BMW 3 series E36/E46 - 01/2005, BMW 5 E39 - 07/2000, BMW 7 E38 - 08/2000, BMW 8 - 08/2000, BMW Mini - 09/2000 - 12/2002, BMW X5 - 2001, BMW Z3/Z4 - 01/1996-04/2001.

PRODUCT CODE  
**71 APP021**

**AERPRO  
HARNESS ISO TO BMW SQUARE PIN**

The primary harness is the harness that plugs into your car's main entertainment system connector and converts it into a double ISO connector system (universal).

- ISO connector to suit most BMW models with square pin plug type.
- Suits: BMW 1 er E87, BMW 3 er E90 - 01/2001, BMW 5 er E39+E60+E61 - 07/2000, BMW 6 er E63+E64, BMW X3/X5/Z4/Z8 - 05/2001.

PRODUCT CODE  
**71 APP022**

■ CHRYSLER/JEEP

**AERPRO  
HARNESS ISO  
TO CHRYSLER-JEEP**

ISO harnesses make upgrading a vehicles headunit a simple task by converting the OEM radio plug to ISO connectors. A brand specific secondary ISO harness (sold separately) can then be used to convert the ISO connectors to suit the aftermarket headunit.

- Easy plug and play solution.
- Converts vehicles radio plug to ISO connectors.
- Suits: Chrysler 300 M 02 - on, Chrysler Grand Voyager RG 02- on, Chrysler PT Cruiser 01 - on, Jeep Cherokee 02 - on, Jeep Wrangler 03 -on.

PRODUCT CODE  
**71 APP019**

■ FORD

**AERPRO  
ADAPTOR LEAD FORD  
TERRITORY BA-BF**

Connect directly from your device's audio outlet using these "AUX" input adaptor harnesses that wire directly into on your car stereo system.

- Allows MP3/iPod/CD to connect to factory radio.
- Ford 5 pin plug to 2 RCA sockets.
- Includes 3.5mm stereo to 2 male RCA plug lead.
- Connect to orange auxiliary socket.

PRODUCT CODE  
**71 AFD2AUX**

**AERPRO  
HARNESS ISO TO FALCON EF-EL**

The primary harness is the harness that plugs into your car's main entertainment system connector and converts it into a double ISO connector system (universal).

- ISO Connector to suit Ford Falcon EF-EL & various Mazda models.

PRODUCT CODE

PRODUCT CODE  
**75 SB60A**

**AERPRO TWO CHANNEL LINE OUTPUT CONVERTER**

AP3042A is a super compact 2-channel line output converter. Ideal for adding aftermarket amplifiers to factory headunits in most 12V vehicles.

- 2-Channel
- Step Down Adjustable Channel Gain
- Remote Out Trigger
- Signal Noise Filter
- Super Compact Design
- LED Power Indicator

PRODUCT CODE  
**73 AP3042A**

**AERPRO FOUR CHANNEL LINE OUTPUT CONVERTER**

Aerpro Line Output Converters will convert your existing cars factory headunits high level (speaker output) into a low voltage line level (RCA) output allowing you to add on an aftermarket amplifier to an OEM headunit.

- Remote output trigger
- LED power indicator
- Eliminates signal noise
- Audio ground
- Individual channel gains
- Adjustable 6:1 stepdown gain

PRODUCT CODE  
**73 AP3044A**

**AERPRO POWER DISTRIBUTION BLOCK 4GX2 TO 8GX4**

A solid brass gold plated distribution block allowing cable of 4Gx2 to be split into 8Gx4 cable. Can also be used as a reducer to allow cable to match the feed size of a amplifiers terminal board.

- Solid brass.
- Gold plated.
- Clear perspex cover.
- Hex set screws.

PRODUCT CODE  
**73 AP406**

**AERPRO POWER DISTRIBUTION BLOCK 0GX1 TO 4GX4**

Split power and ground cables into multiple feeds so as to power more devices from the one battery cable. They can also reduce the cable size at the same time to facilitate the cable input feed size of the amplifiers terminal board.

- Solid brass.
- Gold plated.
- Clear perspex cover.
- Hex set screws.

PRODUCT CODE  
**73 AP410**

**AERPRO AGU IN-LINE FUSE HOLDER 4GA OR 8GA**

A fuse holder suitable for 4 gauge or 8 gauge power cables.

- Suitable for 4 or 8 gauge power cable.
- Anti-loosening screw end with waterproof grommets.
- Gold plated fittings.
- Allen key screws for connecting power cable.

PRODUCT CODE  
**73 AP452A**

**AERPRO AGU FUSE PK5**

The product is a 5 pack of AGU fuses.

- Gold plated end caps.

PRODUCT CODE  
**73 AP459 40AMP**  
**73 AP460 50AMP**  
**73 AP461 60AMP**

**AERPRO ANL IN-LINE FUSE HOLDER 0, 2 OR 4GA**

Use Aerpro fuse holders to keep systems fuse securely in place. The AP462A suits multiple cable gauges from 0 down to 4 AWG so it's perfect for almost any size system.

- Suits 0,2 and 4 AWG Cable
- Solid Brass Connectors with Satin Chrome Finish
- High-Temp PC Base and Cover
- 4-Point Base Mounting
- Fuse not included.

PRODUCT CODE  
**73 AP462A**

**AERPRO ANL FUSE**

Suits AP462A fuse holder.

PRODUCT CODE  
**73 AP466 80AMP**  
**73 AP467 100AMP**  
**73 AP468 150AMP**  
**73 AP469 200AMP**

**AERPRO CIRCUIT BREAKER 60AMP 4GA OR 8GA**

The AP484 is a 60 Amp Inline/ Panel mount circuit breaker which is compatible with 4 & 8 ga cables.

- Gold plated fittings
- Moisture and dust protected

PRODUCT CODE  
**73 AP484**

**AERPRO BATTERY TERMINAL NEGATIVE 4-WAY**

Bare wires can short unexpectedly and damage your equipment. Use of these terminals are necessary to reduce the chances of this happening, while making your installation look great.

- Battery terminal, negative
- Suits 1x4ga, 1x2ga, 2x8ga cable
- Set screw type
- Gold plated
- Suits 15mm terminals

PRODUCT CODE  
**73 AP502**

**AERPRO BATTERY TERMINAL POSITIVE 4-WAY**

Bare wires can short unexpectedly and damage your equipment. Use our terminals where necessary and you not only reduce the chances of this but also make your installation look great.

- Positive battery terminal.
- Suits: 1x 4GA, 1x 2GA, 2x 8GA cable.
- Gold plated.
- Suits: 15mm terminals.

# A NEW FEELING IN THE AIR

Every fruit has a hidden scent, that refreshing burst of freshness we can't always explain.

What if you could trap those refreshing burst of flavours, that special wisp that every fruit gives when you cut into it?

At Jelly Jets, we've made it our mission to trap that freshness and turn it into something that lasts.

**JELLY JETS®**  
— AIR FRESHENER —

All our nine jet-shaped scents will leave your rides and homes smelling unbelievably delightful. Each jet shaped air freshener is made with love and meticulousness. Each of them has its own fresh and fruity element. If you love the flavour, then you'll love the scent!

[www.jellyjets.co.nz](http://www.jellyjets.co.nz)

**JELLY JETS  
CLIP-IT AIR FRESHENER**

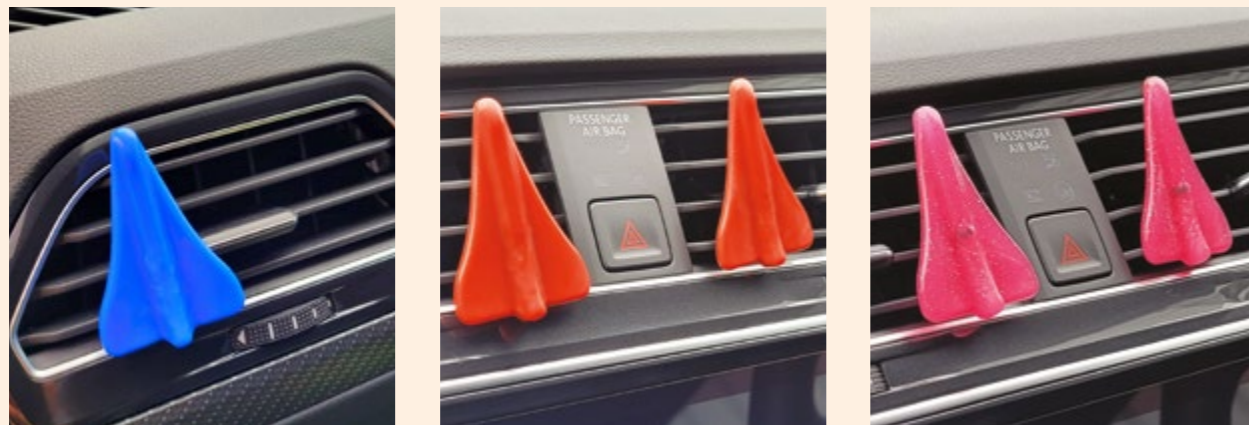

We are continuously looking for ways to capture the scent and bring it into your homes, offices, caravans, boats and RVs. Our exciting flavours gradually fill the room and take over your space in an enticing way; with many different fragrances to choose from.

- Iconic jet shaped air freshener.
- Fragrance lasts up to 45 days.
- Easily clips onto car vent.
- Scratch and smell before you purchase.
- Ideal for your car, home, office, caravan, RV or boat.

**J-B WELD CLEAR ALL PURPOSE RTV SILICONE SEALANT & ADHESIVE 85G TUBE**

All purpose sealant and adhesive, suitable for automotive and household applications. The silicone forms a tough, waterproof, mildew and mould resistant seal on most surfaces.

- Room temperature vulcanisation, all purpose technology.
- Set time: 1 hour.
- Fully cures in 24 hours.
- Forms a tough, waterproof seal on most surfaces.

PRODUCT CODE  
**69 31310**

**J-B WELD WHITE ALL PURPOSE RTV SILICONE SEALANT & ADHESIVE 85G TUBE**

Waterproof general purpose sealant adhesive that is ideal in applications such as bathtubs, showers, sinks, bathroom fixtures, windows, interior trim, door frames, moulding and lens housings.

- Designed for use in household or mechanical jobs.
- Forms a tough, waterproof seal on most surfaces.
- White, set time: 1 hour.
- Mold and mildew resistant.

PRODUCT CODE  
**69 31312**

**JB WELD RED HIGH TEMP RTV SILICONE 85G TUBE**

RTV (Room Temperature Vulcanized) silicone gasketing material, designed for use in mechanical assemblies where the existence of higher, continuous temperatures up to 343C intermittent might exist.

- Room temperature vulcanisation, all purpose technology.
- Red, set time: 1 hour.
- Will not shrink or crack and resists weathering.

PRODUCT CODE  
**69 31314**

**JB WELD BLUE RTV SILICONE GASKET MAKER AND SEALANT 85G TUBE**

An RTV (Room Temperature Vulcanized) silicone gasketing material designed for use in mechanical assemblies, sealing and bonding uneven surfaces.

- Blue RTV silicone gasket maker and sealant.
- Will not shrink or crack and resists weathering.
- Blue, set time: 1 hour.
- Forms a tough, waterproof seal on most surfaces.

PRODUCT CODE  
**69 31316**

**J-B WELD BLACK RTV SILICONE GASKET MAKER AND SEALANT 85G TUBE**

A general purpose RTV (Room Temperature Vulcanized) silicone, designed for sealing and bonding uneven surfaces. Upon curing, the silicone forms a tough, waterproof seal on most surfaces.

- For use in household or mechanical jobs.
- Black, set time: 1 hour.
- Forms a tough, waterproof seal on most surfaces.
- Will not shrink or crack and resists weathering.

PRODUCT CODE  
**69 31319**

**J-B WELD ULTIMATE COPPER RTV SILICONE GASKET MAKER & SEALANT 85G TUBE**

RTV (Room Temperature Vulcanized) silicone gasketing material that is three times more oil resistant than conventional silicones and designed to resist the high operating temperatures of turbocharged or high-performance engines.

- Advanced high temperature RTV sealant adhesive.
- Designed for high operating temperatures.

PRODUCT CODE  
**69 32325**

**J-B WELD ULTIMATE GREY RTV SILICONE GASKET MAKER & SEALANT 85G TUBE**

For use in mechanical assemblies where higher torque or closely spaced bolt profiles can lead to higher loads and cause gasket and sealing failures for average silicones.

- Designed for use in mechanical assemblies.
- Use in higher torque and higher load applications.
- Resistance up to 260°C.
- Set time: 1 hour.

PRODUCT CODE  
**69 32327**

**J-B WELD ULTIMATE BLACK RTV SILICONE GASKET MAKER & SEALANT 85G TUBE**

For use in mechanical assemblies where maximum petroleum and oil resistance is required. Upon curing, the silicone forms a tough, waterproof, gasket and seal on most surfaces.

- Ultimate black RTV gasket maker and sealant.
- Designed for use in mechanical assemblies.
- Maximum petrol and oil resistance.
- Resistance up to 260°C.
- Set time: 1 hour.

PRODUCT CODE  
**69 32329**

**J-B WELD ULTIMATE BLACK RTV SILICONE GASKET MAKER & SEALANT 14G TUBE**

For use in mechanical assemblies where maximum petroleum and oil resistance is required.

- Ultimate black RTV gasket maker and sealant.
- Designed for use in mechanical assemblies.
- Maximum petrol and oil resistance.
- Temperature resistance up to 260C.
- Set time: 1 hour, Cure colour: Black.

PRODUCT CODE  
**69 32509**

**J-B WELD WATER PUMP & THERMOSTAT HOUSING RTV SILICONE 14G TUBE**

Specially designed RTV (Room Temperature Vulcanized) silicone gasketing material for use in mechanical assemblies.

- Water pump and thermostat gasket maker/sealant.
- Maximum oil resistance.
- Forms a tough, waterproof seal on most surfaces.
- Temperature resistance up to 260C.
- Set time: 1 hour, Cure colour: Black.

PRODUCT CODE  
**69 32507**

**J-B WELD RED HIGH TEMP RTV SILICONE 292G CARTRIDGE**

RTV (Room Temperature Vulcanized) silicone gasketing material, designed for use in mechanical assemblies where the existence of higher, continuous temperatures up to 343 degrees Celsius intermittent might exist.

- Set time: 1 hour, Cure colour: Red.
- Will not shrink or crack and resists weathering.
- Red hi-temp RTV silicone gasket maker and sealant.

PRODUCT CODE  
**69 31914**

**J-B WELD BLACK RTV SILICONE SEALANT & ADHESIVE 85G TUBE**

RTV (Room Temperature Vulcanized) silicone, designed for sealing and bonding uneven surfaces. Upon curing, the silicone forms a tough, waterproof seal on most surfaces.

- Designed for use in household or mechanical jobs.
- Set time: 1 hour, Cure colour: Black.
- Will not shrink or crack and resists weathering.

PRODUCT CODE  
**69 31919**

**J-B WELD ULTIMATE GREY RTV SILICONE GASKET MAKER & SEALANT 269G CART**

Designed for use in mechanical assemblies where higher torque or closely spaced bolt profiles can lead to higher loads and cause gasket and sealing failures for average silicones.

- Use in higher torque and higher load applications.
- Temperature resistance up to 260C.
- Set time: 1 hour, Cure colour: Grey.

PRODUCT CODE  
**69 32927**

**J-B WELD ULTIMATE BLACK RTV SILICONE GASKET MAKER & SEALANT 269G CART**

Designed for use in mechanical assemblies where maximum petroleum and oil resistance is required. Upon curing, the silicone forms a tough, waterproof, gasket and seal on most surfaces.

- Designed for use in mechanical assemblies.
- Maximum petrol and oil resistance.
- Temperature resistance up to 260C.
- Set time: 1 hour, Cure colour: Black.

PRODUCT CODE  
**69 32929**

**J-B WELD MIRRORWELD**

Why spend time and money on mirror adhesives that aren't going to last? Instead, use J-B Weld Mirror Weld, the most effective adhesive on the market, to reattach your rear view mirror. When exposed to UV light, shock, or vibration.

- Specially formulated rear view mirror adhesive.
- Includes adhesive and accelerator.
- Sets in 1 minute.
- Cures in 1 hour.
- Used to install new mirrors, and re-attached mirrors that have fallen.

PRODUCT CODE  
**69 33701**

**J-B WELD VALVE GRINDER 42G**

J-B Weld Valve Grinder is a water-based odourless and abrasive paste designed to aid in valve grinding and lapping operations on engines to remove burrs, surface defects, deposits and corrosion.

- Water-based odourless abrasive paste.
- Grinding & lapping compound for valve faces and seats.
- Removes burrs, defects & corrosion.
- Auto-adjust grit: application starts as a coarse 120 grit, then grinds down to 150, 180, and then a fine 220.

PRODUCT CODE  
**69 37801**

**J-B WELD EXTREME HEAT METALLIC PASTE 85.2G**

Organic repair paste able to withstand extreme heat up to 1300C. Organic repair paste can be used for filling cracks and holes on metal surfaces. Sets in 1 hour and dries machine grey to a functional cure in 24 hours.

- Temperature resistant metallic paste.
- Cure colour: Machine grey.
- Cure time: 24 hours, Set time: 1 hour.
- Able to withstand continuous heat to 1300°C.
- Used for filling cracks and holes on metal surfaces.

PRODUCT CODE  
**69 37901**

**J-B WELD METAL STRAPPING KIT**

J-B Weld Metal Strapping Kit is a 5 foot galvanized metal strip that accommodates a 1/4in bolt and nut to do temporary or permanent repairs on mufflers, exhaust, general automotive or household items.

- Great for: muffler clamps, tail pipe hanger, pipe hanger and work benches.
- Can also be used for household, gutter and downspout support.

PRODUCT CODE  
**69 37990**

**J-B WELD AUTOMOTIVE REPAIR CAST**

Permanent Repair Cast is a high-strength one-time use fiberglass wrap, impregnated with a specially formulated resin designed to adhere to a wide variety of surfaces. When activated by water, the product forms a strong, permanent bond that hardens like steel in 15 minutes.

- Once the product is dipped in water for 5-7 seconds, you will have between 5-10 minutes to work with the product and then it will fully cure in 15 minutes!
- J-B Weld FiberWeld Repair Cast has a bend strength of 1500 PSI. Once the product is fully cured, it can be sanded and painted!
- Great for outdoor/indoor furniture, tool handles, yard equipment, pipes & hoses, sporting & camping gear, preventative reinforcement and more!

PRODUCT CODE  
**69 38237**

**J-B WELD TAILPIPE & PIPE REPAIR WRAP**

J-B Weld Tailpipe and Pipe Repair Wrap is a high-strength, fiberglass cloth, infused with temperature-resistant adhesive for a lasting repair. When cured, it hardens like steel and is able to withstand temperatures up to 800 degrees F.

- 2in x 70in temperature resistant fiberglass tape.
- Withstands up to 800°F
- 1 hour cure time
- Hardens like steel
- Repairs, seals & insulates tailpipes and mufflers

PRODUCT CODE  
**69 38503**

**J-B WELD EXHAUST SYSTEM CRACK JOINT & SEAM SEALANT 85G TUBE**

J-B Weld Exhaust system sealant is a heat resistant paste that is used to seal gaps, smooth seams or seal pipe connections within an exhaust system reassembly or repair. The paste is resistant to temperature of up to 1800F with negligible, if any shrinkage.

- Set time: 30 minutes.
- Temperature resistant up to 1800F.
- Non-shrinking.
- Great for: Mufflers, tailpipes, catalytic converters and exhaust pipe connections.

PRODUCT CODE  
**69 37903**

**J-B WELD MUFFLER SEAL CEMENT PASTE 170G TUBE**

MufflerSeal Muffler Cement is a metal containing paste that prevents and seals leaks at seams and gaps of pipe and exhaust connection points. When fully cured, this paste dries to a cement-like hardness that is heat resistant up to 700° F.

- SET TIME: 2- 4 hours
- CURE TIME: 24 hours
- CURE COLOUR: Dark Grey.
- GREAT FOR: Mufflers, pipe joints, exhaust systems, seams cracks, gaps & joints.
- 6 oz.

PRODUCT CODE  
**69 37906**

**J-B WELD MUFFLER SEAL CEMENT PASTE 340G TUBE**

MufflerSeal Muffler Cement is a metal containing paste that prevents and seals leaks at seams and gaps of pipe and exhaust connection points. When fully cured, this paste dries to a cement-like hardness that is heat resistant up to 700° F.

- SET TIME: 2- 4 hours
- CURE TIME: 24 hours
- CURE COLOUR: Dark Grey.
- GREAT FOR: Mufflers, pipe joints, exhaust systems, seams cracks, gaps & joints.
- 12 oz.

PRODUCT CODE  
**69 37912**

**J-B WELD ULTRA HEAT WRAP CERAMIC EXHAUST SYSTEM REPAIR KIT**

J-B Weld Ultra Heat Wrap is high-strength temperature resistant, ceramic cloth material, infused with a high temperature adhesive. When fully cured it hardens like steel and able to withstand temperatures up to 1800 degrees F.

- 2in x 35in temperature resistant ceramic fiber tape
- Withstands over 1500°F
- 30 minute cure time
- Flame resistant
- Exhaust system repair

PRODUCT CODE  
**69 38553**

**J-B WELD RIGID PATCH**

The Rigid Patch is the perfect solution for repairs that you can't wrap. Simply place the patch on the broken area, expose to natural or UV light and in less than 15 minutes it will cure!

- Wet, apply and let it dry!
- Works on composites, metals, wood, plastics and more.
- Great for repairs on boats, pools, spas, tubs/showers, yard equipment, auto body, gutters and more.

PRODUCT CODE  
**69 39036**

J-B Weld offers a complete, innovative range of strongest in class products to help DIYers of all skill levels confidently pull off projects both big and small, from the workshop to the garage to the home. Our mission is to help you tap into the confidence and self-reliance you already have to help you "Be Your Strongest Self".

**J-B WELD  
WOOD RESTORE  
LIQUID HARDENER 474ML**

J-B wood restore liquid hardener is a quick drying liquid for sealing and reinforcing decayed or rotted wood; for reducing moisture in decaying or rotted wood surfaces, prior to putty filling. The special liquid formula penetrates the wood to reinforce the fibres stopping further decay.

- Seals rotted wood surfaces.
- Easy brush on application.
- No mix formula.
- Reduces moisture in rotted wood.
- Forms solid base for filling.

PRODUCT CODE  
**69 40001**

**J-B WELD  
WOOD RESTORE  
REPAIR PUTTY WOOD FILLER 354ML**

J-B wood restore repair putty wood filler provides a permanent repair to damaged and rotted wood. J-B wood filler's professional strength formula is ideal for interior and exterior wood projects. Use to fill in small cracks or large holes.

- Provides permanent repairs to damaged wood.
- Ideal for interior or exterior wood projects.
- Use to fill small cracks or large holes.
- Provides a hard workable surface in 15 minutes.

**J-B WELD  
MUFFLER PATCH KIT**

Temperature resistant epoxy combined with fiberglass that cures with heat. When in contact with a heat source, this product will cure itself and form a strong, permanent patch to the underlying surface.

- Cures with heat in 20 minutes.
- Hardens strong as steel.
- Can withstand temperatures up to 600F.

PRODUCT CODE  
**69 39205**

**J-B WELD  
TIGER PATCH KIT**

Temperature resistant epoxy combined with fiberglass that cures with heat. When in contact with a heat source, this product will cure itself and form a strong, permanent patch to the underlying surface.

- Withstands up to 600F.
- Hardens like steel with heat in 20 minutes.
- Comes with aluminum tape for long-term patch repair on mufflers & tailpipes.
- Great for mufflers, exhaust systems, seams, cracks, gaps, joints, automotive and machine parts.

PRODUCT CODE  
**69 39206**

**J-B WELD  
FIBERWELD PERMANENT  
FIBREGLASS REPAIR CAST**

Permanent Repair Cast is a high-strength one-time use fiberglass wrap, impregnated with a specially formulated resin designed to adhere to a wide variety of surfaces. When activated by water, the product forms a strong, permanent bond that hardens like steel in 15 minutes.

- Cure and Set Time: Once the product is dipped in water for 5-7 seconds, you will have between 5-10 minutes to work with the product and then it will fully cure in 15 minutes!
- J-B Weld FiberWeld Repair Cast has a bend strength of 1500 PSI. The kit includes a pair of gloves and a securing bandage!
- Great For: Outdoor/Indoor furniture, Tool Handles, Yard Equipment, Pipes & Hoses, Sporting & Camping Gear, Preventative Reinforcement and more!
- Big or small, you can DIY it with J-B Weld. Our heavy duty epoxy and adhesives repair & restore it right the first time.
- Surface Applications: Metal, Most Plastics, Wood, PVC, Fiberglass, Rubber and more!
- Set Time: 5-10 minutes.
- Cure Time: 15-20 minutes.
- Once the product is fully cured, it can be sanded and painted!

PRODUCT CODE  
**69 38236**

**J-B WELD  
FIBERWELD  
FIBERGLASS PIPE  
REPAIR CAST**

J-B Weld FiberWeld is a high-strength one-time use fiberglass wrap, impregnated with a specially formulated anti-corrosive resin providing a permanent and protective adhesion to a wide variety of pipes.

- Cure and Set Time: Once the product is dipped in water for 5-7 seconds, you will have between 5-10 minutes to work with the product and then it will fully cure in 15 minutes!
- Bend strength of 1800 PSI. The kit includes a pair of gloves, an epoxy putty stick and a securing bandage!
- Great For Repairs On: Copper, Cast Iron, PVC, ABS, Galvanized Steel, Rubber and more!
- Big or small, you can DIY it with J-B Weld. Our heavy duty epoxy and adhesives repair & restore it right the first time.
- Surface Applications: Copper, Cast Iron, PVC, ABS, Galvanized Steel, Rubber and more!
- Set Time: 5-10 minutes.
- Cure Time: 15-20 minutes.
- Once the product is fully cured, it can be sanded and painted!

PRODUCT CODE  
**69 38248 1 INCH**  
**69 38260 2 INCH**

**J-B WELD  
EXHAUST WELD**

ExhaustWeld Total Exhaust Repair Wrap is a high strength fiberglass wrap, impregnated with a specially formulated resin for high temperature resistant repairs.

- A high strength fiberglass wrap, impregnated with a specially formulated resin for high temperature resistant repairs. ExhaustWeld can resist up to 1100°F once it is fully cured!
- ExhaustWeld can cure with or without heat! It will cure within 20 minutes if heat is applied to it with either a heat gun or by letting the engine run.
- Once fully cured, J-B Weld ExhaustWeld Exhaust System Repair Wrap has a temperature resistance of 1100°F, allowing it to be used on every part of the exhaust system!
- Great for manifolds, catalytic converters, mufflers, tailpipes and more!
- The kit includes a pair of gloves and a 0.5in x 24in piece of aluminum tape!

PRODUCT CODE  
**69 38572**

**J-B WELD  
STATIC MIXERS 2 PACK**

J-B Weld Static Mixers are easy-to-use attachments for any of J-B Weld 25 ml syringes that allow for precise mixing of our two-component adhesives. Each mixer comes with 16 static elements to ensure complete mixing.

- 16 elements to ensure proper mixing every time.
- Works on all JB weld syringes.
- Precision tip for dispensing control.
- 2 pack.

PRODUCT CODE  
**69 50099**

**J-B WELD  
MINUTEWELD  
CLEAR INSTANT SETTING EPOXY  
SYRINGE 25ML**

MinuteWeld is a special formulated, high-strength, two-part instant setting epoxy. MinuteWeld will set under most temperature conditions in one minute. MinuteWeld is designed to adhere to multiple surfaces and can be used on ceramic, tile, glass, stone, most plastics, wood and metal.

- High-strength, two-part instant setting epoxy.
- Will set in one minute under most temperatures.
- Designed to adhere to multiple surfaces.
- Strength 2850 psi, Set time: 1 min.
- Cure time: 1 hour, Cure colour: Clear.

PRODUCT CODE  
**69 50101**

**J-B WELD  
CLEARWELD  
CLEAR QUICK SETTING EPOXY  
SYRINGE 25ML**

ClearWeld is a quick setting, multi-purpose two part epoxy that provides a strong and lasting bond on most surfaces including tile, most plastics, ceramic, glass, wood and metal. ClearWeld is designed to cure with a clear, transparent bond when used at thicknesses of less than 15mm.

- Quick setting two-part, multi-purpose epoxy.
- Creates a strong, long lasting bond.
- Bonds tile, ceramic, glass, wood and plastics.
- Strength 4400 psi, Set time: 5 mins.
- Cure time: 1 hour, Cure colour: Clear.

PRODUCT CODE  
**69 50112**

**J-B WELD  
CLEARWELD SYRINGE 14ML**

ClearWeld is a quick setting, multi-purpose two part epoxy that provides a strong and lasting bond on most surfaces including tile, most plastics, ceramic, glass, wood and metal. ClearWeld is designed to cure with a clear, transparent bond when used at thicknesses of less than 15ml.

- Great for: Tiles, most plastics, ceramic, glass, wood and metal.
- Use on: Automotive, brick, ceramic, cloth/carpets, concrete, fiberglass, glass, plastic/composite/PVC and more.
- Strength: 3900 PSI.
- Set time: 5 minutes.
- Cure time: 1 hour.
- Cure colour: clear.

PRODUCT CODE  
**69 50114**

**J-B WELD  
PLASTICWELD  
QUICK SETTING EPOXY SYRINGE 25ML**

PlasticWeld is a specially formulated two-part adhesive and epoxy filler system that provides for strong, lasting repairs. PlasticWeld will bond a variety of surfaces, such as metal, composites, fiberglass and others.

- Will bond a variety of surfaces.
- Long lasting bond.
- Strength 4400 psi, Set time: 5 mins.
- Cure time: 1 hour, Cure colour: Off white.

PRODUCT CODE  
**69 50132**

**J-B WELD  
PLASTICBONDER TAN ADHESIVE,  
FILLER & SEALER SYRINGE 25ML**

Plastic Bonder is a quick-setting, two-part, urethane adhesive system that provides strong and lasting repairs and works on thermoset, carbon fibre composites, thermoplastics, coated metals, concrete and more.

- Two-part, urethane adhesive system.
- Creates strong, long lasting repairs.
- Works on thermoset, thermoplastics and more.
- Strength 3770 psi, Set time: 15 mins.
- Cure time: 30 mins, Cure colour: Tan.

PRODUCT CODE  
**69 50133**

**J-B WELD  
PLASTICBONDER  
BLACK ADHESIVE & GAP FILLER  
SYRINGE 25ML**

Plastic Bonder is a quick-setting, two-part, urethane adhesive system that provides strong and lasting repairs and works on thermoset, carbon fibre composites, thermoplastics, coated metals, concrete and more.

- Two-part, urethane adhesive system.
- Creates strong, long lasting repairs.
- Works on thermoset, thermoplastics and more.
- Strength 3770 psi, Set time: 15 mins.
- Cure time: 30 mins, Cure colour: Black.

PRODUCT CODE  
**69 50139**

**J-B WELD  
WOODWELD  
LIGHT TAN QUICK SETTING EPOXY  
SYRINGE 25ML**

WoodWeld is a fast setting two-part epoxy system formulated for wood bonding and repairs. When fully cured it can be shaped, tapped, filed, sanded and drilled. It provides a lasting permanent bond that is stronger than wood!

- GREAT FOR: Indoor/outdoor, furniture, doors, windows, trim/moulding, decks & more
- USE ON: Rotted wood, non-rotted wood & more

PRODUCT CODE  
**69 50151**

**J-B WELD  
COLDWELD  
DARK GREY STEEL REINFORCED EPOXY  
SYRINGE 25ML**

J-B Weld two-part epoxy cold weld system provides strong, lasting repairs to metal and multiple other surface types. After mixing, it forms a permanent bond and can be shaped, tapped, filed, sanded and drilled after curing.

- Two-part, cold weld epoxy system.
- Creates strong, long lasting repairs.
- Can be shaped, tapped, filed, sanded and drilled.
- Strength 3960 psi, Set time: 4-6 hours.
- Cure time: 15-24 hours, Cure colour: Dark grey.

PRODUCT CODE  
**69 50165**

**J-B WELD  
MARINEWELD  
WHITE MARINE ADHESIVE  
SYRINGE 25ML**

MarineWeld is a specially formulated two part Cold-Weld adhesive system that provides strong, lasting repairs for bonding different or similar surfaces, such as metal, composites, fiberglass and others.

- Retains full strength above or below water surface.
- Can be shaped, tapped, filed, sanded and drilled.
- Strength 3200 psi, Set time: 20 mins.
- Cure time: 15 - 24 hours, Cure colour: White.

PRODUCT CODE  
**69 50172**

**J-B WELD  
KWIKWELD  
DARK GREY STEEL REINFORCED  
EPOXY SYRINGE 25ML**

KwikWeld is a fast setting two-part epoxy cold weld system that provides strong, lasting repairs to metal and multiple other surface types. After mixing, it forms a permanent bond and can be shaped, tapped, filed, sanded and drilled after curing.

- Can be shaped, tapped, filed, sanded and drilled.
- Strength 2424 psi, Set time: 6 mins.
- Cure time: 4 - 6 hours, Cure colour: Dark grey.

PRODUCT CODE  
**69 50176**

**J-B WELD  
CLEARWELD  
PROFESSIONAL  
SIZE 8 OZ**

ClearWeld Professional Size is professional size of our quick setting, multi-purpose two part epoxy that provides a strong and lasting bond on most surfaces including tile, most plastics, ceramic, glass, wood and metal.

- Great for: Tiles, most plastics, ceramic, glass, wood and metal.
- Use on: Automotive, brick, ceramic, cloth/carpets, concrete, fiberglass, glass, plastic/composite/PVC and more.
- Cure colour: clear.
- Set time: 5 minutes.
- Cure time: 1 hour.

PRODUCT CODE  
**69 50240H**

**J-B WELD CLEARWELD TWIN TUBE 16ML**

ClearWeld is a quick setting, multi-purpose two part epoxy that provides a strong and lasting bond on most surfaces including tile, most plastics, ceramic, glass, wood and metal. ClearWeld is designed to cure with a clear, transparent bond.

- Great for: Tile, most plastics, ceramic, glass, wood & metal.
- Use on: Automotive, brick, ceramic, cloth/ carpet, concrete, fiberglass, glass, plastic/ composite/PVC and more.
- Strength: 3900 PSI.
- Set time: 5 minutes.
- Cure time: 1 hour.
- Cure colour: Clear.

PRODUCT CODE  
**69 8212**

**J-B WELD TANKWELD PETROLEUM RESISTANT EPOXY PUTTY STICK 28.4G**

AutoWeld is a hand-mixable, steel-reinforced, non-rusting epoxy putty that quickly repairs or rebuilds anything made of metal. After mixing, it forms an industrial-strength polymer compound that can be moulded into shapes or used to build up, patch and repair steel components.

- Steel reinforced epoxy putty stick.
- Set time: 5 mins, Cure colour: Dark Grey.
- Strength 900 PSI.

PRODUCT CODE  
**69 8217**

**J-B WELD PLASTICWELD PLASTIC REPAIR EPOXY PUTTY STICK 28.4G**

PlasticWeld is a hand-mixable, fast-setting epoxy putty that forms a durable bond to most major plastic types. After mixing, it forms a polymer compound that can be moulded or used to build up and repair just about anything made from plastic.

- Forms a durable bond to most plastic types.
- Can be moulded to repair most plastic applications.
- Can be sawed, drilled, carved and sanded.
- Strength 350 psi, Set time: 25 mins.
- Cure time: 3 hours, Cure colour: Off white.

PRODUCT CODE  
**69 8237**

**J-B WELD KWIKWELD PROFESSIONAL SIZE 10 OZ**

J-B Weld is The Original Cold Weld two-part epoxy system that provides strong, lasting repairs to metal and multiple surfaces. Mixed at a ratio of 1:1, it forms a permanent bond and can be shaped, tapped, filed, sanded and drilled after curing.

- Great for household repairs, automotive, plumbing, marine, crafts and more.
- Use on automotive, brick, concrete, metal and more.
- Strength: 5020 PSI.
- Set time: 4-6 hours.
- Cure time: 15-24 hours.
- Cure colour: Dark grey.

PRODUCT CODE  
**69 8271**

**J-B WELD MARINEWELD MARINE EPOXY TWIN 28.4G TUBES**

MarineWeld is a specially formulated two-part epoxy cold weld system. Provides for strong, lasting repairs for bonding different or similar surfaces, such as aluminium, metal, composites, fiberglass and others.

- Can be shaped, tapped, filed, sanded and drilled.
- Waterproof when fully cured.
- Strength: 3960 psi, Set time: 20-25 mins.
- Cure time: 15-24 hours, Cure colour: Dark grey.

PRODUCT CODE  
**69 8272**

**J-B WELD KWIKWELD STEEL REINFORCED EPOXY TWIN 28.4G TUBES**

KwikWeld is a fast setting version of the original J-B Weld two-part epoxy cold weld system that provides strong, lasting repairs to metal and multiple other surface types. Forms a permanent bond and can be shaped, tapped, filed, sanded and drilled after curing.

- Can be shaped, tapped, filed, sanded and drilled.
- Strength: 2424 psi, Set time: 6 mins.
- Cure time: 4-6 hours, Cure colour: Dark grey.

PRODUCT CODE  
**69 8276**

**J-B WELD KWIKWOOD WOOD REPAIR EPOXY PUTTY STICK**

KwikWood is a hand-mixable epoxy putty, formulated to repair and rebuild wood. After mixing, it cures to the same density as wood and becomes an integral part of the repair. Contains no solvents, will not rot, shrink, crack or pull away.

- USE ON: Rotted wood, wood and more Formulated to repair and rebuild wood.
- For use on interior or exterior applications.
- Can be tapped, filed, machined and drilled.
- Strength 900 psi, Set time: 25 mins.
- Cure time: 1 hour, Cure colour: Light tan.

PRODUCT CODE  
**69 8257 28G**  
**69 8258 57G**

**J-B WELD COLDWELD STEEL REINFORCED EPOXY TWIN 28.4G TUBES**

This cold weld two-part epoxy system that provides strong, lasting repairs to metal and multiple surfaces. Mixed at a ratio of 1:1, it forms a permanent bond and can be shaped, tapped, filed, sanded and drilled after curing.

- Can be shaped, tapped, filed, sanded and drilled.
- Cure time: 15-24 hours, Cure colour: Dark grey.
- Strength: 3960 psi, Set time: 4-6 hours.
- Great for household repairs, automotive projects, plumbing and marine applications, crafts etc.

PRODUCT CODE  
**69 8265S**

**J-B WELD STEELSTIK STEEL REINFORCE EPOXY PUTTY STICK 57G**

SteelStik is a hand-mixable, steel-reinforced, non-rusting epoxy putty that quickly repairs or rebuilds anything made of metal. After mixing, it forms an industrial-strength polymer compound that can be moulded into shapes or used to build up, patch and repair steel components.

- Repairs or rebuilds anything made of metal.
- Can be tapped, filed, machined and drilled.
- Strength 900 psi, Set time: 5 mins.
- Cure time: 1 hour, Cure colour: Dark grey.

PRODUCT CODE  
**69 8267S**

**J-B WELD WATERWELD EPOXY PUTTY STICK 57G**

WaterWeld will plug or seal leaks and patch holes and cracks in almost anything. Ideal for repairing plumbing, fuel tanks, tub and shower, drains, pool and spa, boats and potable water tanks; setup occurs even under water.

- Will plug or seal leaks and patch holes.
- Will even set under water.
- Can be tapped, filed, machined and drilled.
- Strength 900 psi, Set time: 25 mins
- Cure time: 1 hour, Cure colour: Off white.

PRODUCT CODE  
**69 8277**

**J-B WELD COLDWELD STEEL REINFORCED EPOXY TWIN 141.8G TUBES**

J-B Weld is the original cold weld two-part epoxy system that provides strong, lasting repairs to metal and multiple surfaces. Forms a permanent bond and can be shaped, tapped, filed, sanded and drilled after curing.

- Great for: household repairs, automotive, plumbing, marine, crafts and more
- Use on: automotive, brick, concrete, metal and more.

PRODUCT CODE  
**69 8281**

**J-B WELD HIGH HEAT TEMPERATURE RESISTANT EPOXY PUTTY STICK 57G**

High heat is a hand mixable epoxy putty stick specifically formulated to bond and repair materials that will be exposed to high temperatures in automotive and industrial maintenance applications. It cures to a tough, hard bond with little to no shrinkage.

- Hand-mixable temperature resistant epoxy putty.
- Formulated for high temperature applications.
- Can be tapped, filed, machined and drilled.
- Strength 800 psi, Set time: 1 hour.
- Cure time: 8 hour, Cure colour: Machine grey.

PRODUCT CODE  
**69 8297**

**QUIKSTEEL EPOXY PUTTY 56.8G**

This QuikSteel Epoxy putty withstands up to 500 degrees Fahrenheit temperatures, sets in 5 minutes, is steel hard in 15 minutes and cures in one hour. Cures under water and can be drilled, tapped, filed, sanded and painted.

- Steel reinforced epoxy putty.
- Sets in 5 minutes, is steel hard in 15 minutes and fully cured in 1 hour.
- Withstands temperatures up to 260°C.
- Thousands of uses.
- Can be drilled, tapped, filed, sanded and painted.

PRODUCT CODE  
**69 16002**

**QUIKSTEEL PLASTIC REPAIR PUTTY 56.8G**

The white reinforced epoxy putty has a large variety of uses. The product sets in 5 minutes, is steel hard in 15 minutes and fully cured in 1 hour.

- Withstands temperatures up to 260°C.
- Can be drilled, tapped, filed, sanded and painted.

PRODUCT CODE  
**69 16502**

**QUIKSTEEL PLASTIC TANK REPAIR KIT**

QuikSteel plastic repair tank repair kit gives you everything you need to repair plastic fuel tanks, radiators, water tanks, RV holding tanks. No need to remove tank or drain, can make permanent repair in minutes.

- No need to empty tank or remove from vehicle.
- Full instructions included.

PRODUCT CODE  
**69 6522K**

**QUIKSTEEL STEEL REINFORCED EPOXY PUTTY 56.8G**

QuikSteel epoxy putty withstands up to 500 degrees Fahrenheit, sets in 5 minutes, is steel hard in 15 minutes and cures in one hour. Cures under water and can be drilled, tapped, filed, sanded and painted.

- Steel reinforced epoxy putty.
- Withstands temperatures up to 260°C.
- Multiple uses.
- Available in a display carton of 12.

PRODUCT CODE  
**69 6002TRI**

**TEE-KAY HEAD CHEK COMBUSTION LEAK DETECTOR TEST UNIT**

The Tee-Kay head check combustion leak detector is designed to check combustion gases in the cooling system. It works by analysing the air within the 'air cushion' above the radiator coolant level.

- Designed to check combustion gases in the cooling system.
- Suitable for petrol, diesel and LPG engines.
- Replacement fluid available. (P/NO 69 TKFLUID500).
- Some leaks will occur only under certain conditions and the Head Check test must be made under the same conditions to detect the leak.
- Detects combustion leaks in seconds.

PRODUCT CODE  
**69 TKTEST**

**TEE-KAY HEAD CHEK TESTER FLUID 500ML**

Head Check Fluid is a sensitive, chemical indicator and care should be taken to avoid contamination.

- Replacement fluid for 69 TKTEST.
- Store Head Check fluid away from direct sunlight, and store at room temperature.
- Head Check fluid is non-toxic and non-corrosive, but is not for human consumption.

PRODUCT CODE  
**69 TKFLUID500**

# K-Seal® ONE STEP

PERMANENT COOLANT LEAK REPAIR

NO DRAINING/NO FLUSHING SEALS HOLES/CRACKS - JUST POUR AND GO

KSEAL.COM/NZ

**K-SEAL ULTIMATE HEAD GASKET REPAIR 472ML**

K-Seal Ultimate is the simple, permanent fix for blown head gaskets, cracked heads and blocks, and porous engine blocks. Our unique formula works with all water-cooled engines, there is no need to drain or flush your cooling system.

- Will fix blown head gaskets, cracked heads and blocks.
- Mixes with all types of antifreeze and coolants.
- Seals leaks up to 0.635mm in size.
- Simple to use. Just shake, pour and drive.
- A permanent repair, guaranteed for the lifetime of the engine.

PRODUCT CODE  
**69 K3501**

**K-SEAL COOLANT LEAK REPAIR 236ML**

This coolant leak repair is a one step permanent coolant leak repair system - single vehicle size. Just shake the bottle, add the fluid to your coolant system, and run your engine as normal.

- Simple to use. Just shake, pour and go
- Mixes with all antifreeze and coolants.
- No need to drain or flush the system.
- It repairs leaks and cracks in the radiator, head gasket, heater core, freeze plugs, water pump casing, cylinder heads and engine blocks.

PRODUCT CODE  
**69 K5501**

**K-SEAL COOLANT HD LEAK REPAIR 472ML**

K-Seal HD permanent coolant repair is the brand that motor stockists recommend with confidence to their customers with buses, coaches and HGVs. K-Seal HD can be used in the workshop, on the road or on site.

- A one step permanent coolant leak repair system - commercial quantity.
- Mixes with all antifreeze and coolants.
- No need to drain or flush the system.
- Simple to use. Just shake, pour and go.

PRODUCT CODE  
**69 K5516**

**GUMOUT STARTING FLUID 110Z**

Engines need the right conditions to perform properly. Gumout Starting Fluid helps engines start in all types of extreme weather, while conditioning fuel and engine parts to prevent friction and corrosion.

- For petrol engines.
- Works best in extreme cold or humid weather.
- Lubricates upper cylinders.
- Inhibits corrosion.

PRODUCT CODE  
**65 5072866**

**GUMOUT HIGH MILEAGE FUEL INJECTOR CLEANER 177ML**

Gumout High Mileage Fuel Injector Cleaner is specially formulated to remove carbon deposits from engines with over 75,000 miles for restored engine performance and fuel economy.

- Cleans port/indirect fuel injectors, intake valves and ports.
- Prevents future carbon buildup on port/indirect fuel injectors, intake valves and ports, combustion chamber.
- Best for restored performance and fuel economy in high mileage vehicles and reduced emissions.

PRODUCT CODE  
**65 510013**

**GUMOUT MULTI SYSTEM TUNE UP 473ML**

Gumout Multi-System Tune-Up is the most advanced treatment for all types of engines, from cars to lawn mowers. It cleans and conditions using premium ingredients, like P.E.A. (polyetheramine), to help maximize performance, fuel economy and engine life.

- Cleans GDI/direct and port/indirect fuel injectors, carburetors, intake valves and ports, piston tops, cylinder heads, combustion chamber and crankcase.
- Conditions gasoline, ethanol blend and diesel fuels to fight ethanol and water corrosion, fuel and oil to fight deterioration/destabilization.
- Prevents future carbon build up.
- Best for maximized performance, fuel economy, reduced emissions and fuel stabilization.

PRODUCT CODE  
**65 510011**

**GUMOUT COMPLETE FUEL SYSTEM CLEANER 177ML**

Gumout Regane Complete Fuel System Cleaner conditions fuel against corrosion to help extend the life of key engine parts, while using P.E.A. (polyetheramine) to effectively remove deposits other products can't, for maximized performance and fuel economy.

- Cleans GDI/direct and port/indirect fuel injectors, intake valves and ports, piston tops, cylinder heads and combustion chambers.
- Conditions fuel to fight ethanol and water corrosion.
- Prevents future carbon buildup.
- Best for maximized performance and fuel economy in one fill up.

PRODUCT CODE  
**65 510014**

**GUMOUT ALL-IN-ONE DIESEL FUEL SYSTEM CLEANER 320Z**

Gum out All-In-One Diesel Complete Fuel System Cleaner is a unique all season, multi-functional, diesel fuel additive. Unlike other diesel additives that just clean injectors, this product cleans the entire diesel fuel system.

- Cleans all components of the diesel fuel system.
- Improves fuel economy and reduces emissions.
- Restores horsepower and boosts cetane.
- Prevents and fixes diesel fuel gelling.

PRODUCT CODE  
**65 510012**

**GUMOUT FUEL SYSTEM TREATMENT 60Z**

Carbon buildup across the fuel system can reduce the efficiency of engine combustion. Gumout Fuel System Treatment removes carbon deposits from engine parts to maximize engine performance and fuel economy.

- Cleans port/indirect fuel injectors, intake valves and ports.
- Conditions upper cylinder to reduce friction and wear.
- Prevents future carbon buildup on intake valves and ports.
- Best for maximized performance and fuel economy, reduced upper cylinder wear.

PRODUCT CODE  
**65 510015**

**GUMOUT ALL-IN-ONE FUEL SYSTEM CLEANER 296ML**

Engine performance is affected by everything from carbon deposits and corrosion to heat and friction. Gumout All-In-One Complete Fuel System Cleaner uses P.E.A. (polyetheramine) to effectively remove carbon deposits.

- Cleans GDI/direct and port/indirect fuel injectors, intake valves and ports, piston tops, cylinder heads and combustion chambers.
- Conditions fuel to fight ethanol and water corrosion, upper cylinder to reduce friction and wear.
- Prevents future carbon buildup.
- Best for improved performance, fuel economy and reduced emissions in one fill up.

PRODUCT CODE  
**65 510016**

**GUMOUT FUEL INJECTOR/CARBURETOR CLEANER 60Z**

Carbon buildup from combustion can clog fuel injectors and carburetors, limiting the amount of fuel that reaches the engine. Gumout Fuel Injector & Carburetor Cleaner keeps deposits from forming on these crucial parts to maintain performance and fuel economy.

- Helps save fuel.
- Prevents deposits.

PRODUCT CODE  
**65 510021**

**GUMOUT GAS TREATMENT 60Z**

Humidity and condensation can cause water to accumulate in the fuel system, corroding key engine parts. Gumout® Gas Treatment removes water from fuel to improve fuel quality and helps extend the life of engine parts.

- Improves fuel quality.

PRODUCT CODE  
**65 510018**

**GUMOUT OCTANE BOOSTER 296ML**

All engines are calibrated to run on fuel with a specific octane rating. In vehicles with knock sensors, lower octane gas can retard timing, reducing performance and fuel economy. Gumout Octane Booster raises the octane level in gas to restore proper combustion and performance.

- Boosts octane rating.
- Best for stopping knocks and pings.
- Reduces emissions.

PRODUCT CODE  
**65 510022**

**GUMOUT FUEL INJECTOR CLEANER 177ML**

When carbon deposits build up on fuel injectors, intake valves and ports, it can cause engines to hesitate, surge or lose power. Gumout Fuel Injector Cleaner removes carbon deposits from these key engine parts to maximize engine performance and fuel economy.

- Cleans port/indirect fuel injectors, intake valves and ports.
- Prevents future carbon buildup on port/indirect fuel injectors, intake valves and ports.
- Best for maximized performance, fuel economy and reduced emissions.

PRODUCT CODE  
**65 510019**

**GUMOUT HIGH MILEAGE FUEL SYSTEM CLEANER 177ML**

Engines with over 75,000 miles can suffer from extensive carbon deposits and excess friction. Gumout Regane High Mileage Fuel System Cleaner reduces friction in the upper cylinder to improve fuel economy.

- Cleans GDI/direct and port/indirect fuel injectors, intake valves and ports, piston tops, cylinder heads and combustion chambers.
- Conditions fuel to fight ethanol and water corrosion, upper cylinder to reduce friction and wear.
- Prevents future carbon buildup.
- Best for restored performance, fuel economy in high mileage vehicles and reduced emissions in just one fill-up.

PRODUCT CODE  
**65 510023**

**GUMOUT ALL-IN-ONE FUEL SYSTEM CLEANER/ETHANOL TREATMENT 12OZ**

Engine performance is affected by everything from carbon deposits and corrosion to heat and friction. Gumout All-In-One Complete Fuel System Cleaner uses P.E.A. (polyetheramine) to effectively remove carbon deposits other products can't for improved performance across the fuel system.

- Improves fuel economy.
- Fights rust & corrosion.
- Reduces friction and wear.
- Cleans entire fuel system.

PRODUCT CODE  
**65 510104**

**GUMOUT REGANE HIGH MILEAGE FUEL SYSTEM CLEANER 12OZ**

Engines with over 75,000 miles can suffer from extensive carbon deposits and excess friction. Gumout Regane High Mileage Fuel System Cleaner reduces friction in the upper cylinder to improve fuel economy and remove deposits.

- Cleans GDI/direct and port/indirect fuel injectors, intake valves and ports, piston tops, cylinder heads, combustion chamber.
- Conditions fuel to fight ethanol and water corrosion, upper cylinder to reduce friction and wear.
- Prevents future carbon build up.

PRODUCT CODE  
**65 510105**

**GUMOUT REGANE COMPLETE FUEL SYSTEM CLEANER 12OZ**

Even high-quality fuel can leave behind carbon deposits and corrosion from ethanol and water. Gumout Regane Complete Fuel System Cleaner conditions fuel against corrosion to help extend the life of key engine parts.

- Maximizes fuel economy.
- Improves horsepower.
- Cleans entire fuel system.

PRODUCT CODE  
**65 510106**

**GUMOUT DIESEL ALL-IN-ONE FUEL TREATMENT 296ML**

Engine performance is affected by everything from carbon deposits and corrosion to heat and friction. Gumout All-In-One Complete Fuel System Cleaner uses P.E.A. (polyetheramine) to effectively remove carbon deposits other products can't for improved performance across the fuel system.

- Improves Fuel Economy.
- Fights Rust & Corrosion.
- Reduces Frictions & Wear.
- Cleans Entire Fuel System.

PRODUCT CODE  
**65 510152INTL**

**GUMOUT REGANE PARTS CLEANER/DEGREASER 16OZ**

Over time, a vehicles engine becomes covered with gum, varnish, and dirt build-up. Gumout Regane Parts Cleaner/Degreaser cleans and degreases all unpainted metal parts, carburetors, chokes, intakes, throttle bodies, brake drums, brake rotors and calipers.

- Removes Gum, varnish and dirt build-up that can cause hard starting, rough idling, stalling, high emissions, and loss of power.
- Leaves brakes clean for smoother, fast and more dependable braking performance.
- Quickly cleans all unpainted metal surfaces.
- Fast drying.
- Contains no CFC's or chlorinated solvents.

PRODUCT CODE  
**65 540001**

**GUMOUT REGANE DIRECT INJECTION INTAKE VALVE & PORT CLEANER 11OZ**

Gasoline Direct Injection (GDI) systems have unique carbon build-up issues on intake valves and ports. The professional strength formula ensures valves and ports in GDI/direct Injection and standard injection systems are cleaned.

- Remove Deposits from GDI intake valves.
- Quickly restores lost performance.

PRODUCT CODE  
**65 540023**

**GUMOUT JET SPRAY CARBURETOR/CHOKE & PARTS CLEANER 16OZ**

Overtime, carburetors and choke valves can become clogged with gum, varnish and dirt, affecting performance. Gumout® Carb/Choke & Parts Cleaner quickly removes these deposits from the inside and outside of the carburetor to improve engine performance and fuel economy.

- Helps stop hard starting & rough idling.

PRODUCT CODE  
**65 800002230**

**GUMOUT JET SPRAY CARB CHOKE CLEANER 397GR**

Overtime, carburetors and choke valves can become clogged with gum, varnish and dirt, affecting performance. Gumout Carb/Choke & Parts Cleaner quickly removes these deposits from the inside and outside of the carburetor to improve engine performance and fuel economy.

- Cleans carburetors, linkage, choke valves and unpainted metal parts.
- Best for improved performance, fuel economy and reduced emissions.

PRODUCT CODE  
**65 800002231**

**GUMOUT JET SPRAY CARB CHOKE CLEANER 170GR**

The carburetors and choke valves in small engines are especially prone to gum, varnish and dirt buildup because of less frequent use. Gumout Small Engine Carb + Choke Cleaner quickly removes these deposits from the inside and outside of the carburetor.

- Cleans carburetors, linkage and choke valves.
- Best for improved performance, fuel economy and reduced emissions.

PRODUCT CODE  
**65 800002241**

**SLICK 50 SUPERCHARGED SYNTHETIC ENGINE TREATMENT**

Slick 50, inventors of the engine treatment introduce Slick 50 Supercharged Synthetic Engine Treatment. Now in a pour and drive formula, Slick 50's Supercharged technology fights performance robbing friction 18% better than the leading synthetic motor oil alone.

- Protects against power robbing friction, heat and wear.
- Enhances oil durability.
- Cleans and prevents sludge.
- Fights ethanol water damage.

PRODUCT CODE  
**65 750001**

**SLICK 50 RECHARGED HIGH MILEAGE ENGINE TREATMENT**

Slick 50 Recharged High Mileage Engine Treatment was developed for vehicles that suffer from lost performance due to friction & wear, oil consumption & leaks, smoking, and sludge build-up. It is formulated to restore the performance of your high mileage vehicle.

- Protects against power robbing friction, heat and wear.
- Revitalizes seals to help stop oil leaks.
- Cleans and prevents sludge.
- Enhances emission system durability.

PRODUCT CODE  
**65 750002**

**DRI LUBE HANDY STICK**

Dri Lube is a petroleum based dry lubricant in a handy stick form. The stick with 1000 uses. Simply rub it on. It lubricates, stops squeaks, prevents rust, loosens sticking drawers and windows plus many other uses.

- Prevents rust.
- Does not soil clothing.

PRODUCT CODE  
**67 DL**

**WILDCAT  
MEGA FLOW FILTER 77MM**

The fine mesh increases the amount of air flow, straightens the flow and stops sucking hot air from high temperature engine compartment. Gain instant horsepower with this product by improving the filtration process.

- Honeycomb steel mesh cover over foam.
- Width: 160mm.
- Height: 80mm.
- Neck: 77mm.

PRODUCT CODE  
**36 WS24577B** BLUE  
**36 WS24577R** RED

**WILDCAT  
MINI AIR FILTER**

This filter provides a high volume flow of clean and cooler free air into the engine crankcase. Improves fuel economy, and virtually helps increasing horsepower by bringing in cold dense air, instead of hot oil fumes.

- Mini oil breather filter.
- Supplied with hose clip for easy installation.
- Manufactured from advanced polyurethane.
- Can be used in extreme temperatures.
- Removes carbon particles before venting.

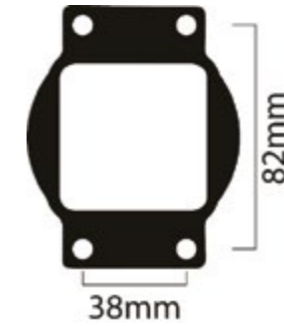

PRODUCT CODE

**RAIN-X  
GLASS WATER REPELLENT 255G**

The Rain-X Glass Water-Repellent Aerosol brings you all of the performance you have come to expect and love from the original Rain-X glass treatment to an aerosol version to make the application process faster and easier.

- Easier and faster to apply Rain-X water-beading magic: Simply spray on and wipe off.
- Instant activation. No hazing and buffing required!
- Works even on wet windshields.
- Dramatically improves wet weather driving visibility.
- Repels rain and reduces the adhesion of sleet and snow.

PRODUCT CODE  
**64 630167**

**RAIN-X  
GLASS WATER REPELLENT 340G**

Rain-X Glass Water Repellent dramatically improves all-weather visibility, safety and driving comfort. Perfect for use on all glass conditions, wet or dry. The new easy-to-use aerosol spray can makes prepping your car's glass and windshield a whole lot faster.

- Easier and faster to apply Rain-X water-beading magic: Simply spray on and wipe off.
- Instant activation. No hazing and buffing required!
- Works even on wet windshields.
- Dramatically improves wet weather driving visibility.
- Repels rain and reduces the adhesion of sleet and snow.

PRODUCT CODE  
**64 630168**

**RAIN-X  
WATER REPELLENT**

Drive safer in wet weather conditions with Rain-X's Glass Water Repellent. It dramatically improves your visibility while driving in rain, sleet and snow. Simply apply the treatment to exterior glass and watch the raindrops fly off your windshield while driving.

- Improve all-weather visibility, safety and driving comfort.
- Helps easily remove frost, ice, salt, mud and bugs.

PRODUCT CODE  
**64 80002245 103ML**  
**64 80002250 473ML TRIGGER BOTTLE**

**RAIN-X  
PLASTIC RAIN REPELLENT 355ML**

Watch water bead up and roll away on motorcycle windscreens, goggles, visors and boat windshields for improved visibility as this product helps in enhancing visibility in rainy conditions. Applies water beading technology to dramatically enhance visibility.

- Specifically formulated for plastic surfaces.
- Easily applied, durable coating.
- Great for boats, motorbike helmets and goggles.
- Clean and dry surfaces before treating. Spray directly onto plastic surfaces or onto a clean, dry cloth. Wipe using a firm, circular and overlapping motion. Wipe off and buff with a clean, dry cloth.

PRODUCT CODE  
**64 620036**

**RAIN-X  
ANTI-FOG 103ML**

Just spray on the windshield or apply to a clean towel, spread, let it haze and wipe for a fog free glass. Use on the inside of your vehicles windows, as well as on helmet visors, sun control films, mirrors etc.

- Removes smoke residue.
- For use on automotive and marine interior glass.
- Also great for bathroom mirrors.

PRODUCT CODE  
**64 BCAF21112**

**RAIN-X  
2-IN-1 GLASS CLEANER  
WITH RAIN REPELLENT 680ML**

Rain-X glass cleaner applies water beading technology to enhance your driving visibility in one simple step. Helps prevent and remove sleet, snow, ice, bugs, and road spray from sticking to glass. Repels rain by causing water to bead up and roll away.

- Streak free glass cleaner with rain repellent.
- Improves wet weather driving visibility.
- Easy to use. Just spray on and wipe away.

PRODUCT CODE  
**64 5071268**

**RAIN-X GLASS CLEANER TRIGGER 680ML**

This glass cleaner delivers automotive strength cleaning for glass and mirrors leaving a streak-free, clean shine. The concentrated formula quickly and easily cuts through dirt, bug residue, tree sap and road grime on exterior glass. Use the formula on interior glass to remove smoke film or protectant over spray. It is safe for all permanently tinted windows.

- Easy to use. Just spray on and wipe away.
- Use on interior and exterior glass.

PRODUCT CODE  
**64 630018**

**RAIN-X AUTOMOTIVE GLASS CLEANER 539G**

Rain X Glass Cleaner delivers automotive strength cleaning for glass and mirrors leaving a streak-free, clean shine! The concentrated formula quickly and easily cuts through dirt, bug residue, tree sap and road grime on exterior glass.

- Part of the family of #1 glass cleaners.
- Cleans to a streak-free shine by cutting through road-trip bug residue, dirt and grime while being safe for tinted windows.
- Delivers automotive strength glass cleaning.
- Outperforms leading glass cleaners at removing tough bug residue.
- Formulated to be safe for OEM tinted windows.

PRODUCT CODE  
**64 630175**

**RAIN-X GLASS TREATMENT WIPES PK25**

Rain-X 2-in-1 Glass Cleaner + Rain Repellent improves wet weather driving visibility and is easy to use! The Glass Cleaner applies water beading technology to enhance your driving visibility in one simple step.

- 2-in-1 formula cleans and repels rain.
- Applies water beading technology to enhance driving visibility.
- Fast and easy to use - just spray on and wipe away with no buffing required.
- Helps prevent and remove sleet, snow, ice, bugs and road spray from sticking to glass.
- Cleans automotive glass streak-free.

PRODUCT CODE  
**64 630022**

**RAIN-X HEADLIGHT RESTORER 148ML**

Over a period of time, plastic headlights become oxidized rendering them hazy and yellow. This causes headlights to shine less brightly, which is dangerous for the driver and others on the road. Save money by restoring headlights instead of replacing them.

- Helps restore clear plastic by removing haze.
- Improves visibility with clearer headlight lenses.

PRODUCT CODE  
**64 800001810**

**RAIN-X WASHER FLUID ADDITIVE 500ML**

Simply add Rain-X washer fluid additive to water or any windshield washer fluid and apply. Enhances driver visibility, safety and comfort.

- Improves windshield cleaning.
- Rain drops bead up and are blown away.

PRODUCT CODE  
**64 RX11806D**

**RAIN-X SPOT FREE CAR WASH 1.42L**

A specially formulated car wash formula that leaves a spot free shine without the need of hand drying. This car wash contains a unique blend of rinsing polymers, causing water to sheet off the vehicle for fast air drying.

- Eliminates the drying step, saving time.
- Spot-free formula sheens water off vehicle.
- Deep cleaning, high foam soap cuts through dirt.

PRODUCT CODE  
**64 620034**

**RAIN-X X-TREME CLEAN GLASS SCRUB 355ML**

This glass cleaner removes harsh build-up from windshields and headlights to deliver ultimate driving visibility! The formula renews glass and plastic quickly and easily removing dirt, bugs, and road grime for an ultimate, streak-free clean.

- Removes haze and discoloration from windshields and headlights.
- Glass cleaner gently strips away heavy residue.
- Improves driving visibility and wiper performance.

PRODUCT CODE  
**64 5080217**

**RAIN-X WINDSHIELD REPAIR KIT**

Rain-X Windshield Repair Kit helps you minimize the appearance and stop the spread of chips and cracks in your windshield. It removes air from the break, fills it with durable resin and makes it even stronger than before.

- For best results, repairs should be made as soon as possible after the damage occurs and before the break is contaminated by dirt or water.
- The kit works best on round damage not more than one inch in diameter, and cracks not longer than 12 inches.
- Repairs all types of laminated windshields.
- Easy to use, multiple-use kit.
- Super strong, durable resin fills the cracks.

PRODUCT CODE  
**64 600001**

**RAIN-X HEADLIGHT RESTORATION KIT**

Over time, headlight lenses become oxidized rendering them hazy and yellow. This causes headlights to shine less brightly, which is dangerous for the driver and others on the road. The Rain-X headlight restoration kit provides a deep clean to yellowed, hazed headlights.

- Helps restore clear plastic by removing haze and discoloration.
- Improves visibility with clearer headlight lenses.
- Multi-step kit provides a deeper cleaning process than single step products.
- Save money by restoring headlights instead of replacing them.

PRODUCT CODE  
**64 800001809**

**RAIN-X CERAMI-X DETAILER 650ML**

Rain-X Cerami-X Detailer Premium HydroShield Polymer Blend formula provides superior water repellence, UV protection, and long-lasting shine & protection for exterior painted surfaces, trim & chrome. It's non-abrasive formula that gives superior glossy shine and colour intensity.

- No streaking formula.
- Superior water repellency and UV protection.
- Premium hydroshield polymer blend formula.

PRODUCT CODE  
**64 620161**

**RAIN-X SHOWER DOOR EXTREME CLEAN 354ML**

Rain-X Shower Door X-treme Clean removes harsh build-up on glass shower doors to deliver the ultimate in sparkling clean. This unique product, specially formulated for use on glass shower doors, is ideal for removing soap scum, dirt etc.

- Provides an extreme clean for glass shower doors.
- Leaves a sparkling finish.
- Ideal for use before Rain-x Water Repellent.

PRODUCT CODE  
**64 630035**

**RAIN-X SHOWER DOOR REPELLENT 473ML**

Rain-X Glass Water Repellent uses advanced technology that causes water to bead and slide off on glass surfaces. Regular use helps prevent hard water stains, soap scum and grime build-up on your glass shower door - keeping it looking clean.

- Helps prevent soap scum, hard water deposit and grime build up on glass shower doors.
- Easy to apply.
- Durable long lasting coating.

**DIRTY STEVE  
RADICAL RUST PROTECTOR**

A lanolin based lubrication for use on external metallic surfaces including vehicles, heavy machinery, trailers.

- Spray on multi-purpose lubrication.
- Machinery component protection.
- Long life coating application for storage.
- Industrial lubricant.
- Corrosion prevention.
- Spray on anti-seize.

PRODUCT CODE  
**62 DS1020**

**DIRTY STEVE  
VINYL REVITALISER**

Revitalise all vinyl surfaces with Dirty Steve's 'Vinyl Revitaliser'. Suitable for use on exterior plastic, rubber and vinyl, this formula is engineered to prevent UV damage and rejuvenate surfaces.

- Revives and protects exterior vinyl and plastics.
- Protection for vinyl roofs, ute tonneaus, car bras, bimini tops, black plastic trim, motor bike seats, boat seats and rubber mats.
- Will not create premature aging, cracking, greying, chalking or fissures.
- Leaves a new looking, mid sheen finish.
- 100% free of oil and water based silicones as well.
- pH neutral, safe for long term use, including stitching.
- Great for renewing engine bay plastics and rubber hoses.
- Stops vinyl UV yellowing and excessively fast ageing.
- Enriches and renews older vinyl, plastic and rubber.

PRODUCT CODE  
**62 DS1030**

**DIRTY STEVE  
BANANA FOAMING WASH  
+ CERAMIC INFUSION**

Designed to lift and remove dirt, salt, and other contaminants from external surfaces with little effort, Dirty Steve Banana Foaming Wash is engineered specifically for use on marine vessels, for removal of salt and corrosion prevention & general maintenance.

- Ceramic infused formula for extra protection.
- Streak free, no residue and cleans without stripping wax.
- Compatible with Dirty Steve foaming applicator gun.
- A pleasant banana scent.
- Features safe PH levels of 7.5 - 8.5.
- Contains bio-degradable surfactants.

PRODUCT CODE  
**62 DS1010**

**DIRTY STEVE  
FOAMING APPLICATOR GUN**

The Foaming Applicator Gun is a quick and easy way to get a deep clean of your valued possessions from the comfort of your home with a standard garden hose access. Ideal for exterior maintenance cleaning of your automotive or marine vehicles.

- Easy connection to standard garden hoses.
- Ideal for foaming wash, foaming degreaser & salt eliminator application.
- Adjustable spray intensity.
- Foaming barrel nozzle.
- Ideal for general maintenance clean of cars, boats, dirt bikes and more.

PRODUCT CODE  
**62 DS1001**

**DIRTY STEVE  
STRAWBERRY FOAMING DEGREASER**

Dirty Steve Strawberry Foaming Degreaser is engineered specifically to assist in removing built up oil, grease & tough grime including chain lube residue, waterproof grease & other stubborn contaminants from external surfaces.

- Assists in removing oil, grease & grime.
- Works on tough grime including chain lube residue, waterproof grease & other stubborn contaminants.
- Apply directly to dry surfaces, rinse within 30 seconds.

**BLACK MAGIC  
TYRE WET  
GEL 473ML**

Providing the best shine out of all Black Magic Tyre Wet products, this gel utilizes an advanced silicone formula to last longer and shine brighter than other products on the market.

- Long-lasting intensity. Weather and rinse-resistant formula keeps your tyres looking black and glossy for weeks, not days.
- Self-healing formula automatically fills in small scuffs and maintains a smooth, black shine.
- The thick, clinging Black Magic formula adheres to the tyres to produce minimal sling.
- Clear formula leaves behind no white powdery residue - just pure wet shine.

PRODUCT CODE  
**67 5072647**

**BLACK MAGIC  
TYRE WET  
AEROSOL FOAM 510GR**

Black Magic Tyre Wet Foam cleans, shines and protects in just one step. Simply spray and walk away! Specially formulated thick foam clings to the tyre to dissolve and release dirt, road grime and mud.

- Long-lasting intensity. Weather and rinse-resistant formula keeps your tyres looking black and glossy for weeks, not days.
- Clear formula leaves behind no white powdery residue - just pure wet shine.
- The thick, clinging Black Magic formula adheres to the tyres to produce minimal sling.

- Provides a dark, rich shine with a long lasting shine.
- No harsh chemical smells.

PRODUCT CODE  
**67 120164**

**MICHELIN  
TYRE SHINE TRIGGER SPRAY 650ML**

The Michelin Tyre Wheel Shine has a sophisticated nozzle equipped with a pre-compression trigger that dispenses liquid efficiently at a high velocity. This single bottle of 650ml can dress up to 40 tyres when used optimally.

- The sophisticated nozzle equips a pre-compression trigger that dispenses liquid efficiently at a high-velocity.
- Can dress up to 40 tyres. Wash and dry tyres prior to application. Apply by spraying liquid onto a sponge or cloth and wipe it around the tyre wall.
- Formulated based on a silicone emulsion. It is anti-static and reduces the build-up of static charge on the surface.
- Adds a long-lasting finish and renders a new look and sheen to the tyres. Its no-fling formula prevents the liquid from flinging over the fenders and body panels.
- This tyre shine bottle contains 650ml.

PRODUCT CODE  
**67 31371**

**MICHELIN

## DRIVING LIGHTS

### 12/24V 9IN 150W 15000 LUMENS SINGLE LED DRIVING LIGHT

**Code: BR9032**

- Equipped with 30 high-output Osram LEDs.
- Two lights produce a beam throw of up to 921 metres at 1 lux.
- High output 5W Osram LEDs produce a crisp white light.
- Dimensions at 220mm (W), 240mm (H) and 120mm (D).
- In the box: BR9032 9" Inch BRG LED Driving Light x1, Big Red Gear Clear Cover, Stainless Steel Bolts, Nuts and Washers, Rubber Mounting Pad, Distribution Plate and 2 Position DT lead.

### 12/24V 7IN 90W 9000 LUMENS SINGLE LED DRIVING LIGHT

**Code: BR9022**

- Equipped with 18x high-output Osram LEDs.
- Two lights produce a throw of up to 702 metres at 1 lux.
- High output 5W Osram LEDs produce a crisp white light.
- Dimensions at 178mm (W), 194mm (H) and 108mm (D).
- In the box: BR9022 7" Inch BRG LED Driving Light x1, Big Red Gear Clear Cover, Stainless Steel Bolts, Nuts and Washers, Rubber Mounting Pad, Distribution Plate and 2 Position DT lead.

### 12/24V 5IN 45W 4500 LUMENS SINGLE LED DRIVING LIGHT

**Code: BR9012**

- Equipped with 9x high-output Osram LEDs.
- Two lights produce volumes of light with a spot beam of up to 507 metres at 1 lux.
- High output 5W Osram LEDs produce a crisp white light.
- Dimensions at 126mm (W), 143mm (H) and 100mm (D).
- In the box: BR9012 5" Inch BRG LED Driving Light x1, Big Red Gear Clear Cover, Stainless Steel Bolts, Nuts and Washers, Rubber Mounting Pad, Distribution Plate and 2 Position DT lead.

- High output 90W Osram LEDs produce a crisp, white light and unparalleled performance.
- Combination beam reflector for distance and spread of light. 1 lux at 656 metres.

**12/24V 22IN 6000 LUMENS DOUBLE ROW LED LIGHT BAR**  
Code: BR9222

- High output 60W Osram LEDs produce a crisp, white light and unparalleled performance.
- Spot beam reflector for distance and spread of light. 1 lux at 350 metres.

**12/24V 20IN 4500 LUMENS LED LIGHT BAR**  
Code: BR9122

- High output 45W Osram LEDs produce a crisp, white light and unparalleled performance.
- Combination beam reflector for distance and spread of light. 1 lux at 410 metres.

**12/24V 10IN 1800 LUMENS LED LIGHT BAR**  
Code: BR9112

- High output 18W Osram LEDs produce a crisp, white light and unparalleled performance.
- Spot beam reflector for distance and spread of light. 1 lux at 350 metres.

## KEY FEATURES

### DRIVING LIGHTS

5700°K colour temperature LEDs.

Each lamp includes a clear see-through polycarbonate cover for protection from stone spray and debris.

Tested and complied to ECE R10 for Electro Magnetic Compatibility (EMC).

Heavy duty stainless steel brackets. Rubber dampening system.

Fully sealed and tested to IP68. Dust and water resistant.

3mm thick virtually unbreakable, scratch resistance polycarbonate lens.

Multi-voltage input suitable for both 12 and 24V vehicles.

### LIGHT BARS

5700°K colour temperature LED's.

Low profile side mounting brackets.

Tough aluminium housing and polycarbonate lens.

Tested and complied to ECE R10 for Electro Magnetic Compatibility (EMC).

Black stealth slimline design.

Fully sealed and tested to IP67.

Multi-voltage input suitable for both 12 and 24V vehicles.

Dust and water resistant.

**KT NYLON CABLE GLANDS**

Cable glands are designed to protect cable as it passes through walls, cabinets or switchboards. The cable gland tightens around the wire to act as a seal. KT nylon cable glands are supplied complete with a lock nut and are tested and certified to IP68, in accordance with AS1939 - 1990. KT cable glands are suitable for indoor or outdoor use and suit a large cable range from 3mm - 44mm outside diameter.

**KT  
125A, 100V  
IN-LINE POWER METER**

Designed, design registered and developed by KT, the innovative In-line Power Meter is a simple way to monitor the Volts, Amps, Watts and battery percentage of your devices by a simple touch of the LCD screen. This unit is suitable for use with 12V, 24V & 48V applications and used to monitor the output of your solar panels in camping & marine environments.

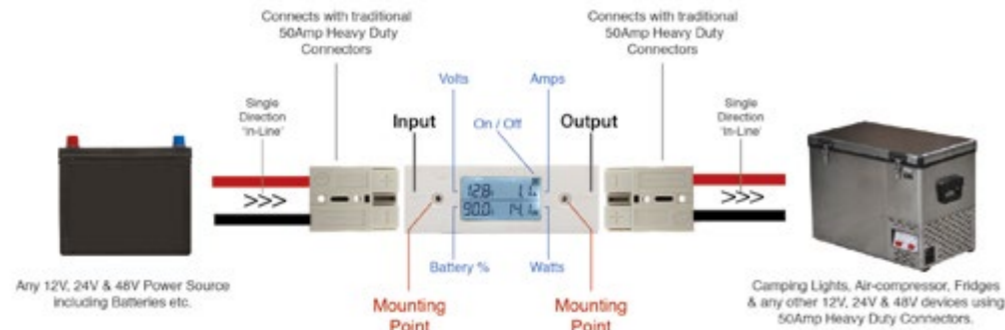

The 'input' (also known as source) can be a battery, solar panel, generator or any other device that you would like to draw power from. The 'output' refers to the device that is drawing power from the source (also known as load). This can also be a battery.

- FEATURES**
- 12V / 24V / 48V
  - View Volts, Amps, Watts and Battery Percentage
  - Suitable for use with 12V / 24V / 48V devices
  - LCD touch display
  - Display turns off automatically after 30 seconds
  - Mounts easily to surfaces with 2 screws
  - Unique input and output designed to suit 50 Amp connectors
  - One piece, tidy molded housing
  - No messy cables
  - Back-lit display provides clear, visible readings day & night
  - Housing made of durable polycarbonate
  - 'In-line' reading from input to output only

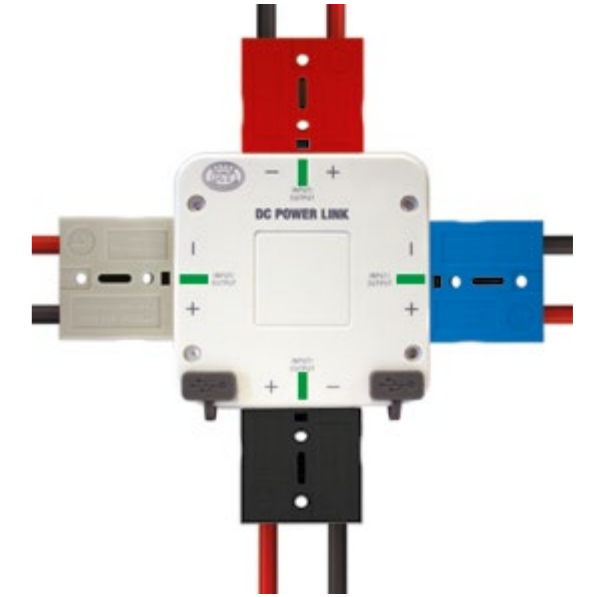

**AN ORIGINAL KT INNOVATION**

**Battery to Device Readings ( 12V / 24V / 48V )**

One of the many possible configurations of the KT 125A, 100V In-line Power Meter and your devices.

**KT  
4 WAY DC POWER LINK  
50A, 12V - 24V**

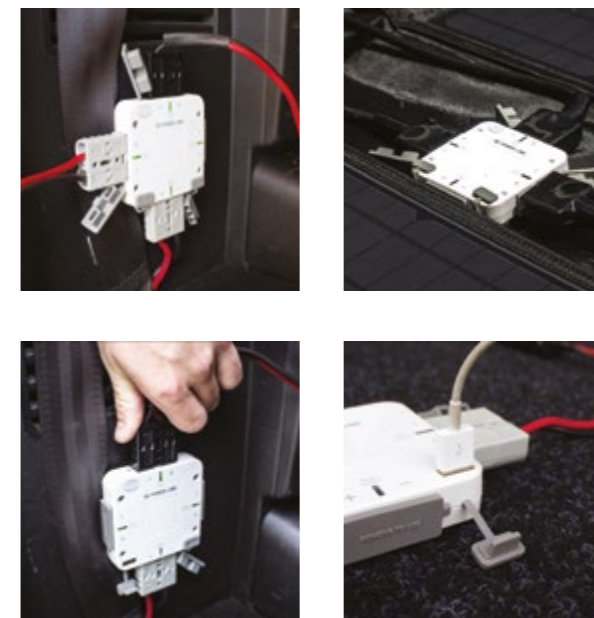

The innovative KT 50A, 12-24V, DC Power Link is a sophisticated controller with omnidirectional capabilities. The device acts as a 'power board' for your 12-24V Devices. The KT DC Power Link is essentially configured in parallel.

The unit has 4 input/output options and can support up to 3 individual inputs from a battery source/12V solar. There are many possible configurations which can be utilised for optimal use.

This unit is suitable for use with any 12V-24V DC applications and ideal for use with 12V solar, deep cycle batteries, lighting, camping fridges, air compressors, and a variety of other camping, marine, 4WD & caravanning applications.

- FEATURES**
- Suitable for 12-24V DC operations
  - LED indicator to show live circuit
  - 4 mounting points allowing easy and secure install of unit (stainless steel hardware included)
  - IP67 rated - dust proof & splash proof
  - Housing material durable UV stabilised polycarbonate
  - Connects with 50A heavy duty connectors (grey, black, red, blue)
  - Single input rated to 50A draw
  - Each output rated to 25A (50A total) at any one time
  - 2.1A and 1A USB Outputs (3.1A total)
  - Not suitable for mounting in vehicle engine bays

**AN ORIGINAL KT INNOVATION**

**NOTE**  
If using this product to connect multiple solar panels, a solar controller must be placed between the DC power link and the battery. (Only a single Solar controller should be used, even when connecting multiple solar panels to the DC Power Link).

ELECTRICAL 274

ELECTRICAL 275

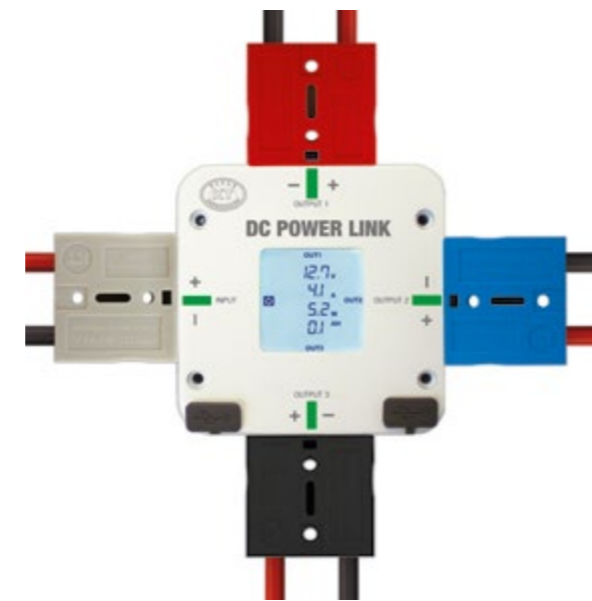

**KT**  
**4 WAY LED DC POWER LINK**  
**50A, 12V - 24V**

The DC Power Link is a purpose-built device that can connect power from one 12/24V power source to up to 3 individual devices. View Volts, Amps, Watts, battery percentage & Amp hours of connected devices via the integrated smart-touch LCD.

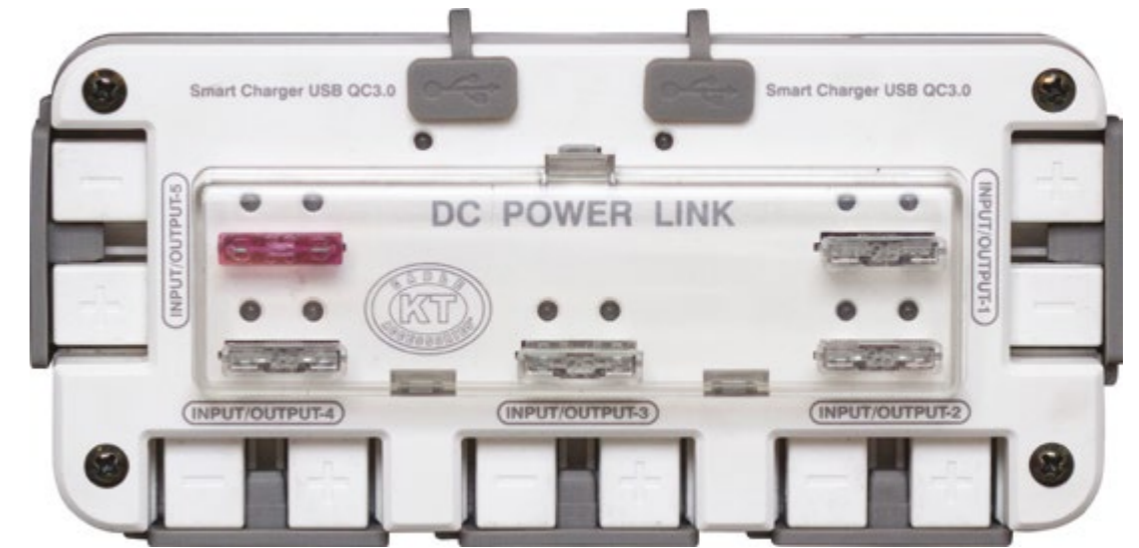

View statistics at both an individual circuit level or as a complete overview of the total load on the power source. Devices and power source are connected via 50A heavy duty connectors. The device also features USB ports for charging devices including phones or tablets.

**NOTE**  
 Not suitable for mounting in vehicle engine bays.

- FEATURES**
- 12V/24V
  - View Volts, Amps, Watts, battery percentage and Amp hours in 'real time'
  - LCD back-lit touch display
  - Cycles through each live circuit and displays accurate readings in 10 second intervals
  - LED indicator flashes to indicate which circuit details are currently being displayed on the LCD
  - The LCD turns off automatically after 30 seconds
  - Easy to identify 'input' and 'output' (also commonly referred to as 'load')
  - Dust proof & splash proof
  - DC Power Link connects with 50A heavy duty connectors (grey, red, black or blue)
  - Single inputs are rated to 50Amps
  - The 3 outputs are each rated to 25Amps (50Amps unit total)
  - 2.1A & 1A USB Outputs (3.1A max)

**AN ORIGINAL KT INNOVATION**

**KT**  
**5 WAY DC POWER LINK**  
**50A, 12V - 24V**

Designed to simplify 12V/24V connections. The module has 50A input/output options and can utilise power from 12V/24V batteries or direct input from solar panels. It features dual 5V USB outputs to power devices while the 50A outputs are ideal for use with solar, fridges, air compressors, and a variety of other camping, marine, 4WD, and caravanning applications.

**NOTE**  
 If using this product to connect multiple solar panels, a solar controller must be placed between the DC power link and the battery. (Only a single solar controller should be used, even when connecting multiple solar panels to the DC Power Link).

- FEATURES**
- Power up to 6 devices at once
  - Suitable for use with 12V/24V devices
  - Dual QC3.0 USB smart charge outlets (5V each) for efficient charging & powering USB devices
  - LED indicators denote live circuits, active circuits and blown fuses
  - All 50A connections are fuse protected
  - Dust proof and splash proof
  - Designed to connect with standard 50A connectors
  - Features 4 point secure mounting and easy clip on/off clear polycarbonate cover

**AN ORIGINAL KT INNOVATION**

DISTILLED WATER, 1.5L**

Using tap water to top off a battery can lower performance and shorten battery life due to water impurities that upset the normal battery function. Battery manufacturers recommend distilled water for better performance and longer battery life. Distilled water has salts and minerals removed. Water from faucets, lakes and wells usually has dissolved minerals and salts. These minerals and salts affect the chemical action in the battery. The battery works harder to maintain its charge and does not operate as efficiently. When the battery works harder, its internal temperature may get hotter while the battery is working. This causes more evaporation and requires more water. Distilled water ensures the correct battery chemical properties are maintained.

- 1.5L
- De-ionised water for use in batteries
- Less than one part per million total dissolved solids

PRODUCT CODE  
**KTDW1.5**

# EV CHARGERS & ACCESSORIES

Projecta's EV range is the perfect compliment to any new or old EV with cables to suit both Type 1 and Type 2. It could simply be that the EV cables have been lost, or the vehicle did not come with a certain cable or required accessory. Projecta has you covered.

ALL NEW

## FEATURES & BENEFITS

WEATHER PROOF

All Projecta chargers and cables are weather proof so charging outside is not a problem.

ERGONOMIC DESIGN

Projecta's chargers have an ergonomic design for comfortable use, with the ability to endure heavy use and caps that prevent water and dirt ingress these charging cables are ready for all conditions.

HIGH QUALITY DURABLE CABLES

High quality multiple stranded EV cables allow for super flexible leads and are still able to carry large currents. 1K10 rated to withstand the toughest conditions.

EVA STORAGE CASES

Hard wearing compact heavy duty storage case to store your cables and charger safely and securely.

## ESSENTIAL ELECTRIC VEHICLE GEAR

EVERY EV OWNER MUST HAVE:

2.4KW Emergency Charger

EVC2KW

This emergency charger is ideal if you are going on holidays and require charging when you are away.

Type 1 to Type 2 Adaptor

EVAPT1T2

This adaptor is convenient for those older Type 1 public charging stations.

5 Metre Charging Cables

EVCBT2T2

EVCBT2T2-3P

EVCBT1T2

These cables allow you to charge at public sites and come in Type 1 or Type 2 configurations.

**PROJECTA  
2.4KW EV EMERGENCY CHARGER**

Charging electric vehicles has never been easier while away, simply plug into a regular mains socket found in the home or garage.

**ERGONOMIC DESIGN**

For comfortable use, with the ability to endure heavy use and caps that prevent water and dirt ingress.

**LCD SCREEN**

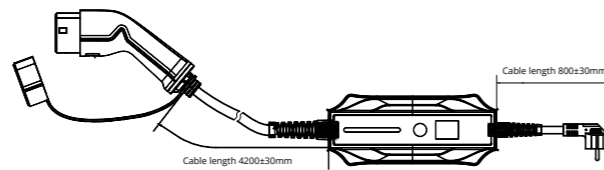

Displays charging information so you can monitor the charge and charge status.

**EVA STORAGE CASES**

Hard wearing compact heavy duty storage case to store cables and charger safely and securely.

SPECIFICATIONS	
PART NO.	EVC2KW
PHASE	1
VOLTAGE	240V
CURRENT	10A
MAX POWER	2.4kWh
OVERALL LENGTH	5m
CABLE LENGTH	4.2m
WEIGHT	2.68kg
IP RATING	IP65
IMPACT PROTECTION	IK10
WORKING TEMPERATURE	-25~45°C
WORKING HUMIDITY	5~95%

**REPLACEMENT PARTS**  
EVBS EVA CASE TO SUIT SINGLE PHASE ELECTRIC VEHICLE CHARGER

7.2 KW  
240 VOLT

NEW

EVCBT2T2 SUIT VEHICLES UP TO 7.2KW

22 KW  
400 VOLT

NEW

EVCBT2T2-3P SUIT VEHICLES UP TO 11KW / 22KW

**PROJECTA  
7.2KW & 22KW TYPE 2 EV CHARGING CABLES**

Suitable for charging Type 2 vehicles at a Type 2 charging station with single and three phase cables available.

**DURABLE DESIGN**

When connected the cable is dust proof and waterproof to IP65 rating.

**EVA STORAGE CASES**

Hard wearing compact heavy duty storage case to store cables and charger safely and securely.

**ERGONOMIC DESIGN**

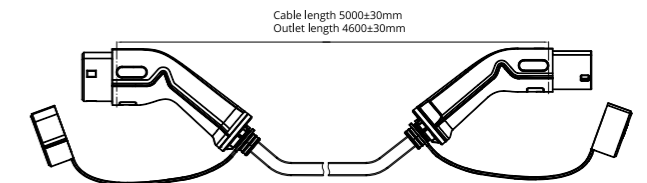

Ergonomically designed grips for easy connection to vehicle and charger.

**SHOCK PROOF**

Designed to IK10 protection. This means connectors are not going to break easily.

SPECIFICATIONS		
PART NO.	EVCBT2T2	EVCBT2T2-3P

PROJECTA

# SOLAR RANGE

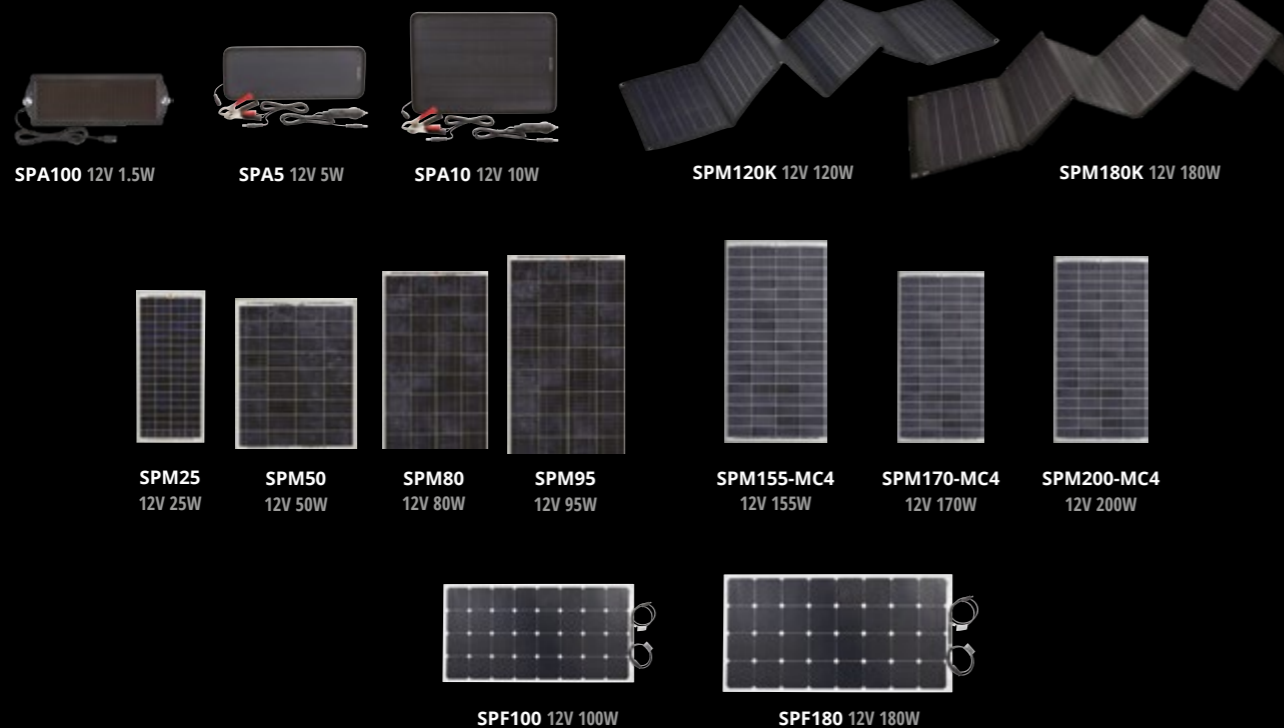

**NO FUEL. NO NOISE. NO NEED TO GO HOME.**

Projecta's extensive range of solar panels include two types of technologies, each serving a different purpose and budget. These include the amorphous panels which are more suited to maintenance style requirements, and monocrystalline panels which generate greater power more efficiently and are ideal for charging larger batteries.

SOLAR PANELS & CONTROLLERS

**PROJECTA**

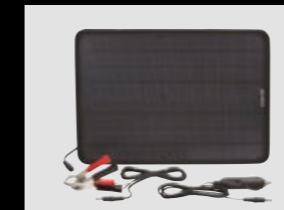

SPA100 12V 1.5W   SPA5 12V 5W   SPA10 12V 10W   SPM120K 12V 120W   SPM180K 12V 180W

SPM25 12V 25W   SPM50 12V 50W   SPM80 12V 80W   SPM95 12V 95W   SPM155-MC4 12V 155W   SPM170-MC4 12V 170W   SPM200-MC4 12V 200W

SPF100 12V 100W   SPF180 12V 180W

## FEATURES & BENEFITS

### MAINTENANCE PANELS

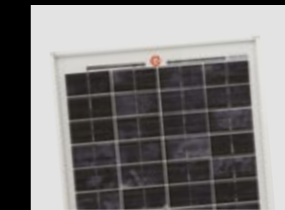

The SPA100, SPA5 & SPA10 solar panels are compact and easy to place in a vehicle to ensure the starter battery is always topped up.

### SOFT FOLDING KITS

Tough portable solar panel kits featuring a frameless design that folds up into a convenient compact bag. Includes support legs, built-in solar controller and 5m lead with battery clips.

### FIXED PANELS

Wide range of fixed panels offer power for small or large energy consuming setups.

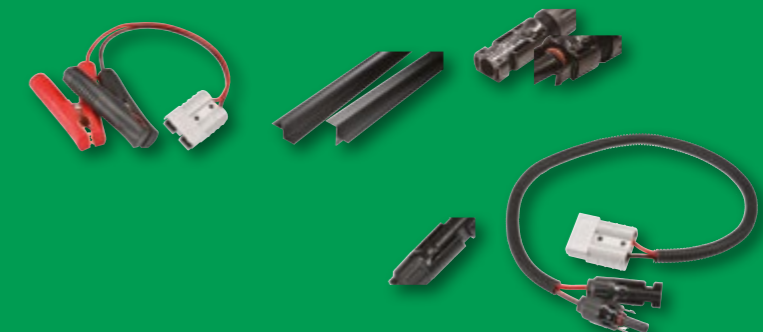

### SEMI FLEXIBLE PANELS

Utilising super efficient monocrystalline technology, these semi flexible panels are ideal for slightly curved surfaces and come with pre-applied adhesive.

## DIY SOLAR ACCESSORIES

Projecta offers a comprehensive range of solar accessories including pre-made leads, MC4 Type connectors and durable aluminium mounting rails to allow a professional and easy installation for the DIYer.

TURN TO PAGE 326 FOR THE COMPLETE RANGE.

## SELECTING THE CORRECT SIZE SOLAR PANELS

Solar panels can be utilised to extend battery run time when powering multiple accessories. A number of factors that can influence this include: the time of year, weather conditions, battery capacity and how long appliances are run. Below is a guide to help select the correct size panel.

### AVERAGE SUN HOURS

SUMMER	WINTER	ANNUAL
6.6	2.8	4.7

### TYPICAL CONSUMPTION LOAD

APPLIANCE	AMP DRAW	HOURS RUN	DAILY CONSUMPTION
1x Fluoro Light	1	5	5
L.E.D Lighting	0.2	5	1
Fridge	1	24	24
TOTAL			30

### SOLAR PANEL OUTPUT

WATTS	AMPS
20	1.25
40	2.5
60	3.8
80	5.0
120	7.5
135	8.5
160	10
180	11

## TYPICAL EXAMPLE

Below are simple workings to assist with calculating requirements. Refer to the above tables for values:

$$\text{SOLAR PANEL SIZE} = \frac{\text{CONSUMPTION} - (\text{BATTERY CAPACITY} / \text{DAYS AWAY})}{\text{SUNLIGHT HOURS}}$$

Calculated example as follows: 4.3 Amps\* =  $\frac{30A/H - (100 A/H / 10 \text{ days})}{4.7 \text{ hours}}$

\*Refer Solar Panel Output Chart above for suitable panel size.

1.5 WATT

**PROJECTA AMORPHOUS 1.5W 12V MAINTENANCE SOLAR PANEL**

Longer battery life for infrequently used vehicles. Ensures your vehicle starts even after extended periods without use.

**CONNECTION OPTIONS**  
2.7m of cable and simple connection via 12V cigarette plug or battery clips.

**L.E.D INDICATOR**  
Flashing blue L.E.D denotes charging while in-built blocking diode protects against reverse discharge.

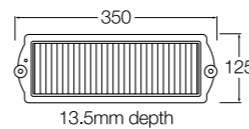

**EFFICIENT PERFORMANCE**  
Amorphous solar cells use the sun's power to maintain the battery in peak condition, even in low light (cloudy) conditions.

SOLAR PANELS

# WHY MONO VS POLY?

## WHAT ARE POLY & MONO SOLAR PANELS AND WHAT ARE THE DIFFERENCES BETWEEN THEM?

Polycrystalline, often referred to as Poly, is referring to the solar cell type. Polycrystalline cells are made from a wide array of silicone fragments melted together to form the wafers for the solar cells.

Monocrystalline, often referred to as Mono, is also referring to the solar cell type. Monocrystalline cells are made from a single-crystal silicone melted together to form into bars and cut into the wafers to form solar cells.

Monocrystalline solar panels are more efficient due to their cell construction. Due to the single-crystal silicone construction, the cells allow electrons generated by the sun's power to move more efficiently through the cells which in turn allows more power to be generated.

**SOLAR CELL TYPES**

**MONO**  
To make cells for monocrystalline panels silicone is formed into bars and cut into wafers. They are more expensive but more efficient.

**POLY**  
To make cells for polycrystalline panels fragments of silicone are melted to form the wafers. They are less expensive but less efficient.

SOLAR CONTROLLERS

# WHY MPPT OVER PWM?

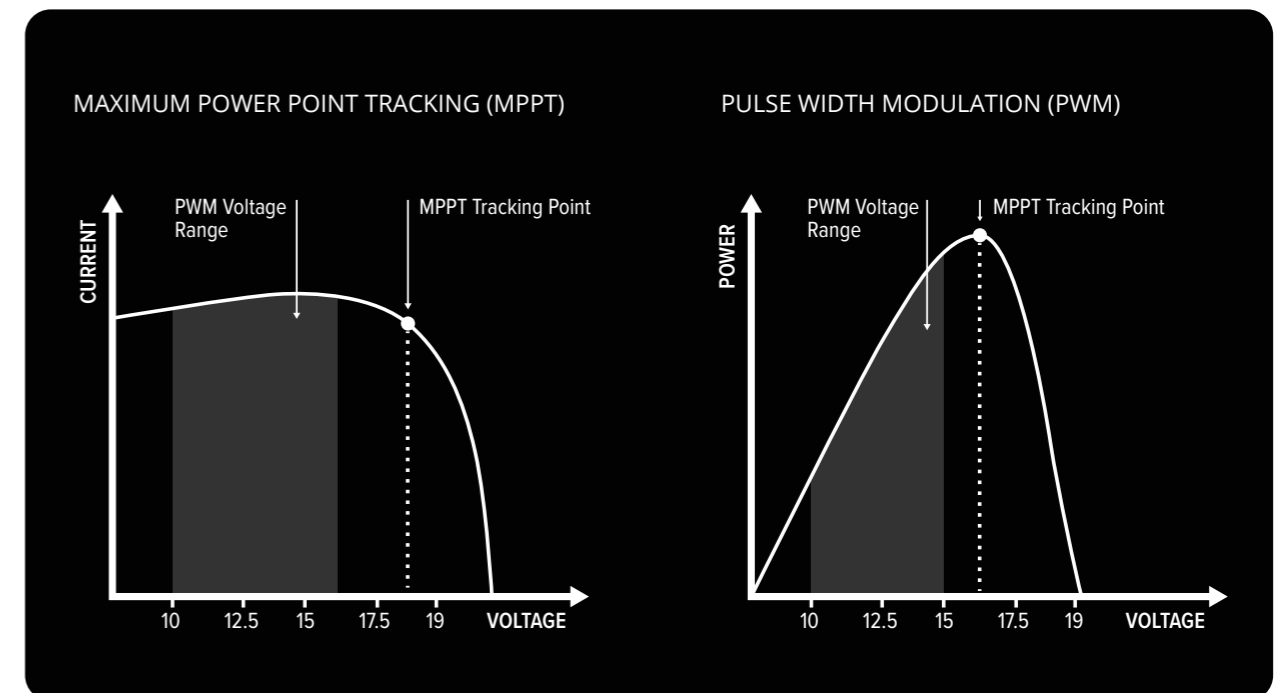

## TO UNDERSTAND WHY MPPT SOLAR CONTROLLERS OVER PWM SOLAR CONTROLLERS, WE FIRST NEED TO UNDERSTAND WHAT THE TWO CONTROL METHODS ARE.

PWM stands for Pulse Width Modulation. PWM controllers method of charging is rather basic; it behaves as a quick on/off switch to maintain a desired voltage to charge batteries from a solar input.

MPPT stands for Maximum Power Point Tracking. MPPT controllers method is more sophisticated; the controller will monitor various inputs from solar panels and it will constantly measure the voltage and amperage to find the best balance to produce the most power.

Now that we understand the difference between PWM and MPPT solar controllers, we can dive into why a MPPT solar controller is a better choice in harnessing the most power out of a solar setup.

MPPT controllers typically have a 30% charge efficiency advantage over PWM type controllers. PWM controllers are best suited to setups with solar power output greater than the charging amperage required. MPPT controllers are suited to larger panels that provide power to large appliances and batteries. The MPPT controller takes into account temperature, voltage and amperage to provide the optimal power output, additionally MPPT controllers have greater flexibility with the input voltages of panels.

PROJECTA

# SOLAR CONTROLLERS

## TAKING CHARGE OF THE SUN.

Solar panels capture the sunlight converting it to useable electric power, however without a solar controller to regulate this power it will ultimately damage batteries through excessive charge and even discharge at night. Projecta offers an extensive range of automatic solar charge controllers to suit a wide range of solar applications, all with varying amperage ratings. Each of the controllers can be left connected indefinitely to the battery keeping it fully charged, monitoring its condition and performing a process called 'float' charge to keep batteries in optimum condition, ultimately ensuring longer life.

EVERYDAY RANGE

SMART RANGE

PREMIUM RV RANGE

MPPT RANGE

## FEATURES & BENEFITS

### EVERYDAY CONTROLLERS

Simple yet intelligent solar charge controllers that utilise a smart 4 stage charging algorithm to ensure a thorough and comprehensive charge. Ideal for managing both automotive and deep cycle batteries thanks to their multi-chemistry functionality.

### SMART CONTROLLERS

Suitable for both 12 and 24 Volt systems they also offer low voltage disconnect (LVD) functionality ensuring connected batteries never deplete to damaging levels. Further to this, they offer a 'load control' function, enabling on/off control of appliances directly from the unit.

### PREMIUM RV CONTROLLERS

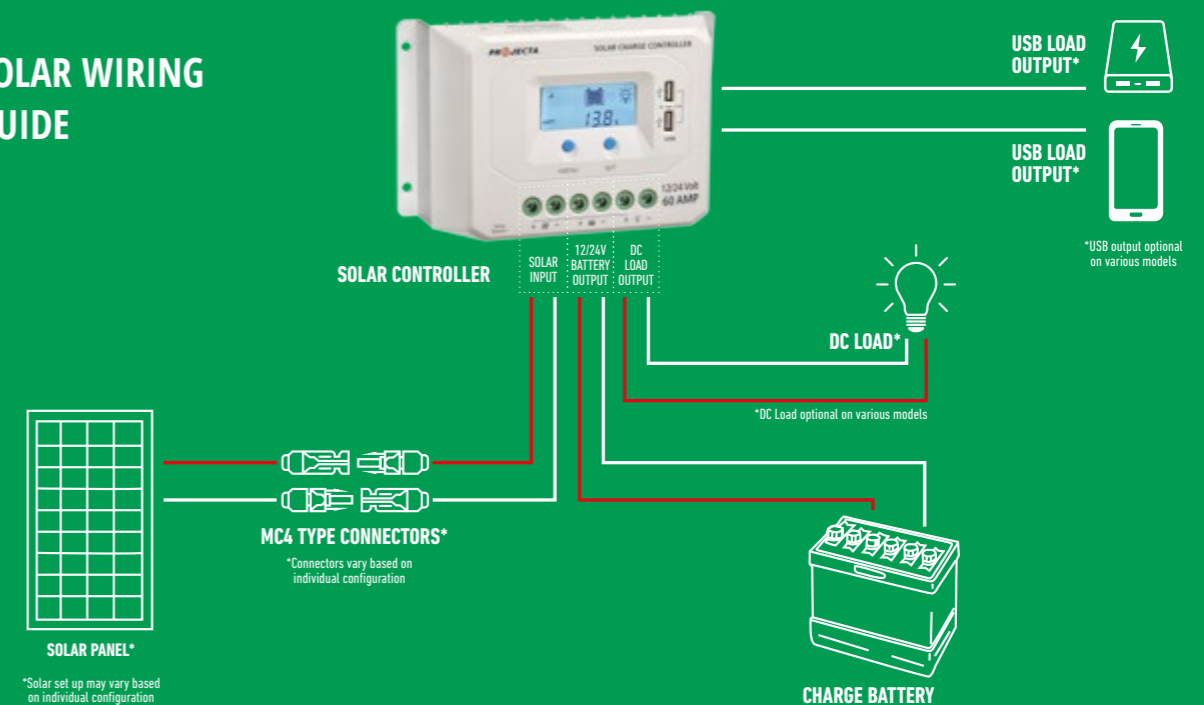

Featuring sophisticated 4 stage charging and all the features of the smart controller range, they step it up a level with the inclusion of an intelligent remote control unit that enables complete user control via total customisation of the charge settings.

### MPPT CONTROLLERS

MPPT solar controllers are ideal for RV fitment. Featuring advanced multi-chemistry charging to ensure all battery types are catered for. MPPT controllers ensure solar panels achieve their full capability via sophisticated programming in adjusting voltage & current to provide maximum output.

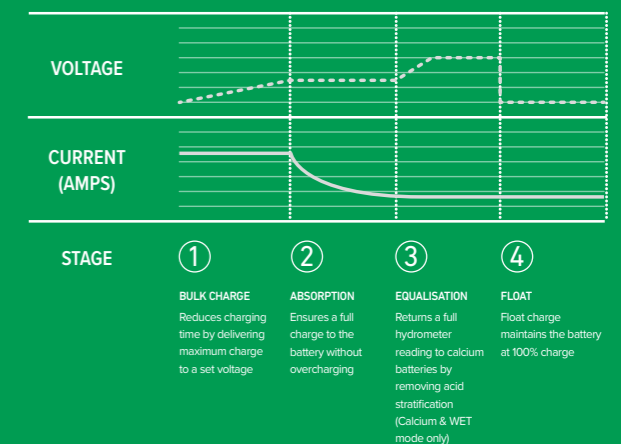

## SOLAR WIRING GUIDE

## WHY MULTI-STAGE CHARGE CONTROLLERS?

A solar panel charge controller in basic terms works no differently to maintaining batteries via a battery charger from 240 volts, the obvious advantages however are that this can be done whilst off the grid which is perfect for the avid traveller who enjoys remote locations. Perhaps one of the more important features to take note of is the multi-stage charging function on offer. All Projecta solar controllers utilise a sophisticated 4 stage charging algorithm offering unparalleled charging performance ultimately extending daily performance and overall battery life – a feature worth noting when factoring in the cost of today's expensive deep cycle batteries.

The table to the right details the four stages of the charging process.

8 AMP  
12 VOLT

**PROJECTA  
8 AMP EVERYDAY CONTROLLER  
4 STAGE AUTOMATIC SOLAR CHARGE**

Safe to leave permanently connected, these compact solar controllers feature advanced 4 stage charging making them ideal for both starting and deep cycle batteries.

**L.E.D CHARGE INDICATOR**  
Displays quick reference to charge status of the battery.

**SEALED ELECTRONICS**  
Potted circuit board and plated terminals protect controller from the elements.

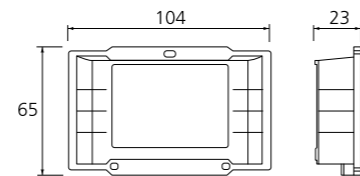

**EASE OF CONNECTION**  
Plated screw termination and quick reference label.

**MULTI-CHEMISTRY**  
Set the charging profile to suit battery chemistry type: Wet, Calcium, AGM or Gel.

**5W, 12V MONOCRYSTALLINE**  
**SINGLE CELL SOLAR PANEL**

Designed for maintenance charging (trickle-charging) of 12V lead acid batteries that power garden lighting and 12V water pumps.

- Can be used unregulated (without solar controller)
- Direct connection to batteries with 3M PV cables with positive (+) & negative (-) alligator clamps
- Dimensions (mm): 290 (H) x 160 (W) x 17 (D)
- Weight (Kg): 0.60

Power Tolerance	+3%
Maximum Power (Pmax)	5Wp
Maximum Power Voltage (Vmp)	18.0V
Maximum Power Current (Imp)	0.28A
Rated Voltage	12V
Open Circuit Voltage (Voc)	21.5V
Short Circuit Current (Isc)	0.30A
Operating Temperature	-40°C to +85°C
Product Application	Class A
Max System Voltage	1000V DC

View the performance of your solar system while you are on or off the course easily via the Smartphone Application. Monitor Volts, Amps and Watts of your system in real time.

**KT SOLAR  
160W, 36-48V ELECTRIC VEHICLE  
SOLAR CHARGING SYSTEM**

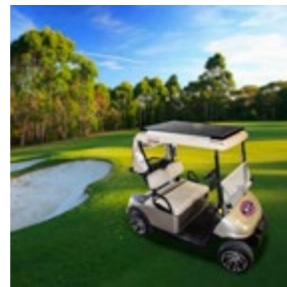

This system is ideal for carts, service vehicles & resort electric vehicles operating on 36V and 48V Systems. This DIY, easy to install system features 'EZY' rails for mounting to your electric vehicles roof.

This solar charging system both maintains and extends battery life while reducing sulphur buildup & D.O.D (depth of discharge). This kit will reduce 240V charging time & the associated costs.

- Suits cart roofs of various popular models
- System voltage: 36-48V systems
- Premium MPPT Solar Controller (IP43 & IP22 Rated) with optional "real time" Volts/Amps/Watts visible via smartphone app
- Panel Dimensions (mm) : 1280 x 800 x 35
- Panel Weight (Kg): 11.8
- Five accreditation certificates
- Individually barcoded for warranty registration

**KIT INCLUDES**

- 1 x 160W Monocrystalline Solar Panel
- 1 x MPPT Solar Charge Controller
- 1 x Automatic reset 30A circuit breaker
- 1 x Red circuit breaker cover
- 2 x 50A Heavy duty connectors & handle
- 2M x 5mm twin sheath cable
- 2 x Insulated ring terminals, 6mm yellow
- 2 x Insulated ring terminals, 8mm yellow
- 3M x 10mm corrugated split loom tubing
- 2 x 20mm nylon cable glands
- 25 x Black cable ties
- 2 x EZY mounting rails, 800mm length

**WARRANTY**

- 10 Year Warranty / 25 year efficiency on solar panel
- 5 year warranty on MPPT solar controller
- 3 Year warranty on complete kit.

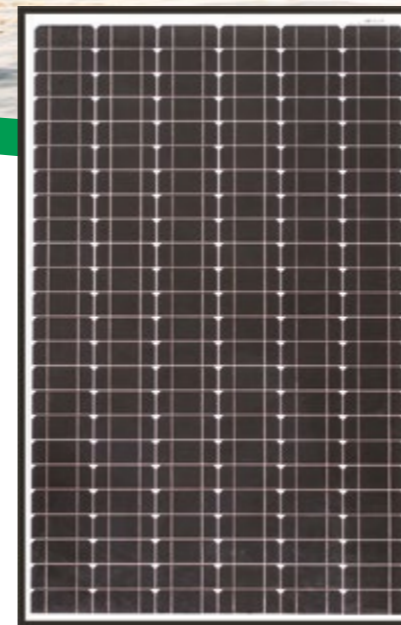

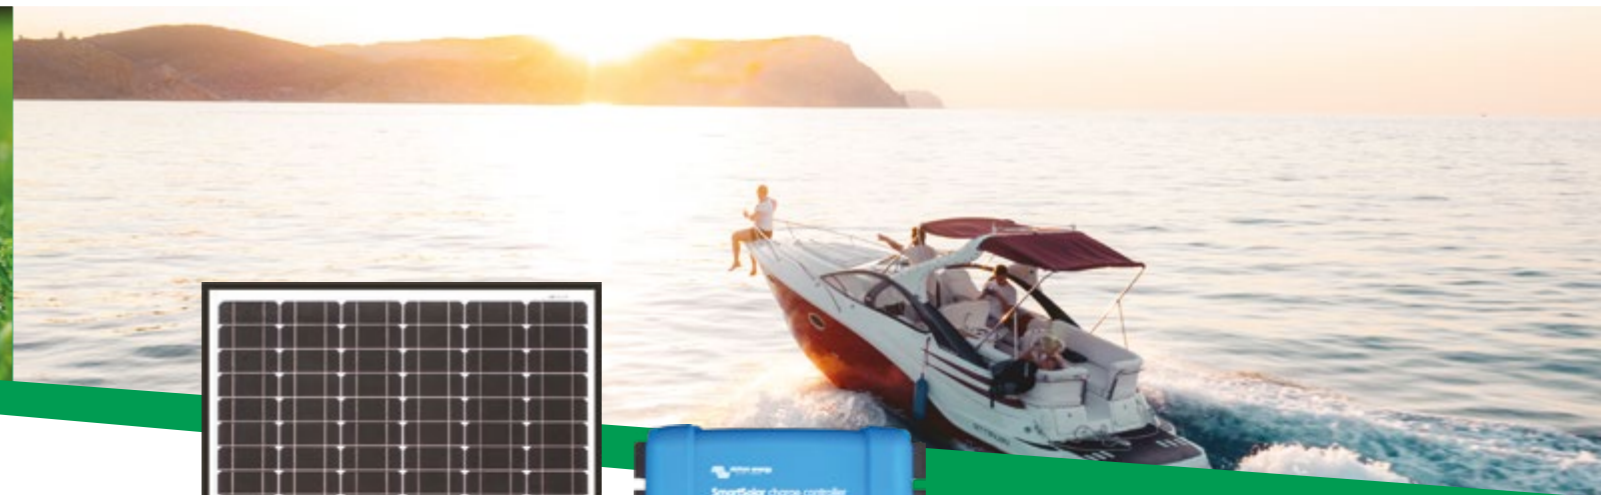

**RECOMMENDED APPLICATIONS**

**KT SOLAR  
160W, 24-48V TRUCK, BUS & YACHT  
SOLAR CHARGING SYSTEM**

Designed & Innovated by KT Solar. This system is designed to suit prime mover truck cabin roofs, caravans, small commercial buses including Toyota Coasters and marine vessels.

This system works in conjunction with the Victron 100-20 MPPT Solar Controller. The Solar Panel is a higher nominal voltage than 24V, however the Victron controller automatically steps down to provide the correct voltage and current.

- Operates on 24-48V systems
- Premium MPPT 100 - 20 Victron solar controller
- Maintains and extends battery life & reduces sulphur buildup D.O.D (depth of discharge)
- Reduces 240 volt charging time & associated cost
- Five accreditation certificates
- Individually barcoded for warranty registration
- Panel Dimensions (mm): 1280 x 800 x 35
- Panel Weight (Kg): 11.8

**KIT INCLUDES**

- Premium quality MPPT Solar Controller (IP43 & IP22 Rated)
- 144 cell 160W monocrystalline solar panel
- 2 x EZY mounting rails, 800mm length

*Ideal for large boats & yachts.*

*Trickle-charge your batteries whilst offshore.*

**WARRANTY**

- 10 Year Warranty / 25 year efficiency on solar panel
- 5 year warranty on MPPT solar controller
- 3 Year warranty on complete kit.

**KT SOLAR  
200W, 12V MONOCRYSTALLINE  
PORTABLE SOLAR BLANKET KIT**

The 200W, 12V Portable Solar Blanket is a compact, light-weight solution to your solar needs. Whether camping, caravanning, or four-wheel driving off-road, KT Solar blankets are the perfect solution for maintaining batteries to power portable fridges, camping lights, air-compressors and other 12V equipment.

The solar blanket is suitable for maintenance charging of gel, wet, AGM, calcium & lithium batteries and includes a 20Amp PWM solar charge controller.

- One-piece easy-fold solar blanket with 12 solar cells (4 x horizontal, 3 x vertical)
- Dimensions Folded (mm): 400 x 400 x 135
- Dimensions Unfolded (mm): 1526 x 1140 x 5
- Weight (Kg): 7.53

**WARRANTY**  
2 Year warranty on complete kit.

**KT SOLAR  
300W, 12V MONOCRYSTALLINE  
PORTABLE SOLAR BLANKET KIT**

The 300W, 12V Portable Solar Blanket is an industry first innovation by KT Solar, putting out a powerful 300 Watts!

Ideal for off-road adventures, camping & caravanning trips, the 300W solar blanket comes complete with power leads and a 20Amp PWM solar charge controller which is capable of charging gel, wet, AGM, calcium & lithium batteries. Folding down to a convenient briefcase style carry bag, the 300W solar blanket is the ultimate space-saving solar solution to keep your 12V batteries full of charge.

- One-piece easy-fold blanket with 15 solar cells (5 x horizontal, 3 x vertical)
- Dimensions Folded (mm): 390 x 380 x 140
- Dimensions Unfolded (mm): 1526 x 1140 x 5
- Weight (Kg): 8.85

**PORTABLE FOLDING SOLAR BLANKET**

The 200W, 12V Portable Folding Solar Blanket is ideal for camping, 4WD & outdoor applications, perfect for charging 12V batteries that power camping.

- 8 x 25W monocrystalline cells in series
- Flexible charging capabilities (compatible with Lithium, GEL, WET, AGM & Calcium batteries)
- Comes with a 20A, 12V PWM solar charge controller that displays battery voltage, amps, amp hours & error codes
- Comes with a 500mm length 50A extension to positive/negative battery clamp lead & a 4.8m length 50A heavy duty connector lead
- Easy folding for storage convenience
- Dimensions Folded (mm): 355 (L) x 355 (W) x 60 (D)
- Dimensions Unfolded (mm): 740 (L) x 1500 (W) x 7 (D)

**FOLDING SOLAR MAT KIT**

The new and innovative 120W, 12V portable folding solar mat is designed for maintenance charging of 12V batteries.

The 120W solar mat is made up of 6 x 20W solar cells, folding out into a single row. The kit includes power leads with alligator clamps for easy connection to battery and a 10Amp, 12V PWM solar charge controller which displays battery voltage, battery capacity, battery percentage, ambient temperature and load mode. For ultimate solar harvest, the 120W solar mat can be laid flat across a vehicle windscreen, or mounted via the corner eyelets.

- Ideal size for ultimate solar harvest
- 6 x 20W Powerful Monocrystalline Cells
- Unique, compact size for storage convenience
- Folded dimensions (mm): 395 x 360 x 80
- Unfolded dimensions (mm): 2285 x 360 x 5
- Flexible charging capabilities
- Compatible with wet, AGM & calcium batteries
- Ideal for camping, 4wd & outdoor applications
- Perfect for charging 12V batteries that power camping fridges, lighting, air-compressors & other 12V devices
- Includes 10Amp PWM solar charge controller
- Includes 50A heavy duty connector to pos (+) / neg (-) battery clamps, 550mm lead
- Weight (Kg): 5.0
- Unique Neoprene carry pouch

The highly efficient 120W Portable Folding Solar Kit is comprised of 2 x 60W solar cells configured in parallel. The kit includes a 10M extension lead and a 0.5M lead terminated to alligator clamps for simple connection to power. The kit includes a 10Amp, 12V PWM solar charge controller.

- Features
- Powerful 120W, 12V portable 'brief-case' style kit
- Dimensions folded (mm) 710 x 510 x 65
- Dimensions unfolded (mm): 1020 x 710 x 30
- 10 Amp, 12V PWM solar charge controller
- Solar charge controller IP rating: IP65
- Solar controller is compatible with gel, wet, AGM, calcium & lithium batteries
- Controller features reverse polarity, short circuit and over voltage protection
- 10M, 50Amp extension lead
- Positive & negative alligator clamps, 500mm Lead to 50 Amp, 12-48V connector
- Sturdy aluminium leg supports
- Quality stainless steel latches and hinges
- Controller securely mounted to the panel supports, reducing de-rating
- Protective ABS corners
- Heavy duty swivel carry handle
- Heavy duty storage bag

UNIVERSAL SOLAR PANEL ROD  
MOUNTING SYSTEM FOR  
5W, 10W & 20W SOLAR PANELS**

Ideal for marine applications, including charging of batteries in boats and jet-skis, rural applications on properties with electric fences, security camera battery charging when 240V AC power is unavailable, 12V garden and outdoor lighting, portable solution to charging isolated batteries anywhere.

- 2 x fully adjustable, sliding locking clamps that will accommodate a 5W, 10W or 20W solar panel easily.
- 5mm allen key included to easily secure panel to mounting system
- The locking swivel knuckle allows the user to adjust the solar panel angle to achieve maximum sun exposure.
- Fishing rod male gimbal butt which locks into most universal female rod holders
- 12V, 5 Amp PWM solar charge controller included.

8 AMP, 12V PWM  
SOLAR CHARGE CONTROLLER**

The KT 8 Amp Solar Charge Controller is designed to regulate the amount of charge coming from the panel that flows into the deep cycle battery in order to avoid batteries being overcharged.

- Maintenance charger for small sealed lead-acid batteries
- Compatible with battery types: gel, wet, AGM, calcium
- Suitable for use with 12V solar panels up to 135W
- Advanced pulse width modulation technology (PWM)
- Adjustable dip switch for pre-setting battery chemistry
- LED indicators denote charging full / or fault
- Potted for 100% no condensation
- IP65 rated – dustproof and splashproof
- Easy three point mounting.

15 AMP, 12V PWM  
DUAL SOLAR CHARGE CONTROLLER**

The KT 15 Amp Dual Solar Controller is designed to charge 2 x 12V Batteries simultaneously. Suited to charge gel, wet, AGM, calcium and lithium battery types, this charge controller prevents batteries from becoming overcharged. The unit provides an automatic equalisation feature for deeply drained conventional lead-acid or calcium batteries.

- Ideal for charging 2 x lead-acid batteries simultaneously
- Compatible with battery types: gel, wet, AGM, calcium and lithium
- Solar panel max. 200W or 2 x 120W solar panels
- Selection modes for battery 1 and battery 2
- Preset percentage of available charge
- Reverse polarity, short circuit & over voltage protection
- Pulse width modulation technology (PWM)
- LCD Information screen with selection modes for battery chemistry
- LED indicators display battery status
- Potted for 100% no condensation
- IP65 rated – dustproof and splashproof
- Easy two point mounting.

**KT SOLAR  
10AMP 12V-24V SOLAR CHARGE  
CONTROLLER**

The KT 10 Amp 12V-24V Solar Charge Controller is a safe and efficient way to regulate solar power for Monocrystalline Solar Panels from 20W up to 170W. This solar charge controller offers a 12 Month Warranty.

- Efficient solar power regulation
- Suits fixed & portable solar panels from 20W up to 170W
- Suits GEL, WET, AGM, CALCIUM, LTO, LIFEPO4 & LI-ION battery chemistry types
- 6 Charging Stages including Trickle, Boost, Absorb, Float, Full & Maintain Float
- 6 Safety Protection Features including Overcharge, Reverse Polarity, Short Circuit, Working Battery, Temperature, & Reverse Charging
- PWM (Pulse-Width Modulation) Technology

PRODUCT CODE  
**KT70781**

**KT SOLAR  
20AMP 12V-24V SOLAR CHARGE  
CONTROLLER**

The KT 20 Amp 12V-24V Solar Charge Controller is a safe and efficient way to regulate solar power for Monocrystalline Solar Panels from 100W up to 300W. This solar charge controller offers a 12 Month Warranty.

- Efficient solar power regulation
- Suits fixed & portable solar panels from 100W up to 300W
- Suits GEL, WET, AGM, CALCIUM, LTO, LIFEPO4 & LI-ION battery chemistry types
- 6 Charging Stages including Trickle, Boost, Absorb, Float, Full & Maintain Float
- 6 Safety Protection Features including Overcharge, Reverse Polarity, Short Circuit, Working Battery, Temperature, & Reverse Charging
- PWM (Pulse-Width Modulation) Technology

PRODUCT CODE  
**KT70783**

**KT SOLAR  
50A, 12V HEAVY DUTY CONNECTOR  
WITH IN-BUILT VOLTMETER**

Designed and developed by KT, this connector is unlike standard heavy duty connectors on the market. The device is simple to operate and doubles as a 50Amp Heavy Duty Connector and Voltmeter, providing a live voltage reading of your power connection at the touch of a button. The connector is molded from ultra durable polycarbonate and features a waterproof (IP67) LCD, making it suited to standard, heavy duty and marine environments.

- Live voltage reading via smart-touch LCD
- Reading appears with touch & turns off automatically after 30 seconds
- Waterproof LCD
- Voltage: 12V DC at 50 Amps
- Suits cable size: 8B&S (8mm<sup>2</sup>)
- Nickel plated copper pins
- Pack includes one 50A heavy duty voltmeter connector.

RECOMMENDED APPLICATIONS

**12 MONTH WARRANTY**

PRODUCT CODE  
**KT70030S**

**Notes:** Additional Standard 50Amp heavy duty connector pictured for illustrative purposes only.

**KT SOLAR SOLAR PANEL Y-LEAD CONNECTOR 2 SOCKETS TO 1 PLUG**

Used for connecting the output of two solar panels into a parallel circuit, or multiple panels in an array.

- Waterproof and UV resistant.
- IP 67 Rated.
- Tin plated copper contacts.
- TUV certified.
- 300mm in length.
- Operating temperature -40°C to +90°C.

PRODUCT CODE  
**KT70770**

**KT SOLAR SOLAR MC4 Y-LEAD CONNECTOR 2 PLUGS TO 1 SOCKET**

Used for connecting the output of two solar panels into a parallel circuit, or multiple panels in an array.

- Waterproof and UV resistant.
- IP 67 Rated.
- Tin plated copper contacts.
- TUV certified.
- 300mm in length.
- Operating temperature -40°C to +90°C.

PRODUCT CODE  
**KT70771**

**KT SOLAR Y-LEAD SOLAR CONNECTORS TWIN PACK**

Designed to connect the output of two solar panels into a parallel circuit or multiple panels in array.

- 1 x 2 female-1 male connector Y-lead (KT70770)
- 1 x 2 male-1 female connector Y-lead (KT70771)
- 300mm lead lengths

PRODUCT CODE  
**KT70776**

**KT SOLAR SOLAR MC4 CONNECTOR FEMALE**

For solar cable connections.

- Tin plated copper contacts.
- TUV certified.
- Operating temperature -40°C to +90°C.

PRODUCT CODE  
**KT70773**

**KT SOLAR SOLAR MC4 CONNECTOR MALE**

For solar cable connections.

- Tin plated copper contacts.
- TUV certified.
- Operating temperature -40°C to +90°C.

PRODUCT CODE  
**KT70772**

**KT SOLAR SOLAR MC4 CONNECTOR MALE & FEMALE TWIN PACK**

Female & male connections.

- Tin plated copper contacts.
- Operating temperature: -40°C to 90°C.

PRODUCT CODE  
**KT70774**

**KT SOLAR 50 AMP, 12-48V CONNECTOR TO MALE & FEMALE SOLAR CONNECTORS**

Ideal for automotive, marine, solar & outdoor applications.

- Heavy duty connector rating: 50A, 12V-48V
- Solar connectors rated to 2.20A, 12-48V (TUV certified)
- Solar connector contacts: tin plated copper
- Heavy duty connector housing: polycarbonate
- Cable protection: UV treated, flame-retardant corrugated loom with heavy duty nylon gland end pieces
- Cable length: 600mm
- Cable type: 6mm<sup>2</sup>.

PRODUCT CODE  
**KT70566**

**KT SOLAR 5M EXTENSION LEAD, 50 AMP, 12-48V CONNECTOR TO MALE & FEMALE SOLAR CONNECTORS**

Ideal for automotive, marine, solar & outdoor applications.

- Heavy duty connector rating: 50A, 12V-48V
- Solar connectors rated to 12-48V (TUV certified)
- Solar connector contacts: tin plated copper
- Heavy duty connector housing: polycarbonate
- Cable protection: UV treated, flame-retardant corrugated loom with heavy duty nylon gland end pieces
- Cable length: 5M
- Cable type: 6mm<sup>2</sup> twin core automotive cable (8AWG).

PRODUCT CODE  
**KT70567**

**KT SOLAR SOLAR CHARGE CONTROLLER POWER LEAD**

50A 12V-48V heavy duty connector to 6mm yellow fork terminals for direct power connection 'to and from' solar charge controller.

- Designed for use with KT PWM Solar Charge Controllers 5A, 10A, 20A and 15A+15A Dual Battery.

PRODUCT CODE  
**KT70574**

**KT SOLAR 50A, 12V-48V HEAVY DUTY CONNECTOR**

Blue, single pack.

- Amp rating: 50A
- Voltage rating: 12-48V
- Suits 8B&S cable (8mm)
- Includes silver plated copper terminals
- Manufactured from impact-resistant polycarbonate
- Connects with blue 50A heavy duty connectors.

PRODUCT CODE  
**KTHDC50BE**

**KT SOLAR 600MM SOLAR LEAD, MALE & FEMALE SOLAR CONNECTORS TO 8MM RING TERMINALS**

Ideal for automotive, marine, solar & outdoor applications.

- Solar connectors rated to 12-48V (TUV certified)
- Solar connector contacts: tin plated copper
- 2 x 8mm ring terminals for easy connection to battery
- Cable protection: UV treated, flame-retardant corrugated loom with heavy duty nylon gland end pieces
- Cable length: 600mm
- Cable type: 6mm<sup>2</sup>.

PRODUCT CODE  
**KT70568**

**KT SOLAR 50AMP HEAVY DUTY CONNECTOR TO FORK TERMINALS**

Provides power connection 'to and from' solar charge controller. Ideal for automotive, marine, solar and outdoor applications. Suitable for use with all KT solar charge controllers.

- Connector Rating: 50A, 12V-48V
- Connector Housing: Polycarbonate
- Terminals: Silver plated copper
- Fuse: 20A In-line

PRODUCT CODE  
**KT70573**

**KT SOLAR 50A, 12V-48V HEAVY DUTY CONNECTOR**

Red, single pack.

- Amp rating: 50A
- Voltage rating: 12-48V
- Suits 8B&S cable (8mm)
- Includes silver plated copper terminals
- Manufactured from impact-resistant polycarbonate
- Connects with blue 50A heavy duty connectors.

# NAVIGATA

**NARVA  
MARINE LIGHT BARS**

The all new range of Navigata L.E.D light bars feature advanced Optic Drive™ technology, which captures and focuses more of the light generated to produce an extra penetrating light output, eliminating waste and resulting in a 30% brighter output.

- One piece die-cast aluminium housing designed without end caps provides optimum sealing and heat dissipation.
- Virtually unbreakable hard coated polycarbonate lens.
- Stainless steel brackets & mounting hardware (SUS316).
- Fully sealed and submersible (IP68 & IP69K approved).
- Integrated genuine Nitto Breather Vent.
- Pre-wired weatherproof DT connector.

**180MM 9-32V**

THE VISION TO GO FURTHER

**NARVA  
HEAVY-DUTY LED FLOOD BEAM  
MARINE WORK LAMP BAR  
1600 LUMENS**

Extreme performance and reliability with a heavy-duty slimline die-cast and powder coated aluminium housing ideal for RV and 4WD applications. Fully sealed (IP68) and pre-wired. With white powder coated finish and marine grade 316 stainless steel mounting hardware.

- 8 x 3W high power L.E.Ds.
- Virtually unbreakable polycarbonate lens.
- 250mm pre-wired lead with Deutsch® connector.
- Current Draw: 1.2A at 12V, 0.6A at 24V

PRODUCT CODE  
**72733W**

**NARVA  
HEAVY-DUTY LED FLOOD BEAM  
MARINE WORK LAMP BAR  
2400 LUMENS**

Extreme performance and reliability with a heavy-duty slimline die-cast and powder coated aluminium housing ideal for RV and 4WD applications. Fully sealed (IP68) and pre-wired with white powder coated finish and marine grade 316 stainless steel mounting hardware

- 12 x 3W high power L.E.Ds.
- Virtually unbreakable polycarbonate lens.
- 250mm pre-wired lead with Deutsch® connector.
- Current Draw: 1.8A at 12V, 0.9A at 24V

PRODUCT CODE  
**72736W**

**NARVA  
HEAVY-DUTY LED FLOOD BEAM  
MARINE WORK LAMP BAR  
800 LUMENS**

Extreme performance and reliability with a heavy-duty slimline die-cast and powder coated aluminium housing ideal for RV and 4WD applications. Fully sealed (IP68) and pre-wired. With white powder coated finish and marine grade 316 stainless steel mounting hardware.

- 5 x 3 watt high powered L.E.Ds.
- Virtually unbreakable polycarbonate lens.
- 250mm pre-wired lead with Deutsch® connector.
- Current Draw: 0.6A at 12V, 0.3A at 24V

PRODUCT CODE  
**72730W**

**NARVA  
9-33V LED FLOOD BEAM  
WHITE SCENE LAMP  
2700 LUMENS**

Engineered for emergency services vehicles and also suitable for marine applications where high levels of ingress protection are required (IP68 and IP69 ingress protection). Constructed from a die-cast aluminium housing and ASA covers for the best possible UV protection.

- Virtually unbreakable polycarbonate lens with hard coating.
- Complies to ECE R10 and CISPR 25 EMC standards.
- Snap on end caps to conceal mounting screws.
- Current Draw: 1.1A at 12V, 0.6A at 24V.

PRODUCT CODE  
**72467W**

**NARVA LED DECK LAMP RED/WHITE LIGHT OUTPUT**

Corrosion and galvanic corrosion on aluminium boats needs to be managed. By using a nylon bracket and nylon fixing hardware, including a nylon locknut and washer to fix the lamp to the boat, galvanic corrosion between the bracket and aluminium is no longer possible.

- White/red illumination is ideal for night vision.
- Features a plastic lamp body and bracket to prevent corrosion of the lamp, bracket, and galvanic corrosion on aluminium boats.
- 1000 Lumen white output (5700°K) and 623nm red output.
- Ideal for marine environments (IP67).
- Shock and vibration tested to JIS D1601 (marine standard).

**NARVA 12V DUAL COLOUR STRIP LAMP**

These sleek and low profile strip lamps feature dual colour SMD technology enabling one lamp to do the job of two. They are fully sealed to IP66 and suitable for either interior or exterior fitment. Surface mount design for easy installation.

- Ideal for fitment to both RV and Marine applications as the blue illumination provides comfortable mood lighting and a premium feel.
- Suitable for exterior or interior applications.
- Slim design - 13mm.
- Ultra reliable, fully sealed (IP66) and sea/salt spray resistant.

PRODUCT CODE  
**87538WBBL WHITE/BLUE L.E.D**  
**87538WRBL WHITE/RED L.E.D**

**NARVA 9-33V LED 600 LUMENS MARINE WORK LAMP**

The benefits of L.E.D technology are numerous so it's no surprise that work lamps are utilising L.E.Ds to provide lamps with lower current draw and long life. Perhaps more importantly L.E.Ds are resistant to shock and vibration making L.E.D work lamps tougher than their halogen counterparts.

- Powerful 4 x 1W slim and compact L.E.D work lamp.
- Fully sealed (IP66) with a pre-wired, die-cast powder coated aluminium housing.
- Virtually unbreakable stainless polycarbonate lens.
- Marine grade 316 stainless steel mounting hardware.

PRODUCT CODE  
**72412W**

**NARVA 9-64V LED FLOOD BEAM WHITE WORK LAMP 1800 LUMENS**

Four ultra reliable 5W L.E.Ds deliver a powerful spread of whiter and brighter light. Fully sealed (IP66) with a pre-wired die-cast white powder coated aluminium housing with marine grade 316 stainless steel mounting hardware.

- Virtually unbreakable polycarbonate lens.
- Includes stainless steel mounting hardware and 0.5m of pre-wired cable.
- Current Draw: 1.3A at 12V, 0.7A at 24V.

PRODUCT CODE  
**72449W**

**NARVA HEAVY-DUTY LED MARINE WORK LAMP BAR 800 LUMENS**

Features a powerful yet compact work lamp with two powerful 5W L.E.Ds ideal for close range illumination and where space is limited. Fully sealed (IP66) with a pre-wired die-cast powder coated aluminium housing, white powder coated finish with marine grade 316 stainless steel mounting hardware.

- Virtually unbreakable polycarbonate lens.
- Includes stainless steel mounting hardware.
- Current Draw: 0.58A at 12V, 0.3A at 24V.

PRODUCT CODE  
**72446W**

**NARVA 9-64V LED FLOOD BEAM WHITE WORK LAMP 2700 LUMENS**

Six 5W L.E.Ds combine to deliver an intense and broad spread of bright white light. Fully sealed (IP66) with a pre-wired die-cast white powder coated aluminium housing with marine grade 316 stainless steel mounting hardware

- Virtually unbreakable polycarbonate lens.
- Includes stainless steel mounting hardware and 0.5m of pre-wired cable.
- Current Draw: 1.85A at 12V, 0.9A at 24V.

REMOTE CONTROL  
SEARCH LAMP**

A compact, powerful 30W L.E.D search lamp that is ideal for applications where space is limited and reliability is essential. Can be permanently mounted with its flange base or utilise the inbuilt ceramic disc magnet for temporary installation. Supplied with a convenient weatherproof wireless remote control.

- 6 x 5W high powered L.E.Ds (6000K).
- 360 degree rotation & 90 degree tilt.
- Emergency flash mode.
- Waterproof wireless remote control (65m range).
- Weatherproof and UV resistant housing.
- Fully sealed (IP68) L.E.D module.
- Includes magnetic mounting option and 4m lead.
- Wireless Remote Distance: 65 metres.

HANDHELD COLT  
1000 LED SPOT LIGHT  
4000 LUMEN**

This heavy duty LED handheld spotlight features 6 high powered LEDs, providing a crisp spot beam range of up to 285 metres. Specifically designed and tested for tough conditions, the 'Colt 1000' has a tough lightweight build, without compromising the L.E.Ds performance output.

- 6 x 5W L.E.Ds producing 4000 raw lumens.
- 285 metre beam pattern at 1 Lux.
- Crisp 5700°K light output.
- Durable construction with ergonomic handle.
- Includes 12/24V accessory plug.

**PROJECTA**  
**12V SURE BRAKE**  
**EMERGENCY TRAILER BREAKAWAY KIT**

Projecta has released its new Sure Brake Trailer Breakaway Kit, which ensures safety in a towing disconnection emergency. The TBS700 Sure Brake accomplishes this with a durable, all-in-one case that houses its own 12V battery and charger and can be installed out of view, leaving only the plunger, lanyard and carabiner visible. The battery case can be hard wired to the tow vehicle alternator or charged externally via its terminal posts on the front, ensuring its 12V 7A battery always has charge. A test button allows for easy checking of battery status and there is a remote monitoring output wire for those who wish to install the battery case out of reach or monitor from the tow vehicle cabin.

- Built in 12V 7Ah sealed lead-acid battery
- Charged via: House battery of trailer, alternator of tow vehicle or external battery charger
- Push to test function
- Fused battery connection
- Potted circuitry
- Overvoltage, overcurrent and short circuit protection ensuring the safety of the system and its battery
- Pre-wired, colour-coded inputs and outputs and supplied mounting screws offer ease of installation

**PLUG & PLAY TRAILER LAMP KIT**

Model 37 trailer lamps are protected from water ingress with a two-stage system that incorporates ultrasonic welding and a two-part epoxy glue.

- A complete 'Plug and Play' solution for boat trailers making installation easier and quicker. Perfect for DIY installation.
- Each kit contains all the necessary lamps to comply a standard boat trailer to the Australian Design Regulations (ADR 13/00) for lighting installations.
- Waterproof connection system utilises over-moulded connectors that quickly join the lamps and trailer plug to the main wiring harness.
- No splicing or joining of wires is required, making connections a tool free operation.
- The Kit contains two 12/24V rear combination lamps (93732-9 & 93736-9), two amber LED side marker lamps, main harnesses and a 7-pin flat plug.

**NARVA STAINLESS STEEL CABLE TIE TOOL**

A premium quality stainless steel cable tie tensioning tool that incorporates cutting blades in the tip which automatically and effortlessly cut the tie at the desired set tension. The tool is suitable for stainless steel cable ties up to 7.9mm wide and 0.3mm thick.

PRODUCT CODE  
**56503BL**

**NARVA WEATHERPROOF FUSE BOX**

A weatherproof/splashproof fuse box ideally suited to Marine, RV or exterior fitment type applications where prevention of dust, grime and water ingress is critical.

- Max Amps per Circuit: 25A at 12V.
- Max Amps per Block: 150A at 12V.
- Max Voltage: 32V DC.
- IP56 (when installed).
- Transparent screw tight cover.
- Suitable for use with standard ATS blade fuses.
- Suits panel mount applications.
- Pre-wired terminals.

PRODUCT CODE  
**54444BL**

**NARVA 10 WAY ATS LED FUSE BOX WEATHERPROOF**

A weatherproof/splashproof fuse box ideally suited to Marine, RV or exterior fitment type applications where prevention of dust, grime and water ingress is critical.

- Max Amps per Circuit: 25A at 12V.
- Max Amps per Block: 150A at 12V.
- Max Voltage: 32V DC.

PRODUCT CODE  
**54445BL**

**NARVA 6 WAY FUSE BOX WITH COVER**

A professional fuse box eliminates extensive and messy wiring in applications with limited earth connections such as caravans, motor homes and marine applications etc.

- Max Amps per Circuit: 30A at 12V.
- Max Amps per Block: 120A at 12V.
- Max Voltage: 32V DC.

PRODUCT CODE  
**54446BL**

**NARVA 12-WAY FUSE BOX WITH COVER**

A professional fuse box eliminates extensive and messy wiring in applications with limited earth connections such as caravans, motor homes and marine applications etc.

- Max Amps per Circuit: 30A at 12V.
- Max Amps per Block: 120A at 12V.
- Max Voltage: 32V DC.

**KICKER  
MARINE COMPACT  
DIGITAL MEDIA RECEIVER**

Equipped with an easily readable screen, rotary encoder and over 200 watts of total peak power into four channels, the KMC3 comes equipped with plenty of power. Add even more bump to your boat by adding amplifiers to the included RCA outputs.

- Fits in gauge opening.
- Uses USB, RCA, AM/FM and Bluetooth audio sources.
- USB audio playback or charging.
- RCA outputs.
- IP67 certification.
- Bluetooth Range: 30 feet.

PRODUCT CODE  
**80 46KMC3**

**KICKER  
MARINE DUAL ZONE  
DIGITAL MEDIA RECEIVER**

The KMC4 features four channels and up to 200 watts of built-in power. It comes equipped with an AM/FM/weather-band tuner, charging USB connection and four sets of RCA outputs for easy expansion. The KMC4 is ready for any music you want to play.

- Charging USB w/Thumb-Drive Playback
- Bluetooth Connectivity
- Full-Colour LCD Display
- 3in Hole Cutout
- KRC12 Remote Compatible
- AM/FM and Weather-Band Tuner
- Up to 10 Favorites for each source: AM and FM
- Front and Rear RCA Outputs, Plus Subwoofer and Zone 2
- AUX RCA Input

PRODUCT CODE  
**80 46KMC4**

**KICKER  
MARINE PREMIUM

**KICKER  
6.75IN HIGH EFFICIENCY  
MARINE COMPONENT SPEAKER  
SYSTEM**

The KMS67 Tower System is a horn-loaded, compression-driver (HLCD), high-efficiency component system providing maximum sound quality and especially at a distance. The system is weather-proof with sealed cones, motor assemblies and UV-treated components.

- The system is weather-proof with sealed cones
- Peak: 400W, RMS: 200W

PRODUCT CODE  
**80 41KMS674C**

**KICKER  
6.75IN MARINE TOWER  
LONG THROW SPEAKER SYSTEM**

The KMT67 Tower System is a full-range, high-quality two-way speaker system with dual weather-proof, injection-moulded enclosures.

- Enclosures designed for either below- or above-the-bar mounting
- The system is weather-proof with sealed cones, motor assemblies and UV-treated components
- Dual midrange drivers (per enclosure) provide twice the cone area for big sound
- Billet-aluminum brackets and clamp inserts adjust to seven common sizes, matching most every wake tower or roll-bar diameter

PRODUCT CODE  
**80 41KMT674**

**KICKER  
6.5IN 195W COAXIAL  
MARINE SPEAKER PAIR**

Our speakers are made to thrive in the water. UV treatments on injection-moulded cones, Santoprene surrounds, baskets and grilles all help maintain top-shelf performance. KM speakers will endure almost any weather conditions with splash-and-spray-resistant sealed motors, cones and locking/sealed terminal covers.

- Four-Ohm voice coil
- 3/4-Inch titanium tweeter
- UV-treated polypropylene woofer with santoprene surround
- UV-resistant polymer basket
- Locking/sealed terminal cover
- Sealed motor structure
- 316l stainless mounting hardware included
- Charcoal and white grilles included

PRODUCT CODE  
**80 45KM654**

**KICKER  
6.5IN 195W COAXIAL LED  
MARINE SPEAKER PAIR**

These speakers are made to thrive in the water. UV treatments on injection-molded cones, Santoprene surrounds, baskets and grilles all help maintain top-shelf performance. KM speakers will endure almost any weather conditions with splash-and-spray-resistant sealed motors, cones and locking/sealed terminal covers.

- Spectacular full-range audio quality for your boat
- Multi-colour LED's can be changed to fit your mood
- Included with easy-to-match charcoal or white grilles
- Control LED colours with optional KMLC remote
- Peak: 195W, RMS: 65W

PRODUCT CODE  
**80 45KM654L**

**KICKER  
6.5IN WHITE 150W COAXIAL  
MARINE SPEAKER PAIR**

These powerful 6-1/2in speakers are tough enough for marine duty, but easy on your ears. The durable poly woofers and 1/2in balanced dome tweeters cut through wind, waves, and engine roar to deliver great sound without annoying harshness.

- 2-way 6-1/2in marine speakers (pair)
- UV-treated polypropylene woofer with Santoprene rubber surround
- 1/2in PEI film dome tweeter with neodymium magnet
- White grilles
- Sealed motor structure and locking terminal covers
- Power range: 2-50 watts RMS (150 watts peak power)
- Frequency response: 35-21,000 Hz
- Sensitivity: 90 dB

PRODUCT CODE  
**80 41KM604W**

**KICKER  
6.5IN DUAL WEATHER PROOF EMPTY  
TOWER SPEAKER ENCLOSURES 2PK**

Mount 6-inch KICKER speakers for external listening in marine and powersport applications with weather-proof KM-Series Tower-Speaker Empty Enclosures.

- Designed with a nine-degree axis rotation in either direction, allowing the speaker cans to be aimed in the most desirable location to deliver maximum sound quality.
- Includes polyfill, mounting hardware, aluminum tower-pipe clamps (2-5/8-inch)
- Three sizes of mounting adapters for the most popular pipe diameters (2-1/4, 2-3/8, 2-1/2)
- KICKER also offers the KMTAP Tower Enclosure Adapter Pack (sold separately) for fitting several other pipe sizes.

PRODUCT CODE  
**80 12KMTED**

**KICKER  
6.5IN BLACK WEATHER PROOF EMPTY  
TOWER SPEAKER ENCLOSURE 2PK**

Mounting powerful 6-inch KICKER speakers for external listening in marine and powersport applications just got easier with KICKER's durable and weather-proof KM-Series Tower-Speaker Empty Enclosures.

- Two enclosures per carton
- Tough ABS, weather-proof empty enclosures with slotted mounting holes for different bolt patterns
- Nine-degree axis rotation in either direction for aiming maximum sound quality
- Fits Mounting Tube Sizes
- Satin nickel plated brass binding posts (screw to tighten style)

PRODUCT CODE  
**80 12KMTES**

**KICKER  
ADAPTER PACK FOR KMTES & KMTED  
TOWER ENCLOSURES**

The KMTAP Marine Enclosure Adapter Pack allows KICKER marine towers and empty enclosures to fit even more pipe sizes, assuring that we have the size you need! KMTAP is compatible with KMTES, KMTED and KMTES8 Speaker Enclosures.

- Black marine grade plastic
- Kit has the following adapter sizes: (4) 1 5/8in, (4) 1 3/4in, (4) 1 7/8in, (4) 2in

PRODUCT CODE  
**80 12KMTAP**

**KICKER  
LED LIGHTING REMOTE WITH  
RECEIVER MODULE**

Make your KICKER subs and speakers light up.

- 19 lighting modes and 20 colours to choose from
- Fade, brightness, speed/strobe and colour options

PRODUCT CODE
